INDEPENDENT AUDITORS' REPORT

To the Participants in and Administrator of the
Employee Savings Plan of Winston & Strawn LLP:

We have audited the accompanying financial statements of the Employee Savings Plan of Winston & Strawn LLP (the "Plan"), which comprise the statements of net assets available for benefits as of January 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended January 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Employee Savings Plan of Winston & Strawn LLP Plan as of January 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended January 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management and is derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such supplemental schedule has been subjected to the auditing procedures applied in our audit of the 2013 financial statements and certain additional procedures, including comparing and reconciling such supplemental schedule directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such supplemental schedule is fairly stated in all material respects in relation to the 2013 financial statements as a whole.

1. DESCRIPTION OF THE PLAN

The Employee Savings Plan of Winston & Strawn LLP (the "Plan") was established effective February 1, 1988, and is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan document was restated effective February 1, 2011; however, there were no significant changes as a result of the restatement. The following description of the Plan provides only general information. Participants should refer to the Plan document for more specific information.

General — The Plan sponsor, Winston & Strawn LLP, an Illinois limited liability partnership, is hereinafter referred to as the "Partnership." The Winston & Strawn LLP Retirement Plans Committee is the Plan administrator and consists of partners of the Partnership who are appointed by the Partnership's Executive Committee. Fidelity Management Trust Company ("Fidelity" or "Trustee") is the custodian and trustee of the Plan's assets and Fidelity Investments Institutional Operations Company Inc. is the recordkeeper. A "Plan Year" covers the 12-month period commencing on February 1 and ending on the following January 31. The Plan is subject to the provisions of the Employee Retirement Income Security Act 1974 ("ERISA").

Eligibility and Vesting — All partners, associate attorneys, of counsel, and administrative staff members of the Partnership are eligible to participate in the Plan upon their date of hire. Participants are 100% vested immediately upon entry into the Plan.

Contributions — The Partnership does not make contributions to the Plan. Participants may contribute, on a pretax basis, up to 50% of their compensation, as defined in the Plan, during the Plan Year, subject to certain Internal Revenue Code (IRC) limitations, and may change their contribution rate effective as of any payroll period. Participants may also elect to make Roth (after tax) contributions, subject to certain IRC limitations.

Rollover Contributions — Rollover contributions to the Plan may be in the form of a direct transfer from a qualified retirement plan or conduit individual retirement account (IRA). Additionally, a partner or an employee may receive a distribution check from a qualified retirement plan or conduit IRA, and deposit it in the Plan within 60 days of the distribution date.

A partner or employee who makes only a rollover contribution to the Plan will become a Plan participant with respect to the rollover contribution only.

Participant Accounts — Individual accounts are maintained for each participant of the Plan. Accounts are valued daily by Fidelity. Participants direct the investment of their contributions into various options offered by the Plan and in the self-directed brokerage account option. Participants may transact on a daily basis within these options.

Participant accounts are credited with the contributions and/or transfers made and reflect allocations of investment gains or losses through changes in the value of the investments in their account. Dividends and capital gain distributions earned on investments are automatically reinvested. For self-directed brokerage accounts, dividend income is recorded on the ex-dividend date and interest income is recorded as earned. The benefit to which each participant is entitled is the value of the benefit that can be provided from the participant's account.

Notes Receivable from Participants — A participant may apply for a loan for any purpose other than the purchase of publicly traded securities. Loan terms range from 1 to 5 years. As of January 31, 2013, participant loans have maturities through 2018 at interest rates ranging from 4.25% to 9.25%. The loans are secured by the balances in the participants' accounts. Other details of the Plan's loan provision include the following:

There is a limit of one new loan each Plan Year.

a. The minimum amount of a loan is $1,000.

b. The amount of the loan at origination date, when added to the participant's then-outstanding loan balance(s) under the Plan, may not exceed 50% of the value of the participant's Plan account balance.

c. The amount of the loan at origination date, when added to the participant's then-outstanding loan balance(s) under the Plan and the Winston & Strawn LLP Retirement Plan (the "Retirement Plan"), if applicable, may not exceed $50,000, reduced by the highest outstanding balance of the participant's combined loans from the Plan and the Retirement Plan during the one-year period ending on the day before which such loan is to be made.

d. For each loan, a participant's account is charged a loan origination fee of $35, plus a quarterly maintenance fee of $3.75.

e. The interest rate charged for a loan originated within the Plan is equal to the current prime rate, plus one percentage point determined at the time the loan is made. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits — Under the terms of the Plan, a participant may withdraw all or a portion of his or her account balance upon retirement or other separation from service. A participant may elect to receive the withdrawal in partial payments, as a lump-sum payment, or as a direct transfer to an eligible retirement plan or IRA. A participant who has reached 59 1/2 may withdraw all or any part of his or her account balance prior to retirement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participant account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investments in the Master Trust are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Interest bearing cash is valued at face value. The common and preferred stocks, unit investment trust, and stock options held by the Plan are valued at the closing price reported on the New York Stock Exchange on the last business day of the Plan Year. Shares of mutual funds are valued at quoted market prices that represent the net asset value of shares held at plan year-end. The stable value fund (the "SV Fund") is stated at fair value and then adjusted to contract value as described below. Fair value of the SV Fund is the net asset value ("NAV") of its underlying investments, and contract value is principal plus accrued interest. Corporate bonds and government and agency obligations are valued based on quotations received from dealers who make markets in such securities or by independent pricing services. Pricing services generally utilize matrix pricing, which considers yield or price of bonds of comparable quality, coupon, maturity, and type, as well as dealer-supplied prices.

In accordance with GAAP, the SV Fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis. The SV Fund may invest in fixed-interest insurance investment contracts, money market funds, corporate and government bonds, mortgaged-backed securities, bond funds, and other fixed-income securities. This fund is fully benefit responsive. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the SV Fund, plus earnings, less participant withdrawals. The crediting interest rate of the SV Fund was 1.78% and 1.89% at January 31, 2013 and 2012, respectively. The average yield for the SV Fund was 1.28% for the year ended January 31, 2013.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of investments in Master Trust includes the Master Trust's gains and losses on investment bought and sold as well as held during the year.

Management fees and operating expenses charged to the Winston & Strawn LLP Retirement Plan Master Trust (the "Master Trust") for investments in mutual funds and the SV Fund are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Administrative Expenses — The Partnership pays all administrative expenses related to the Plan. Transaction fees charged by Fidelity for benefit distributions and loans are deducted from participants' accounts. Transaction fees related to assets held in self-directed brokerage accounts are reflected in the cost basis of those assets.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There are no amounts allocated to accounts of persons who had elected to withdraw from the Plan but had not yet been paid as of January 31, 2013 and 2012.

New Accounting Standards — The accounting standard initially adopted in 2012 is described below.

ASU No. 2011-04 — The financial statements reflect the prospective adoption of FASB ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which amends ASC 820, as of the beginning of the year ended January 31, 2013 (see Note 4). ASU 2011-04 is effective for financial statements issued for fiscal years beginning after December 15, 2011 and expands certain disclosures about fair value measurement. The ASU requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. It provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The effect of the adoption of ASU 2011-04 had no impact on the Plan's statement of net assets available for benefits and statement of changes in net assets available for benefits.

3. FAIR VALUE MEASUREMENTS

All of the Plan's investment assets are held in a trust account at the Trustee and consist of an interest in an investment account of the Master Trust, a master trust established by the Partnership and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of the Retirement Plan for investment and administrative purposes. Although assets of both plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. On a daily basis, the ratio of the Plan's assets to the value of the respective assets held in the Master Trust is used to allocate interest income, dividend income, and net appreciation (depreciation) in the fair value of investments (which consists of realized gains (losses) and unrealized appreciation (depreciation) in the fair value of investments). The Plan had an interest of 44% in the net assets of the Master Trust as of January 31, 2013, and 42% as of January 31, 2012.

ASC 820 establishes a single authoritative definition of fair value, sets a framework for measuring fair value, and requires disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market, but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

A summary of the Master Trust and the Plan's investments measured at fair value on a recurring basis, as of January 31, 2013 and 2012, set forth by level within the fair value hierarchy, is as follows:

(a) The investment objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. The redemption of units is available on any business day. The SV Fund may invest in fixed-interest insurance investment contracts, money market funds, corporate and government bonds, mortgaged-backed securities, bond funds, and other fixed-income securities. The adjustment from fair value to contract value for the fully benefit-responsive SV Fund in the Master Trust was $1,261,560 and $1,469,757 as of January 31, 2013 and 2012, respectively. See Note 5.

The Plan's policy is to recognize significant transfers between levels at the end of the year when the event or change in circumstances occurs. Certificates of deposits were transferred from Level 1 to Level 2 during the year ended January 31, 2012. There were no transfers for the year ended January 31, 2013.

The Plan's investments that represent 5% or more of the Plan's net assets available for benefits as of January 31, 2013 and 2012 are as follows:

Net investment income of the Master Trust	$ 44,744,947

5. STABLE VALUE FUND

The SV Fund is a collective trust fund sponsored by Fidelity. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the SV Fund's constant NAV of $1 per unit. Distribution to the SV Fund's unit holders is declared daily from the net investment income and automatically reinvested in the SV Fund on a monthly basis, when paid. It is the policy of the SV Fund to use its best efforts to maintain a stable NAV of $1 per unit, although there is no guarantee that the SV Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the SV Fund, plus earnings, less participant withdrawals and administrative expenses. The SV Fund imposes certain restrictions on the Plan, and the SV Fund itself may be subject to circumstances that affect its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the SV Fund to transact at less than contract value is not probable.

Limitations on the Ability of the SV Fund to Transact at Contract Value

Restrictions on the Plan — Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan sponsor. The following employer-initiated events may limit the ability of the SV Fund to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA
- Any communication given to Plan participants designed to influence a participant not to invest in the SV Fund or to transfer assets out of the SV Fund
- Any transfer of assets from the SV Fund directly into a competing investment option
- The establishment of a defined contribution plan that competes with the Plan for employee contributions
- Complete or partial termination of the Plan or its merger with another plan

Circumstances that affect the SV Fund — The SV Fund invests in assets, typically fixed-income securities or bond funds, and enters into "wrapper" contracts issued by third parties. A wrap contract is an agreement by another party, such as a bank or insurance company to make payments to the SV Fund in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The wrap contracts generally contain provisions that limit the ability of the SV Fund to transact at contract value upon the occurrence of certain events. These events include:

- Any substantive modification of the SV Fund or the administration of the SV Fund that is not consented to by the wrap issuer
- Any change in law, regulation, or administrative ruling applicable to a plan that could have a material adverse effect on the SV Fund's cash flow
- Employer-initiated transactions by participating plans as described above

In the event that wrap contracts fail to perform as intended, the SV Fund's NAV may decline if the market value of its assets declines. The SV Fund's ability to receive amounts due pursuant to these wrap contracts is dependent on the third-party issuer's ability to meet their financial obligations. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments.

The SV Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets. This could result from the SV Fund's inability to promptly find a replacement wrap contract following termination of a wrap contract. Wrap contracts are not transferable and have no trading market. There are a limited number of wrap issuers. The SV Fund may lose the benefit of wrap contracts on any portion of its assets in default in excess of a certain percentage of portfolio assets.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

As Fidelity is a service provider of the Plan, transactions in the investments managed by Fidelity affiliates qualify as exempt party-in-interest transactions. In addition, the Plan document provides for secured participant loans, which also qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each investment.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Partnership has the right, as stated in the Plan document, to terminate the Plan at any time, subject to the provisions of ERISA.

8. FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter dated April 23, 2012, in which the Internal Revenue Service (IRS) stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the IRC. The Plan was subsequently amended on May 3, 2012, to clarify the meaning of participant elective contributions. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of January 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
