Note 1. Description of the Plan

The following description of the Parkview Orthopaedic Group, S.C. Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of Parkview Orthopaedic Group, S.C., PMI Diagnostic Imaging, LLC and Park Services, L.P. (collectively, the Company) who have completed two months of service and are age 21 or older. Employees who are covered by a collective bargaining agreement are not eligible to participate in the Plan. Eligible employees may become participants in the Plan immediately following the completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Each year, participants may contribute up to 20 percent of pre-tax annual compensation and up to 100 percent of bonuses at designated payroll periods, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds as investment options for participants. Company profit-sharing contributions and matching contributions are discretionary in nature and determined by the Company's Board of Directors, as defined in the plan document. There were no matching contributions for the year ended January 31, 2013. Discretionary Company contributions, if any, are allocated to six possible class levels based on position and compensation. Employees who terminate prior to the Plan's year-end, other than by reason of retirement, disability or death, are not eligible for profit sharing or matching contributions related to that year. Contributions are subject to certain limitations. The profit sharing contribution for the year ended January 31, 2012, that was credited to participants' accounts during the year ended January 31, 2013, was $534,309. The profit sharing contribution for the year ended January 31, 2013, totaling $647,545 was credited to the participants' accounts subsequent to year-end.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of the discretionary Company contribution, investment earnings or losses and expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings or losses thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. Loans are to be repaid within five years unless the loan is being taken to purchase a primary residence, which may be repaid over a period up to 10 years. Only one loan may be outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at the prime rate in effect at the loan's inception, which is commensurate with local prevailing rates as determined quarterly by the Plan Administrator. The interest rates on outstanding loans ranged from 3.25 percent to 6.25 percent. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. In addition, the Plan permits hardship withdrawals and in-service distributions if certain criteria are met.

Note 1. Description of the Plan (Continued)

Forfeited accounts: At January 31, 2013 and 2012, forfeited nonvested accounts totaled $2,878 and $9,433, respectively. These accounts will be used first to pay administrative expenses and then to reduce future employer contributions. During the year ended January 31, 2013, forfeitures from nonvested accounts of $7,000 were used to pay administrative expenses.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Board of Directors determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Expenses will be paid from the Plan if not paid by the Company.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The requirements of this pronouncement did not impact the Plan's fair value disclosures.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Note 2. Summary of Significant Accounting Policies (Continued)

Reclassifications: Certain amounts in the January 31, 2012 financial statements have been reclassified to conform to the January 31, 2013 financial statement presentation.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through November 12, 2013, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset and income information as of January 31, 2013 and 2012, and for the year ended January 31, 2013, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Fidelity Management Trust Company (Fidelity), the trustee, that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2013	2012
Shares of registered investment companies	$ 15,674,487	$ 14,064,377
Notes receivable from participants	$ 81,543	$ 98,238
Net appreciation in fair value of investments	$ 867,273	
Interest and dividends	$ 505,544	
Interest income on notes receivable from participants	$ 3,156	

Note 4. Investments

Investments that represent 5 percent or more of the Plan's net assets at January 31, 2013 and 2012 are separately identified below:

	2013	2012
Fidelity Prime Fund	$ 1,192,451	$ 1,712,319
Janus Balanced Fund Class S	5,430,251	5,531,040
Fidelity Advisor Strategic Income Fund Class A	2,879,578	1,806,301
Fidelity Advisor Industrials Fund Class A	1,007,496	*

* Less than 5 percent at year-end.

The Plan's investments in shares of registered investment companies, including investments bought sold and held during the year appreciated by $867,273 during the year ended January 31, 2013.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 31, 2013 and 2012.

> *Shares of registered investment companies*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of January 31, 2013 and 2012:

Note 5. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended January 31, 2013, there were no transfers in or out of Level 3.

Note 6. Related-Party Transactions

Certain plan investments are shares of registered investment companies managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were included as a reduction of the return earned on each fund. Transaction-based fees paid by the Plan were $825 for the year ended January 31, 2013.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the provisions of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts.

Note 8. Tax Status

The Plan has adopted a volume submitter plan sponsored by Fidelity Management & Research Company. The Internal Revenue Service issued an opinion letter stating that the volume submitter plan was designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The volume submitter plan opinion letter has been relied upon by this Plan. The Company believes that the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at January 31, 2013 and 2012, to the Form 5500:

Note 1. Description of the Plan

The following description of the Parkview Orthopaedic Group, S.C. Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of Parkview Orthopaedic Group, S.C., PMI Diagnostic Imaging, LLC and Park Services, L.P. (collectively, the Company) who have completed two months of service and are age 21 or older. Employees who are covered by a collective bargaining agreement are not eligible to participate in the Plan. Eligible employees may become participants in the Plan immediately following the completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Each year, participants may contribute up to 20 percent of pre-tax annual compensation and up to 100 percent of bonuses at designated payroll periods, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds as investment options for participants. Company profit-sharing contributions and matching contributions are discretionary in nature and determined by the Company's Board of Directors, as defined in the plan document. There were no matching contributions for the year ended January 31, 2013. Discretionary Company contributions, if any, are allocated to six possible class levels based on position and compensation. Employees who terminate prior to the Plan's year-end, other than by reason of retirement, disability or death, are not eligible for profit sharing or matching contributions related to that year. Contributions are subject to certain limitations. The profit sharing contribution for the year ended January 31, 2012, that was credited to participants' accounts during the year ended January 31, 2013, was $534,309. The profit sharing contribution for the year ended January 31, 2013, totaling $647,545 was credited to the participants' accounts subsequent to year-end.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of the discretionary Company contribution, investment earnings or losses and expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings or losses thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. Loans are to be repaid within five years unless the loan is being taken to purchase a primary residence, which may be repaid over a period up to 10 years. Only one loan may be outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at the prime rate in effect at the loan's inception, which is commensurate with local prevailing rates as determined quarterly by the Plan Administrator. The interest rates on outstanding loans ranged from 3.25 percent to 6.25 percent. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. In addition, the Plan permits hardship withdrawals and in-service distributions if certain criteria are met.

Note 1. Description of the Plan (Continued)

Forfeited accounts: At January 31, 2013 and 2012, forfeited nonvested accounts totaled $2,878 and $9,433, respectively. These accounts will be used first to pay administrative expenses and then to reduce future employer contributions. During the year ended January 31, 2013, forfeitures from nonvested accounts of $7,000 were used to pay administrative expenses.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Board of Directors determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Expenses will be paid from the Plan if not paid by the Company.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The requirements of this pronouncement did not impact the Plan's fair value disclosures.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Note 2. Summary of Significant Accounting Policies (Continued)

Reclassifications: Certain amounts in the January 31, 2012 financial statements have been reclassified to conform to the January 31, 2013 financial statement presentation.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through November 12, 2013, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset and income information as of January 31, 2013 and 2012, and for the year ended January 31, 2013, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Fidelity Management Trust Company (Fidelity), the trustee, that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2013	2012
Shares of registered investment companies	$ 15,674,487	$ 14,064,377

Net appreciation in fair value of investments	$ 867,273	
Interest and dividends	$ 505,544

Note 4. Investments

	2013	2012

* Less than 5 percent at year-end.

The Plan's investments in shares of registered investment companies, including investments bought sold and held during the year appreciated by $867,273 during the year ended January 31, 2013.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 31, 2013 and 2012.

> *Shares of registered investment companies*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of January 31, 2013 and 2012:

Note 5. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended January 31, 2013, there were no transfers in or out of Level 3.

Note 6. Related-Party Transactions

Certain plan investments are shares of registered investment companies managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were included as a reduction of the return earned on each fund. Transaction-based fees paid by the Plan were $825 for the year ended January 31, 2013.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the provisions of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts.

Note 8. Tax Status

The Plan has adopted a volume submitter plan sponsored by Fidelity Management & Research Company. The Internal Revenue Service issued an opinion letter stating that the volume submitter plan was designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The volume submitter plan opinion letter has been relied upon by this Plan. The Company believes that the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500
