Independent Auditor's Report

To the Participants and Plan Administrator of
the EFH Thrift Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the EFH Thrift Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the auditing standards generally accepted in the United States of America (US GAAS). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, in accordance with US GAAP.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with US GAAS. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Independent Auditor's Report

To the Participants and Plan Administrator of
the EFH Thrift Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the EFH Thrift Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the auditing standards generally accepted in the United States of America (US GAAS). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, in accordance with US GAAP.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. EFH THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

Energy Future Holdings Corp. (EFH) is a wholly owned subsidiary of Texas Energy Future Holdings Limited Partnership, a Delaware limited partnership controlled by Kohlberg Kravis Roberts & Co. L.P., TPG Global, LLC and GS Capital Partners.

The following description is provided for general information purposes only. Reference should be made to the EFH Thrift Plan (Plan) document for more complete information.

General — The Plan is a participant-directed defined contribution plan established in 1968 by EFH and its participating subsidiaries (Employers). The EFH Thrift Plan Committee manages the operation and administration of the Plan. Fidelity Investments is the Trustee, custodian of the assets and Record-keeper. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is intended to be a participant-directed “individual account plan” under ERISA Section 404(c). As such, the fiduciaries of the Plan are not liable for any losses that are the direct and necessary result of participant investment decisions. Although the Plan has an automatic enrollment feature for new employees, continued participation in the Plan by employees of the Employers is entirely voluntary.

The Plan had the following investment options during 2012 and 2011:

- Interest Income Fund (stable value investment option);
- PIMCO Total Return Fund — Institutional Class (fixed income mutual fund);
- Vanguard Total Bond Market Index Fund — Institutional Shares (fixed income mutual fund);
- Vanguard Extended Market Index Fund — Institutional Shares (domestic equity mutual fund);
- MFS Institutional International Equity Fund (international/global equity fund);
- AllianzGI NFJ Dividend Value Fund — Institutional Class (domestic equity mutual fund);
- AllianzGI NFJ Small-Cap Value Fund — Institutional Class (domestic equity mutual fund);
- AllianceBernstein Small Cap Growth Portfolio — Class I (domestic equity mutual fund);
- NT Collective S&P 500 Index Fund — Non Lending (US equity collective fund for qualified and governmental retirement plans);
- Pyramis Index Lifecycle Pools (a series of commingled pools using a lower-cost, index-based approach that allow a participant to select an appropriate pool based on expected retirement year) including:
 - Pyramis Index Lifecycle 2000 Commingled Pool;
 - Pyramis Index Lifecycle 2005 Commingled Pool;
 - Pyramis Index Lifecycle 2010 Commingled Pool;
 - Pyramis Index Lifecycle 2015 Commingled Pool;
 - Pyramis Index Lifecycle 2020 Commingled Pool;
 - Pyramis Index Lifecycle 2025 Commingled Pool;
 - Pyramis Index Lifecycle 2030 Commingled Pool;
 - Pyramis Index Lifecycle 2035 Commingled Pool;
 - Pyramis Index Lifecycle 2040 Commingled Pool;
 - Pyramis Index Lifecycle 2045 Commingled Pool;
 - Pyramis Index Lifecycle 2050 Commingled Pool, and
 - Pyramis Index Lifecycle 2055 Commingled Pool (added August 3, 2011);

- Rainier Large Cap Growth Equity Portfolio (domestic equity portfolio);
- Spartan International Index Institutional Fund — (international equity fund), and
- Fidelity BrokerageLink (a brokerage account with the Plan that offers the opportunity to choose investments from a range of Fidelity Investment and non-Fidelity Investment mutual funds).

A Roth 401(k) contribution feature provides for participants to make after-tax contributions to the Plan and to ultimately receive a distribution of the earnings attributable to these contributions that are tax free if certain conditions are met.

Eligibility, Participation and Employee Savings — All employees of a participating Employer are eligible to participate in the Plan upon employment except nonresident alien employees who receive no earned United States of America (US) sourced income, leased employees, or any individuals who are treated by or characterized in the internal records of an Employer as independent contractors, loaned employees, staff augmentation personnel, or scope of work contractors, or individuals who perform services for an Employer under a special arrangement with a third party, regardless of any determination by the US Internal Revenue Service (IRS), other governmental agency, or a court or other tribunal, that any such individual is, or was, a common law employee of an Employer for any period of time.

The Plan has an automatic enrollment feature whereby new employees are automatically enrolled in the Plan with a pretax contribution amount of 3% of eligible compensation unless the new employee affirmatively makes an election not to participate or to participate at a different percent contribution rate. If no change is made by the participant, the contribution rate will automatically increase by 1% each year up to a maximum of 10% at the end of seven years. Such contributions initiated through this automatic enrollment feature are automatically invested in the age appropriate Pyramis Index Lifecycle Pool for the participant unless they choose a different investment.

The Plan was amended effective January 1, 2011 to exclude summer interns from participation and was amended effective April 1, 2011 to allow distribution of account balances that do not exceed \$1,000 to terminated participants without the participants' consent after required notification has been provided to the participant.

Additionally, the Plan was amended effective January 1, 2012 as follows:

- The maximum contribution for highly compensated employees was increased from 16% to 20%;
- Participants will be charged a \$25 fee for in-service withdrawals (except for hardship withdrawals), and
- A Roth in-plan conversion feature was added to allow participants to elect to convert all or any portion of their otherwise distributable non-Roth accounts to Roth contributions. Converted amounts (less any portion already taxed) are taxable in the year converted. The earnings on converted amounts can be withdrawn five years after the year of the first Roth contribution for participants who have attained the age of 59 ½, become disabled or die.

The Plan was also amended effective August 1, 2012 to provide for a 90 day eligibility period for door-to-door sales representatives of TXU Energy Retail Company LLC and its subsidiaries.

Under the Plan, except as limited by law, a participating employee may invest a specified percentage of eligible compensation each payroll period, either through pretax salary deferral or after-tax payroll deduction. The total of a participant's pretax and after-tax salary deferral/payroll deductions is known as Employee Savings. The maximum amount of Employee Savings for participants earning less than the IRS threshold for determining “highly compensated employees” is 75% of eligible compensation, and for participants earning more than the IRS threshold for determining “highly compensated employees” is 20% of eligible compensation.

Federal law limits the amount a participant may invest on a pretax basis (\$17,000 in 2012). However, a participant who is eligible to make pretax salary deferrals and attained age 50 before the close of the Plan year may make an additional pretax catch-up contribution each year. This catch-up limit was \$5,500 in 2012 for participants who reached age 50 during the respective Plan year. The Plan year begins January 1 and ends December 31.

Subject to certain conditions, a participant may transfer or rollover to the Plan cash amounts distributed or distributable from an individual retirement account (IRA) or a qualified retirement plan. Only taxable contributions held in an IRA may be transferred or rolled over from an IRA, while taxable and nontaxable contributions may be transferred or rolled over from a qualified retirement plan.

In August 2012, EFH approved certain amendments to the EFH Retirement Plan that resulted in benefits being distributed to certain participants in the fourth quarter of 2012. Participants had an option to rollover these benefits to the EFH Thrift Plan that resulted in rollovers of \$63,321,152 in 2012.

Employer Matching Contributions — Prior to September 26, 2012, Employer matching contributions to Employee Savings were made in an amount equal to 100% up to the first 6% of eligible compensation for those participants who participated in the Cash Balance Formula of the EFH Retirement Plan or who were not eligible to participate in the EFH Retirement Plan, and 75% up to the first 6% of eligible compensation for employees who were covered under the Traditional Retirement Plan Formula of the EFH Retirement Plan. No Employer matching contributions are made with respect to Employee Savings greater than 6% of eligible compensation. In August 2012, EFH approved certain amendments to the EFH Retirement Plan. As a result of these amendments, on September 26, 2012, all eligible Plan participants began receiving Employer matching contributions of 100% up to the first 6% of eligible compensation except for Luminant bargaining unit employees of Texas Competitive Electric Holdings Company LLC participating in the Traditional Retirement Plan Formula who receive a 75% Employer matching matching contribution on the first 6% of eligible compensation contributed.

Investment of Funds — All Employer matching contributions are made in cash and invested according to the participant's investment election. Each participant may invest his/her Employee Savings, in 1% increments, among the various available investment options.

All assets of the Plan are held by the Trustee for the exclusive benefit of participants and their beneficiaries. Separate account records for each participant are maintained by the Record-keeper. The Record-keeper provides a summary of financial performance by investment fund directly to Plan participants.

A participant may diversify investments of Employee Savings among the available investment funds under the Plan at any time by liquidating the investments attributable to such Employee Savings and reinvesting such amounts in other investment options as may be available under the Plan.

Participants may also effectively diversify their Employer matching contributions amount at any time by making a total withdrawal of such accounts. See below for information regarding withdrawal from the Plan. Additionally, a participant may diversify investments of Employer matching contributions at any time by liquidating the investments attributable to such matching contributions and reinvesting such amounts in other investment options as may be available under the Plan.

Unit Values — Participants do not have beneficial ownership in specific securities or other assets in the Interest Income funds, but have an interest therein represented by units valued as of the close of each business day. Generally, contributions to and withdrawal payments from each fund are converted to units by dividing the amounts of such transactions by the unit value, and the appropriate account is charged or credited with the number of units properly attributable to the participant.

Withdrawal from the Plan — Withdrawals from the Plan are governed by applicable IRS regulations and provisions of ERISA. Penalties may apply in certain instances.

Participants are fully vested in all amounts in their accounts (i.e., pretax contributions, after-tax contributions, Employer matching contributions, rollover contributions, Roth contributions and all earnings and dividends thereon).

A participant who terminates employment may retain the funds in the Plan or withdraw them at any time; however, the participant must begin withdrawals no later than April 1st following the later of the calendar year in which the participant attains age 70 ½ or the calendar year in which the participant retires. To avoid immediate taxation, a withdrawal made upon termination may be rolled into an IRA or a qualified retirement plan sponsored by another employer, provided that the other qualified retirement plan accepts rollovers. Terminated participants who leave their account in the Plan are charged a monthly administrative maintenance fee.

Participants may make partial or total withdrawals from their rollover and after-tax Employee Savings accounts at any time and for any reason. Participants may make withdrawals from pretax Employee Savings accounts upon termination of employment or attainment of age 59 ½. Participants may make total withdrawals of their Employer matching contributions account at any time. Additionally, participants who meet certain qualifications defined by the IRS may make hardship withdrawals from their pretax Employee Savings account. Participants who receive a hardship withdrawal may not contribute to the Plan for a period of six months.

Participants making withdrawals can choose from the following optional forms of payment: (a) publicly traded fund units (to the extent permitted by the fund) credited to a participant's account; (b) single lump sum cash payment; or (c) a combination of (a) and (b).

Notes Receivable From Participants — The Plan includes a loan feature allowing participants to borrow up to 50% of their pretax Employee Savings, after-tax Employee Savings, Employer matching contributions and rollover contributions and repay the loan with after-tax payroll deductions. A participant may not have more than two outstanding loans at one time. The minimum amount of a Plan loan is \$1,000 and the maximum is \$50,000 less the highest outstanding loan balance in the preceding 12 months. Participants may repay the loan into their account(s) over a period of one to five years for a general purpose loan, and the shorter of 15 years or their remaining mortgage term for a primary home loan. The rate of interest charged for a loan initiated in any given month is the prime lending rate published in the Wall Street Journal on the last business day of the prior month, plus 2.0%. During 2012 and 2011, the interest rate charged on new loans was 5.25%.

Unclaimed Terminated Participants' Accounts — As a result of the merger of the ENSERCH Corporation (ENSERCH) EN \$AVE Plan into the Plan, at December 31, 2001, the Plan had a segregated account of amounts payable to terminated participants of the former ENSERCH Tax Reduction Act Stock Ownership Plan ("TRASOP") whom the Plan administrators have been unable to locate. Included in net assets available for benefits as of December 31, 2011 was \$374,545 of TRASOP unclaimed terminated participants' benefits (see Note 5). During 2011, EFH located 2,215 terminated participants and distributed their account balances totaling \$1,784,920 to them.

In the first half of 2012 efforts to contact the remaining terminated participants and distribute their account balances to them were completed, resulting in location of over 300 additional terminated participants and distribution to them of \$256,287. On June 29, 2012, the assets remaining in the segregated account, which totaled \$115,007 after payments and bank charges, were transferred to a forfeiture account within the Plan. The forfeitures were used to reduce employer contributions by approximately \$97,000 and pay approximately \$18,000 of additional distributions to terminated participants during 2012. Should any additional terminated participants subsequently come forward to claim their accounts, such accounts are the liability of and will be paid by EFH.

Federal Income Taxes — EFH has been advised by the IRS that the Plan meets the requirements of Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code) as to form; that the Trust is exempt from federal income taxes under Section 501(a) of the Code; and that Employer contributions paid to the Trust under the Plan are allowable federal income tax deductions to the Employers subject to the conditions and limitations of Section 404 of the Code. The Plan received its last favorable determination letter from the IRS on November 29, 2002. The Plan has been amended since receiving the determination letter, and the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

On January 30, 2011, the Company timely submitted an application to the IRS for a new Determination Letter for the Plan.

The Plan is subject to examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. Plan management believes the Plan is no longer subject to income tax examinations for years prior to 2009. The Plan has recorded no uncertain tax positions.

Amendment, Modification, Suspension and Termination — It is the intention of EFH to continue the Plan indefinitely; however, EFH, by action of its Board of Directors, may amend, modify or suspend the Plan at any time, or from time to time, and may terminate the Plan at any time; and any Employer may withdraw from participation in the Plan at any time upon prior notice.

In the event of termination of the Plan in whole or in part or termination of participation of any Employer, each participant in the Plan affected by such termination shall receive a distribution of the entire balance in the participant's account, whether derived from Employee Savings, rollovers or Employer matching contributions.

Party-in-Interest — Certain plan investments are managed by Pyramis Global Advisors Trust Company, Fidelity Management Research Company and Fidelity Brokerage Services LLC, all of which are subsidiaries of the plan trustee. Until June 29, 2012, Wells Fargo Bank, N.A. served as Custodian for the TRASOP assets portion of the Plan, which was maintained in an ancillary trust (see "Unclaimed Terminated Participants' Accounts" above.) These transactions qualify as party-in-interest transactions allowable under ERISA regulations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the US (GAAP). Benefit payments are recorded when paid. Subsequent events have been evaluated through October 14, 2013, the date these financial statements were available to be issued.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments. Investment instruments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment instruments, it is reasonably possible that changes in the values of investment instruments will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Valuation of Investment Securities — The Plan's investments are stated at fair value. See Note 4 for additional disclosures on fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date.

Benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan corresponding to fully benefit-responsive investment contracts because it represents the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the Interest Income Fund at fair value of the investment contracts and separately present the adjustment of the fully benefit-responsive investment contracts from fair value to contract value (see discussion of the Interest Income Fund in Note 6). The Statement of Changes in Net Assets Available for Benefits is presented on a contract value basis.

Notes Receivable from Participants — Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

Expenses — Plan administration fees (e.g., recordkeeping, accounting, legal and trustee services) are paid by the Employers and recorded on an accrual basis as incurred. Investment fees are charged individually by each fund manager for asset management and administration of that fund. Investment fees are typically charged indirectly against individuals' accounts by being deducted from the investment return on each individual investment option. Individual service fees (e.g., short-term redemption fee, loan initiation fee, in-service withdrawal fee) are charged separately to the accounts of individuals who choose to utilize a particular plan feature, generally on a pro-rata basis against all investments and sources. Additionally, terminated participants pay a monthly account maintenance fee, which is recorded as a reduction of administrative fees reported in the statement of changes in net assets available for benefits, if they leave their account in the Plan.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

3. INVESTMENTS

Investments representing 5% or more of the Plan's net assets as of either December 31, 2012 or 2011 are as follows:

	December 31, 2012	Percent Of Net Assets	December 31, 2011	Percent Of Net Assets
Pyramis Index Lifecycle 2020	\$ 202,929,661	14.1	\$ 178,881,875	13.9

AllianzGI NFJ Dividend Value Fund	\$ 73,255,991	5.1	\$ 66,687,058	5.2

During 2012, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$103,311,996, excluding \$27,363,066 of interest and dividend income. See table below.

4. FAIR VALUE MEASUREMENTS

Accounting standards related to the determination of fair value define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present amount. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset. The Plan primarily uses the market approach of using prices and other market information for identical and/or comparable assets for those investments that are measured on a recurring basis and uses valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan categorizes its investments recorded at fair value based upon the following fair value hierarchy:

- Level 1 valuations use quoted prices in active markets for identical assets that are accessible at the measurement date. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis. For example, the Plan's Level 1 investments include equity and fixed income mutual funds that are valued using published market prices, such as those from the New York Stock Exchange.

- Level 2 valuations use inputs other than actively quoted market prices included in Level 1, which are observable for the asset, either directly or indirectly. Level 2 inputs include: (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in markets that are not active, (c) inputs other than quoted prices that are observable for the asset such as interest rates and yield curves observable at commonly quoted intervals and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. For example, the Plan's Level 2 assets include traditional guaranteed investment contracts valued using the present value of contract's future cash flows discounted by comparable duration Wall Street Journal guaranteed investment contract's index rates, variable synthetic guaranteed investment contracts valued using published swap rates and pooled funds and constant duration synthetic guaranteed investment contracts valued using quoted values from investment managers. Wrap contracts associated with investment contracts are also classified as Level 2 assets.
- Level 3 valuations use unobservable inputs for the asset. Unobservable inputs are used to the extent observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset at the measurement date. None of the Plan's assets are classified as Level 3 assets.

With respect to amounts presented in the following fair value hierarchy table, the fair value measurement of an asset (e.g. an investment) is required to fall in its entirety in one level, based on the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset being measured.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis as of December 31, 2012.

- This category consists of the Interest Income Fund, which has the objective to preserve the participant's investment and generate a stable rate of return. The fund invests in a diversified group of high-quality, fixed income investments. There is currently no short-term redemption fee. The fair value of this fund has been estimated based on the market value of the underlying portfolios for fixed maturity and constant duration synthetic guaranteed investment contracts and separate account guaranteed investment contracts.
- This category consists of the NT Collective S&P 500 Index Fund, which has an objective to approximate the risk and return characteristics of the S&P 500 Index. There is currently no short-term redemption fee. The fund is a collective investment trust managed by Northern Trust. The fair value has been estimated using net asset value per share.
- This category consists of targeted retirement Pools seeking total return until the Pool's targeted retirement year. Thereafter, the Pool's objective will be to seek capital preservation. There is currently no short-term redemption fee. Each Pool is a collective investment trust. The trustee and manager is Pyramid Global Advisors Trust Company. The fair value has been estimated using net asset value per share of each Pool.
- This category consists of the Rainier Large Cap Growth Equity Portfolio, which has the objective to maximize long-term capital appreciation. The Portfolio invests primarily in a diversified portfolio of common stock of large-capitalization companies traded in the United States, but also has temporary cash investments. There is currently no short-term redemption fee. The fair value has been estimated using net asset value per share.

There were no material transfers between the levels of the fair value hierarchy for the year ended December 31, 2012.

6. INTEREST INCOME FUND

The Interest Income Fund fair value totaled \$275,957,345 and \$273,905,211 at December 31, 2012 and 2011, respectively, and generally consists of investment contracts as described below:

Guaranteed Investment Contracts — Traditional Guaranteed Investment Contracts (GICs) are unsecured, general account obligations of insurance companies. The obligation is backed by the general account assets of the insurance company that writes the investment contract. The crediting rate on this product is typically fixed for the life of the investment.

Synthetic Guaranteed Investment Contracts — General fixed maturity synthetic GICs consist of an asset or collection of assets that are owned by the fund (or plan) and a benefit-responsive (as discussed in Note 2) book value wrap contract purchased for the portfolio. The wrap contract provides book value accounting for the asset and assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The crediting rate of the contract is set at the start of the contract and typically resets every quarter. Generally, fixed maturity synthetics are held to maturity. The initial crediting rate is established based on the market interest rates at the time the initial asset is purchased, and it will have an interest crediting rate not less than 0%.

Variable synthetic GICs consist of an asset or collection of assets that are managed by the bank or insurance company and are held in a bankruptcy-remote vehicle for the benefit of the fund (or plan). The contract is benefit-responsive and provides next day liquidity at book value. The crediting rate on this product resets every quarter based on the then current market index rates and an investment spread. The investment spread is established at the time of issuance and is guaranteed by the issuer for the life of the investment.

Constant duration synthetic GICs consist of a portfolio of securities owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration, and assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The crediting rate on a constant duration synthetic GIC resets every quarter based on the book value of the contract and the market yield, the market value and the average duration of the underlying assets. The crediting rate aims at converging the book value of the contract and the market value of the underlying portfolio over the duration of the contract and therefore will be affected by movements in interest rates and/or changes in the market value of the underlying portfolio. The initial crediting rate is based on the market interest rates at the time the underlying portfolio is initially established, and it will have an interest crediting rate of not less than 0%.

It is probable that withdrawals and transfers resulting from the events listed below, although no such events are considered probable, will limit the ability of the fund to transact at book or contract value. Instead, market value would likely be used in determining the payouts to the participants.

- Employer-initiated events — events within the control of the Plan or the plan sponsor that would have a material and adverse impact on the fund;
- Employer communications designed to induce participants to transfer from the fund;
- Competing fund transfer or violation of equity wash or equivalent rules in place;
- Changes of qualification status of Employer or plan.

In general, issuers may terminate the contract and settle at other than contract value if the qualification status of Employer or plan changes, if there is a breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The average yield of the Interest Income Fund (which is predominantly GICs) based on annualized earnings was approximately 2.15% as of December 31, 2012 and the average yield based on interest rate credited to participants was approximately 2.27% as of December 31, 2012.

As of December 31, 2012, the investments held in the Interest Income Fund had an aggregate contract value of \$265,585,564 and an aggregate fair value of \$275,957,345, which includes wrap contracts with an aggregate fair value of \$46,196.

As of December 31, 2011, the investments held in the Interest Income Fund had an aggregate contract value of \$265,078,633 and an aggregate fair value of \$273,905,211, which includes wrap contracts with an aggregate fair value of \$210,287.
