INDEPENDENT AUDITORS' REPORT

We were engaged to audit the accompanying statements of net assets available for benefits of Marco Display Specialists, L.P. 401(k) Employees' Savings Plan ("the Plan") as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the supplemental schedule of assets held for investment purposes at year end. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by TD Ameritrade Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes related investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule of assets held for investment purposes is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

401(k) Employees' Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011

Note A - Description of Plan

The following description of the Marco Display Specialists, L.P. (Company) 401(k) Employees' Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service, with at least 1,000 hours of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a profit sharing plan, which contains an Internal Revenue Code Section 401(k) feature.

Contributions. Each year, participants may contribute up to 25% or $16,500, whichever is less, of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers 13 (thirteen) mutual funds and 11 (eleven) collective investment trust funds as investment options for participants. Profit sharing amounts may be contributed at the option of the Company's board of directors and are invested at the participant's direction. The Company contributed an amount equal to 3% and 1.66% of the eligible non-highly compensated participant's salary deferral in 2012 and 2011, respectively and contributed approximately 3% and 3.5% of eligible compensation of the highly compensated participants in 2012 and 2011, respectively.

Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) the earnings of the Plan and (c) administrative expenses of the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service, after reaching age 65 while employed, or if the participant terminates employment as a result of becoming disabled or dying while employed.

Note A - Description of Plan (continued)

Participant Loans. Participants may borrow from their funds account a minimum of $1,000, up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions. All loans are required to be repaid within 5 years of the date of the loan or due on the termination of service.

Administrative Expenses. The Plans' administrative expenses consist of brokerage account investment management fees, asset based pricing fees and maintenance fees. These expenses were approximately $42,266 and $38,592 for 2012 and 2011, respectively. In 2012 and 2011, the contract administrator fee of $23,604 and $25,514, respectively, was paid by the Plan and the employer continues to absorb the annua cost of auditing the Plan's financial statements.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts. For the years ended December 31, 2012 and 2011, there were $12,644 and $12,777, respectively, of forfeited non vested accounts, which reduces the employer contribution. Forfeited accounts are recognized in the year in which the employee has completed five consecutive one-year breaks in service.

Note B - Summary of Significant Accounting Policies

Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair market value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Note B - Summary of Significant Accounting Policies (continued)

Fair Value Measurement. Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements* (FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note B - Summary of Significant Accounting Policies (continued)

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note C – Investments

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common stocks, corporate bonds and U.S. government securities. Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds. Valued daily at the net asset value ("NAV") of shares held by the plan at year end.

Collective Investment Funds ("CIF's"). Valued daily at the net asset value ("NAV") of shares held by the plan at year end.

Participant loans. Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value heirarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Note C – Investments (Continued)

	Assets at Fair Value as of December 31, 2012

• StarCore International Fund	218,031	205,041
• StarCore US Fund	385,363	373,266

Individual participants determine the investments used by their account, so the concentration of assets is at the individual participant's discretion.

The information in this footnote, the accompanying financial statements and supplemental schedule was obtained from financial information that has been prepared and certified as complete and accurate by the Plan custodian. The Plan custodian's certification included the summary of plan transactions, the employer fund statement and the schedule of assets held for investment purposes at end of year.

Note D - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note E - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 21, 1999, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note F - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note G – Subsequent Events

Subsequent to the year ended December 31, 2012, the Plan was amended effective May 1, 2013 and a new investment contract was entered into with Fidelity Management Trust Company and, accordingly, the Plan's assets were transferred as of this date.

Subsequent events were evaluated through October 30, 2013, which is the date the financial statements were available to be issued.
