NOTE E - FAIR VALUE OF FINANCIAL INSTRUMENTS

The financial statements are prepared in accordance with an accounting standard which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the standard are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of February 28, 2013 and December 31, 2012.

Pooled separate account: Valued at the fair value of the underlying investments and then adjusted by the issuer to contract value.

NOTE E - FAIR VALUE OF FINANCIAL INSTRUMENTS - CONTINUED

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of February 28, 2013 and December 31, 2012:

Fair Value Measurements at Reporting Date Using:

NOTE F - PLAN TERMINATION

The Plan has been transferred effective March 1, 2013 and therefore terminated the current Plan. Although it has not expressed any intent to do so, the Employer has the right under the new Plan to discontinue its contributions at any time.

NOTE G - TAX STATUS

The Plan adopted a Volume Submitter Profit Sharing Plan with CODA which obtained a favorable Internal Revenue Service (IRS) opinion letter on March 31, 2008, in which the IRS stated that the form of the underlying plan was acceptable under provisions of the Internal Revenue Code (IRC) and that any employer adopting this form of the plan will be considered to have a plan qualified under the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and, therefore, believes that the Plan is qualified and tax-exempt.

NOTE G - TAX STATUS - CONTINUED

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of February 28, 2013 and December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements.

NOTE H - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into an investment contract with Minnesota Life, which receives the contributions and deposits them into pooled separate investment accounts according to the participant's election. The contract is included in the financial statements at fair value, as reported by Minnesota Life. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at fair value.

NOTE I - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Minnesota Life, the custodian of the Plan. These transactions qualify as party-in-interest transactions.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE K - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through December 2, 2013, the date the financial statements were available and issued and is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
