Independent Auditor's Report

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Cardiovascular Consultants of Nevada 401(k) Retirement Plan and Trust, which comprise the statements of net assets in liquidation available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets in liquidation available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 which was certified by Principal Life Insurance Company, the Asset Custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Asset Custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Asset Custodian as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the Asset Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

(CONTINUED)

Basis of Accounting

As described in Notes 2 and 10 to the financial statements, Cardiovascular Consultants of Nevada, the Plan's sponsor, merged with HealthCare Partners LLC ("the surviving company") on April 16, 2012. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting used to determine the amounts at which investments in insurance contracts are stated, from the ongoing plan basis to the liquidation basis for periods after December 30, 2011.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule Of Assets (Held At End Of Year), which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Asset Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012

1. DESCRIPTION OF PLAN

The following description of the Cardiovascular Consultants of Nevada 401(k) Retirement Plan and Trust ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a safe-harbor voluntary savings and retirement (defined contribution) plan that covers all employees of Cardiovascular Consultants of Nevada ("the Company") beginning on the first day of the quarter following ninety days of eligible service and who are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan provides that participants may contribute up to 75% of their compensation, up to the maximum contribution allowed by the Internal Revenue Service. Participants may increase or decrease their contribution percentages monthly. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

As of April 15, 2012, the Company contributed 100% of the first 5% of compensation that a participant contributed to the Plan. The matching percentage is determined by the Company on a yearly basis based upon participant contribution percentages. Contributions by the Company that were forfeited by participants due to termination will reduce future matching contributions by the Company. As a safe-harbor plan, the Company contributed an additional 3% of compensation as a qualified nonelective contribution for all nonhighly compensated employees. Additional amounts may be contributed at the option of the Company.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings on account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting policy

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is 20% after each year of service. After five years of service, each participant is fully vested; however, each participant is immediately fully vested in the Company's 3% safe-harbor contributions. Participants also become fully vested upon death or permanent disability.

Investment options

Upon enrollment in the Plan, a participant may direct contributions in any of the provided investment alternatives.

Participants may change their investment options daily.

Participant notes receivable

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from one to five years and are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Interest rates ranged from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting. In addition, because of the Plan merger, the Plan has changed its basis of accounting used to determine the amounts at which investments in insurance contracts and accumulated benefit information are stated, from the ongoing plan basis to the liquidation basis for periods after December 30, 2011.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FASB, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets In Liquidation Available for Benefits is prepared on a contract value basis only because the Plan did not liquidate the Group Annuity Contract until a year after the actual merger into the surviving Plan, which provided proper notification to the Principal Life Insurance Company (issuer of the contract). This proper notification within the contractual timeframe avoided any contractual penalties (early withdrawal charges) upon liquidation.

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures during the reporting period. Accordingly, actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

3. TAX STATUS

The Prototype Plan adopted by the Plan obtained its latest determination letter on March 31, 2011, in which the Internal Revenue Service stated that the Prototype Plan, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statement. As of December 31, 2012, the tax years that remain subject to examination by taxing authorities begin with 2009.

4. GROUP ANNUITY CONTRACT

The Plan has a benefit-responsive group annuity contract ("annuity contract") issued by Principal Life Insurance Company ("Principal"). By definition, the annuity contract is an insurance contract, as a result, the Plan may transact according to the terms defined in the contract at any time. The terms and methods under which the contract may transact are defined in the contract. The methodology for calculating the interest crediting rate is defined in Article I, Section II of the contract under the term "Composite Crediting Rate." Under the terms of the existing contract, the crediting rate is currently reset on semiannual basis.

The annuity contract is a single group annuity contract with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of the underlying assets as would be found in a Stable Value fund. As a result, the average yield earned by the plan is the yield earned (i.e. interest credited) on the group annuity contract. The interest rate history for the years ended December 31, 2011 and 2012 are as follows:

<u>Time Periods</u>		<u>Time Periods</u>	
January 1, 2011 – June 30, 2011	2.75%	January 1, 2012 – June 30, 2012	2.50%
July 1, 2011 – December 31, 2011	2.70%	July 1, 2012 – December 31, 2012	2.35%

Changes in future interest crediting rates will not effect the amount reported on the statement of net assets available for benefits representing adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value as fair value is considered book value less an early withdrawal charge of 5% for the years ended December 31, 2012 and 2011. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and certain administrative expenses. Participants may ordinarily direct the withdrawal and transfer of all or a portion of their investment at contract value.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Principal. The Plan administrator believes the occurrence of such events, that would also limit the Plan's ability to transact at contract value with Plan participants, is not probable.

5. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (CONTINUED)

The fair value measurement accounting standards and literature establishes that a fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market. Accounting standards and literature also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels of inputs that may be used to measure fair value:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Level 1 has the highest priority in the hierarchy.

Level 2: Observable inputs other than quoted prices included within Level 1 for the assets or liabilities, either directly or indirectly observable. This include (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This reflects the plan's own assumptions about the assumptions market participants would use to price an asset based on the best information available in the circumstances. Level 3 has the lowest priority in the hierarchy.

The following table provides information by level on the fair value of the Plan's investments as of December 31, 2011:

<u>Investment Category</u>	<u>Fair Value</u>	<u>Level 1 Inputs</u>	<u>Level 2 Inputs</u>	<u>Level 3 Inputs</u>

Gains and losses included in changes in net assets in liquidation available for benefits for the year ended December 31, 2012, are reported in net appreciation or depreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2012, there were no significant transfers into or out of Level 3.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in total value by \$527,065 all of which were derived from mutual funds, with the Plan investments earning \$127,367 in interest and dividends for the year.

7. ADMINISTRATIVE EXPENSES

The Company pays certain administrative expenses of the Plan. The Plan pays contract administrator fees and investment advisor fees. Additionally, participants requesting loans are charged an initial \$40 fee and \$8 quarterly maintenance fees.

8. RELATED PARTY TRANSACTIONS

The Plan provides investments, record keeping and contract administrator services through Principal Life Insurance Company, a party-in-interest. Fees relating to these services amounted to \$17,962 for the year ended December 31, 2012.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. SUBSEQUENT EVENTS

The Plan Sponsor merged with HealthCare Partners LLC ("the surviving company") on April 16, 2012. In addition, on July 24, 2012, the Plan made a partial transfer of net assets into the surviving company's defined contribution plan. After the contractual terms had been satisfied to avoid an early withdrawal charge of 5% concerning the Plan's annuity contract issued by Principal Life Insurance Company; the Plan Administrator transferred the remaining net assets into the surviving company's defined contribution plan in April 2013 and terminated the Plan at that time.

Subsequent events have been evaluated through September 16, 2013, which is the financial statement issuance date.
