Part I Asset and Liability Statement

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Zacks Investment Research, Inc. 401(k) Savings Plan
Chicago, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the Zacks Investment Research, Inc. 401(k) Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of February 28, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended February 28, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by John Hancock Life Insurance Company (USA), the Custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Custodian, as of February 28, 2013 and 2012 and for the year ended February 28, 2013, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements as a whole.

Other Matter - Supplemental Schedules

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) and Schedule H, Line 4(a) - Schedule of Delinquent Participant Contributions as of and for the year ended February 28, 2013, are required by the DOL Rules and Regulations for Reporting and Disclosure under the ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

ZACKS INVESTMENT RESEARCH, INC. 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
As of February 28, 2013 and 2012 and for the year ended February 28, 2013

NOTE 1 - Description of the Plan

The following description of the Zacks Investment Research, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Users of these financial statements should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Zacks Investment Research, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). All employees who have completed at least one month of service with the Company, as defined in the Plan document, and are age 21 or older are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of various investment options.

Contributions

Participants may contribute up to 85% of pretax annual compensation (salary reduction contributions), as defined in the Plan document, not to exceed the maximum annual amount as permitted by the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). Catch-up contributions are also allowed for participants who have attained the age of 50 before the end of the Plan year.

The Company, at its sole discretion, may make a contribution on a year-by-year basis to accounts of participants employed as of the end of the Plan year. The Company does not intend to make any profit sharing contributions to the Plan and no contributions were made for the year ended February 28, 2013.

Participants in the Plan may contribute a portion of their salary to the Plan as a Roth 401(k) contribution. These contributions will be subject to current federal income taxation. However, qualified distributions from a Roth 401(k) account, including investment earnings and growth on that account, will not be subject to federal income tax.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, Roth 401(k) contributions, rollover contributions and an allocation of the Company's contributions and Plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

There were no forfeited nonvested accounts as of February 28, 2013 or 2012. These accounts would be used to reduce future Company contributions.

NOTE 1 - Description of the Plan (cont.)

Vesting

Participants are immediately 100% vested in their salary reduction, Roth 401(k) contributions and rollover contributions plus earnings thereon.

Participants who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the Plan document, are considered 100% vested.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan document. The Plan provides for normal retirement at age 65, but not before the fifth anniversary of a participant's entry date. In-service distributions are only allowed after attaining the age of 59-1/2. Participants experiencing financial hardship may withdraw a portion of their account balance as defined in the Plan document.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their Company accounts.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. These loans are secured by the balance in the participant's account. The loans bear interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator and at various maturities from 2013 through 2017. Principal and interest is paid ratably through regular monthly payroll deductions.

Administrative Expenses

The Plan pays almost all of the administrative expenses including custodian contract administration fees, third party administrator service fees and participant generated transaction fees.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The units of pooled separate accounts are presented at fair value based on the Net Asset Value ("NAV") per share of the underlying securities. In cases where the fair value of the investments is not readily available, the NAV per share is used as the practical expedient, unless it is probable the investment will be sold at something other than the NAV. NAV is determined by taking the fair market value of the investment or aggregate fair market value of the underlying securities. Notes receivable from participants, for which there is no market, are recorded at amortized cost, which approximates fair value.

Net appreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. The Custodian's short-term trading policy permits a participant a maximum of two exchanges per calendar month. After the exchange limit, participants may move 100% of their account to the money market fund where it must remain for 30 days. Trading can resume only once the 30 days have expired. In addition, the Fidelity Advisor Gold Fund and the Domini Social Equity Fund each have a 30 day holding period and participants are charged a 0.75% or 2.00% fee, respectively, upon redemption if the holding period is not satisfied.

Investment Options and Related Risks

The Plan invests in pooled separate accounts which are subject to various risks, including credit, interest, and overall market volatility risks. In addition to these general risks, there are additional risks that may be applicable to the specific investments held by the Plan as noted below.

Commodity Risk - Commodity investments involve the risk of volatile market price fluctuations of commodities resulting from fluctuating demand, supply disruption, speculation and other factors.

Currency Risk - Funds that invest directly in foreign currencies and in securities that trade in, or receive revenues in, foreign currencies are subject to the risk that those currencies will decline in value relative to the currency being hedged.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Equity Securities Risk - Stock markets are volatile, and the price of equity securities such as common and preferred stocks (and their equivalents) will fluctuate. The value of equity securities purchased by the fund could decline if the financial condition of the companies in which the fund invests decline or if overall market and economic conditions deteriorate.

Fixed-Income Securities Risk - Fixed-income securities or bonds are subject to credit risk and interest rate risk. The credit rating of bonds in the fund could be downgraded or the issuer of a bond could default on its obligations. In general, lower-rated fixed-income securities involve more credit risk. When interest rates rise, bond prices generally fall.

Foreign Securities Risk - Foreign securities involve special risks, including potentially unfavorable currency exchange rates, limited government regulation (including less stringent investor protection and disclosure standards) and exposure to possible economic, political and social instability. To the extent the fund invests in emerging market countries, its foreign securities risk will be higher.

Fund of Funds Risk - A fund of funds invests in a number of underlying funds. A fund of fund's ability to achieve its investment objective will depend largely on the ability of its investment manager to select the appropriate mix of underlying funds and on the underlying funds ability to meet their investment objectives. A fund of funds is subject to the same risks as the underlying funds in which it invests. Each fund of funds bears its own expenses and indirectly bears its proportionate share of expenses of the underlying funds in which it invests.

Growth Stock Risk - Because growth securities typically do not make dividend payments to shareholders, investment returns are based on capital appreciation, making returns dependent on market increases and decreases. The market prices of growth stocks are highly sensitive to future earnings expectations. Growth stocks may therefore be more volatile than non-growth stocks.

Interest Rate Risk - Fixed-income securities are affected by changes in interest rates. When interest rates decline, the market value of fixed-income securities generally will increase. Conversely, when interest rates rise, the market value of fixed-income securities will generally decrease. The longer the remaining maturity of instruments held by the fund, the more sensitive the fund is to interest rate risk.

Large-Cap Risk - The fund's strategy of investing in large cap stocks carries the risk that in certain markets large cap stocks will underperform small cap or mid cap stocks.

Lifestyle Portfolio Risk - A Lifestyle Portfolio is a fund of funds which invests in a number of underlying funds. The Fund's ability to achieve its investment objective will depend largely on the ability of the sub adviser to select the appropriate mix of underlying funds and on the underlying funds' ability to meet their investment objectives. There can be no assurance that either a Fund or the underlying funds will achieve their investment objectives. A Fund is subject to the same risks as the underlying funds in which it invests, which include the following risks. Stocks can decline due to market, regulatory or economic developments. Investing in foreign securities is subject to certain risks not associated with domestic investing such as currency fluctuations and changes in political and economic conditions. The securities of small capitalization companies are subject to higher volatility than larger, more established companies. High Yield bonds are subject to additional risks such as the increased risk of default (not applicable to Lifestyle Aggressive Portfolio).

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Mid-Cap Stock Risk - Investments in mid-cap companies are subject to more erratic price movements than investments in larger, more established companies. In particular, mid-sized companies may pose greater risk due to narrow product lines, limited financial resources, less depth in management or a limited trading market for their securities.

Money Market Fund Risk - The current yield quotation more closely reflects the current earnings of the Money Market Fund as of the date this report was prepared while the Annualized returns above refer to a specific past holding period reflecting the period covered by this report. Due to Sales & Service fee, the subaccount's actual current yield may be lower or higher than that of the underlying trust. Although the fund strives to maintain a positive yield, there is no guarantee the fund will be able to do so. The ER, AMC and Fund Expense Ratio for the Money Market Fund is as of the business day immediately preceding the current date. An investment in the underlying Money Market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The underlying fund seeks to preserve a value of $1.00 per share but it is possible to lose money by investing in the Money Market Fund that invests in the underlying fund.

Sector Risk - When a fund's investments are concentrated in a particular industry or sector of the economy (e.g., real estate, technology, financial services), they are not as diversified as the investments of most mutual funds and are far less diversified than the broad securities markets. Funds concentrating in a particular industry sector tend to be more volatile than other mutual funds, and the values of their investments tend to go up and down more rapidly. A fund that invests in a particular industry or sector is particularly susceptible to the impact of market, economic, regulatory and other factors affecting than industry or sector.

Small-Cap Stock Risk - The fund's investments in smaller companies are subject to more erratic price movements than investments in larger, more established companies. Small cap companies may be developing or marketing new products or services for which markets are not yet and may never become established. Although small, unseasoned companies may offer greater opportunities for capital growth than larger, more established companies, they also involve greater risks and should be considered speculative.

U.S. Government Securities Risk - U.S. government securities do not involve the degree of credit risk associated with investments in lower quality fixed-income securities. As a result, the yields available from U.S. government securities are generally lower than the yields available from many other fixed-income securities. These securities, like other fixed-income securities, are subject to interest rate risk.

Value Stock Risk - The fund's investments in value stocks carry the risk that the market will not recognize a security's intrinsic value for a long time or that a stock believed to be undervalued may actually be appropriately priced.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-04, "Fair Value Measurement," which aligns disclosures related to fair value between U.S. GAAP and International Financial Reporting Standards. The standards update includes changes to the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and changes to the disclosure of information about fair value measurements. More specifically, the changes clarify the intent of the FASB regarding the application of existing fair value measurements and disclosures as well as changing some particular principles or requirements for measuring fair value or for disclosing information about fair value measurements. This update is effective for the Plan in 2012, except for certain disclosures for nonpublic employee benefit plans as noted in ASU No. 2013-09, "Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04", which has been deferred indefinitely. The Plan has adopted the provisions of ASU No. 2011-04, except for the disclosures related to ASU No. 2013-09.

NOTE 3 - Information Prepared and Certified by Custodian (Unaudited)

All investment information disclosed in the accompanying financial statements and supplemental information, including investments held at February 28, 2013 and 2012, and net appreciation in fair value of investments, interest, dividends, and investment expenses for the year ended February 28, 2013, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by John Hancock Life Insurance Company (USA), the Custodian of the Plan.

	2013		2012	
Investments, at fair value				
Units of pooled separate accounts:				
500 Index Fund	1,097,928	*	842,817	*
Money Market Fund	557,354	*	753,634	*
Lifestyle Aggressive Fund	633,016	*	429,545	*
Lifestyle Growth Fund	350,810	*	248,793	
Total investments not shown above	3,949,540		2,874,616	
Total Investments	$ 6,588,648		$ 5,149,405	
Notes Receivable from Participants	$ 53,645		$ 58,177	

* Investments that represent 5% or more of the Plan's net assets available for benefits.

NOTE 3 - Information Prepared and Certified by Custodian (Unaudited) (cont.)

During the year ended February 28, 2013, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Net appreciation in fair value:	
Pooled separate accounts	$ 480,184
Net investment return certified by Custodian	$ 480,184
Interest on notes receivable from participants	$ 2,591

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits.

NOTE 4 - Parties-In-Interest

Certain Plan investments are units of pooled separate accounts managed by John Hancock Life Insurance Company (USA) the Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Recordkeeping fees, Plan administrator service fees and transaction fees are paid by the Plan to the Custodian, and are recorded as administrative expenses on the statement of changes in net assets available for benefits.

NOTE 5 - Amount Owed to Participants Withdrawing From the Plan

There were no amounts owed to participants who have withdrawn from the Plan as of February 28, 2013 or 2012.

NOTE 6 - Related Party

Certain broker services provided to the Plan were compensated with commissions which qualify as related party transactions. Commissions paid by the Plan for these services were $13,001 for the year ended February 28, 2013, and are recorded as administrative expenses on the statement of changes in net assets available for benefits.

NOTE 7 - Fair Value of Financial Instruments

The Plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used as of February 28, 2013.

Pooled Separate Accounts - Pooled separate accounts ("PSA") are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. Each fund is managed to meet a defined level of risk and expected return. The units of pooled separate accounts are valued at the number of units of the respective account multiplied by the closing NAV per unit as determined and published on a daily basis by the manager of the sub accounts. The separate accounts are classified as Level 2 assets as they hold investments with readily determinable inputs.

The Company is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Company has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - Fair Value of Financial Instruments (cont.)

The tables below present the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy as of February 28, 2013 and February 28, 2012.

NOTE 8 - Tax Status

The E.R.I.S.A. Inc. volume submitter profit sharing plan document, which was adopted by the Plan, obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of February 28, 2013 and February 28, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 - Prohibited Transactions

During the year ended February 28, 2013, the Plan sponsor failed to remit all employee contributions to the Plan on a timely basis, which is a prohibited transaction under ERISA. Subsequent to February 28, 2013, the Plan sponsor has calculated the lost earnings owed to the participant and has contributed that amount to the Plan in order to correct the prohibited transaction.

NOTE 10 - Subsequent Events

The Plan has evaluated subsequent events through December 12, 2013, which is the date that the financial statements were approved and available to be issued, for events requiring disclosure in the Plan's financial statements. As of December 12, 2013 there were no subsequent events which required recognition or disclosure other than the correction of the prohibited transaction as described in Note 9.
