Profit Sharing Plan

Notes to Financial Statements

December 31, 2012 and 2011

Note 1. Description of the Plan

The following description of The Ben Arnold-Sunbelt Beverage Company of South Carolina, L.P. (the "Partnership") Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all full-time employees of The Ben Arnold - Sunbelt Beverage Company of South Carolina, L.P. (the Partnership) who have completed at least 1,000 hours and twelve months of service and attained the age of 21. BMO Financial Group (BMO) serves as the custodian and trustee of the Plan. Certain members of management of the Partnership also serve as trustees of the Plan. Primetrust Advisors serve as the co-fiduciary of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Contributions to the Plan are made at the discretion of the Partnership's Board of Directors based upon the Partnership's annual profit. For 2012 and 2011 the Board determined that no contribution would be made. In no event will the contributions made by the Partnership exceed the maximum amount that can be allowed as an income tax deduction under the applicable provisions of the Internal Revenue Code.

Participant accounts:

Each participant's account is credited with the Partnership's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Vesting in the Partnership's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after two years of credited service.

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

December 31, 2012 and 2011

Note 1. Description of the Plan, Continued

Forfeited accounts:

Forfeitures are reallocated in the same manner as Partnership contributions. At December 31, 2012 and 2011, there were no forfeited non-vested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investments and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

The Plan has evaluated subsequent events through July 26, 2013, the date the financial statements were available to be issued.

Note 4. Trustee Certifications

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and related income:

	<u>December 31,</u>	
	<u>2012</u>	<u>2011</u>
Investments at fair value		
Pooled separate accounts	\$ 7,027,540	\$ 6,679,653
Investments at contract value		
Stable value fund	1,719,639	1,622,017
Accrued interest and dividends	<u>49,388</u>	<u>48,834</u>
	<u>\$ 8,796,567</u>	<u>\$ 8,350,504</u>

BMO also certified to the completeness and accuracy of \$840,433 in net appreciation for 2012 and \$219,221 net depreciation for 2011 in fair value of investments and \$174,106 and \$131,414 of interest and dividends related to the aforementioned Plan assets for the years ended December 31, 2012 and 2011, respectively.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements, Continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2012 and 2011:

Pooled separate accounts and stable value fund: Valued at net asset value (NAV). The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2012 and 2011:

Profit Sharing Plan

Notes to Financial Statements

December 31, 2012 and 2011

Note 6. Stable Value Investment Options

The BMO Stable Principal Fund is comprised of fully benefit-responsive contracts and is therefore valued at contract value, which represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate was 2.46% and 2.65% at December 31, 2012 and 2011, respectively. The average yield was 2.41% and 2.81% for the years ended December 31, 2012 and 2011, respectively.

Note 7. Related Party Transactions

Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Partnership pays directly any other fees related to the Plan's operations.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Partnership by a letter dated July 8, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be substantiated upon examination by the Department of Labor or the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2009.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
