NOTE A – DESCRIPTION OF PLAN

The following description of the El Dorado Furniture 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all full-time employees of El Dorado Furniture Corporation (the "Company") who have one year of service, worked at least 1,000 hours during the year, and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

Each year, participants may contribute up to 15% of their pretax annual compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 35% of the first 5% of base compensation. Additional amounts may be contributed at the option of the Company's Board of Directors.

Contributions in excess of the above limitations are refunded to the participant and any matching portion to the Company.

3. Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant, under a seven-year graded schedule, is 100% vested after six years of credited service for matching contributions and 100% vested after seven years of credited service for discretionary contributions.

5. Notes receivable from participants

Participants may borrow from their fund accounts at a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are repaid over 1-5 years and are secured by the balance in the participant's account. The notes bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Interest rates range from 5.25% to 11.50%. Principal and interest is paid ratably through monthly payroll deductions.

6. Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE A – Continued

7. Forfeited accounts

Forfeited nonvested accounts are used to offset employer contributions made after the forfeited amount is determined.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

2. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Investment valuation and income recognition

The Plan's investments are stated at fair value, determined as follows:

- Guaranteed interest accounts with Principal – Contract value adjusted to take into account the current rates of interest available in the market place.
- Collective investment trust – Contract value, which currently approximates fair value.
- Pooled separate accounts with Principal – Quoted market price times the number of units in each account, or the fair value of the underlying investments in the separate accounts.
- Participant loans – valued at cost which approximates fair value.

Net appreciation/depreciation in fair value of investments includes gains/losses on investments bought and sold, as well as held, during the year.

4. Payment of benefits

Benefits are recorded when paid.

NOTE C – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures", provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques, used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (levels 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – quoted prices are available in active markets for identical assets and liabilities. A quoted price for an identical asset or liability in an active market provides the most reliable fair value measurement because it is directly observable to the market.
- Level 2 – observable market inputs, other than quoted prices included in Level 1, that are either directly or indirectly observable. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and market inputs other than quoted prices (such as interest rates and yield curves) that are directly observable for the asset or liability.

NOTE C – Continued

- Level 3 – unobservable market inputs that are used to measure fair value if observable market inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Plan. The Plan considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Plan's perceived risk of that instrument.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011 (unaudited):

2012	Fair Value	Quote Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Principal Pooled Separate Accounts	$ 5,239,033	$ -	$ 5,239,033	$ -
Collective Investment Trust	1,215,660	-	1,215,660	-
Principal General Account (unallocated)	650,305	-	-	650,305
Total	$ 7,104,998	$ -	$ 6,454,693	$ 650,305

2011	Fair Value	Quote Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Principal Pooled Separate Accounts	$ 5,447,774	$ -	$ 5,447,774	$ -
Principal General Account (unallocated)	613,620	-	-	613,620
Total	$ 6,061,394	$ -	$ 5,447,774	$ 613,620

The following table reconciles the beginning balances of fair value measurements using significant unobservable inputs (Level 3) of the guaranteed investment contract with Principal for the years ended December 31, 2012 and 2011 (unaudited):

	2012	2011
Beginning balance	$ 613,620	$ 569,284
Total gains or losses included in changes in net assets available for benefits	-	-
Purchases and other	36,685	44,336
Ending balance	$ 650,305	$ 613,620

NOTE C – Continued

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2012 and 2011, there were no transfers into or out of Level 3.

NOTE D – INVESTMENTS

Investments that represent 5% or more of the Plan's net assets at December 31, are as follows:

	2012	2011
Principal Pooled Separate Accounts	$ 5,239,033	$ 5,447,774
Collective Investment Trust	1,215,660	-
Principal General Account (Unallocated)	650,305	613,620
	$ 7,104,998	$ 6,061,394

During 2012 and 2011, the Plan's investments appreciated (depreciated) in value by $677,811 and $(52,593), respectively, all within the Principal Pooled Separate Accounts.

NOTE E – GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive guaranteed investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $650,305 and $613,620, respectively. The adjustment of the investment in the guaranteed investment contract from fair value to contract value is not deemed material.. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at the contract value with participants are probable of occurring.

NOTE E – Continued

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The Plan also invests in investment contracts through a common collective trust fund. Contract value for this common collective trust fund is based on the net asset value of the fund, as reported by the investment manager. The statements of net assets available for benefits present the fair value of the investment in the common collective trust funds. The adjustment of the investment in the common collective trust fund from fair value to contract value is not deemed material.

NOTE F – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by Principal, the trustee.

- Certified information included in the statements of net assets available for benefits:
  - Principal Life Insurance Investment Contract No. 4-36246
- Certified information included in the statements of changes in net assets available for benefits:
  - Interest income
  - Net appreciation/depreciation in fair value of investments

NOTE G – RELATED PARTY TRANSACTIONS

Certain plan investments are investments managed by Principal. As Principal is the trustee as defined by the Plan, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Principal for administration and investment management fees amounted to $15,358 and $22,810 for the year ended December 31, 2012 and 2011, respectively.

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE I – TAX STATUS

The Internal Revenue Service, by a favorable opinion letter dated April 15, 1993, concluded that the form of the Standardized Paired Profit Sharing 401(k) Plan is acceptable in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

NOTE J – SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the balance sheet date but before the financial statements are issued or are available to be issued. Subsequent events should be disclosed in the financial statements if exclusion of such disclosure would cause the financial statements to be misleading. The Company evaluated subsequent events through May 22, 2013, the date the financial statements were available to be issued.
