1. DESCRIPTION OF PLAN:

The following description of the Consolidated Health Services, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Effective January 1, 2011, Consolidated Health Services (the "Company"), a subsidiary of Catholic Health Initiatives ("CHI"), adopted the Plan as a noncontributory defined benefit pension plan covering certain eligible employees of the Company. Eligible employees are defined as active employees of the Company or its subsidiaries on December 31, 2010, and who were active employee in the Bethesda Retirement Plan on December 31, 2010 and had accrued a retirement benefit under the Bethesda Retirement Plan or employees of other groups within the CHI controlled group that were pre-determined to be transferred into the Plan subsequent to January 1, 2011.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Company contributes amounts as actuarially determined in order to provide assets sufficient to meet the benefits to be paid to Plan participants. The Plan has met the ERISA minimum funding requirements.

Pension benefits

Participants with three or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the sum of the product of the number of years of credited service (at least 800 hours of service) times a percentage of compensation ranging from 5% - 10% based on years of vesting service, plus an additional 2% of first step compensation, plus an additional 3% of second step compensation. First step compensation is defined as the amount by which the eligible employee's compensation from the Company for the Plan year exceeds one-half of the Social Security Taxable Wage Base in effect for the Plan year. Second step compensation is defined as the amount of an eligible employee's compensation from the Company for the Plan year which is in excess of the Social Security Taxable Wage Base for such Plan year.

The Plan permits early retirement after age 55 and 3 years vesting service. If employees terminate before rendering three years of service, they forfeit the right to receive their accumulated plan benefits. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity. Participants also may elect to receive the value of their accumulated plan benefits upon retirement or termination as a lump-sum distribution, or they may elect to receive a life annuity payable monthly from retirement.

Death and disability benefits

If an active participant dies at age 65 or older, a death benefit equal to the value of the participants' accumulated pension benefits is paid to the participants' beneficiary. Participants receive reduced benefits until they reach age 65, which is defined as normal retirement age. At normal retirement age, the participant will receive full benefits. Disability benefits are paid immediately until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed at normal retirement age with their annual compensation remaining the same as at the time they became disabled.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The accompanying financial statements have been presented on the accrual basis of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Payment of benefits

Benefit payments to participants are recorded when paid.

Administrative expenses

All expenses incurred in the administration of the Plan and actuarial services provided by the Plan are paid by the Plan.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits (Note 3) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the participants. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date, January 1, 2012.

Reclassifications

Certain items in the prior year financial statements have been reclassified to conform to the current year presentation.

Subsequent events

The Plan has evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued.

3. ACCUMULATED PLAN BENEFITS:

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The more significant assumptions underlying the actuarial computations are as follows:

Mortality	Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2027 using Scale AA) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2019 using Scale AA)
Retirement	In general, age 65, or current age if older. Terminated vested participants with a Retirement Account are assumed to commence benefits at age 60.
Interest rate	5.61% and 6.38% at December 31, 2012 and 2011, respectively
Discount rate	4.28% and 5.65% at December 31, 2012 and 2011
Turnover	Rates varying by age and service
Rate of compensation increase	3.00% at December 31, 2012 and 2011

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefit information as of January 1, 2012, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Active participants	\$ 1,767,698
Terminated participants with deferred benefits	<u>2,401</u>
	1,770,099

Nonvested benefits	<u>99,724</u>
	<u>\$ 1,869,823</u>

The changes in accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2011	\$ -
Increase (decrease) during the year attributable to:	
Changes in actuarial assumptions	83,433
Decrease in the discount period	(21)

4. INVESTMENTS:

Investments whose fair value represents 5% or more of the Plan's net assets available for benefits at December 31, 2012 and 2011 are as follows:

	<u>2012</u>	<u>2011</u>
Interest in Catholic Health Initiatives Master Trust	\$4,662,716	\$1,453,635
Dreyfus Institutional Cash Advantage Fund	814,295	184,845

The Plan's share of investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Money market fund	<u>1,607</u>	<u>-</u>
	\$ <u>310,366</u>	<u>(46,365)</u>

5. INTEREST IN MASTER TRUST:

The Catholic Health Initiatives Master Trust holds assets for trading purposes relating to various employee benefit plans administered by the Company. At December 31, 2012 and 2011, the Plan's ownership interest in the Catholic Health Initiatives Master Trust was 0.18 percent and 0.06 percent, respectively. The following is summarized financial data related to the Catholic Health Initiatives Master Trust at December 31, 2012 and 2011 and for the years then ended:

6. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Following is a description of the valuation methodologies used for assets measured at fair value.

Money Market Funds: Valued at the quoted price reported on the active market on which the individual securities are traded.

Corporate Stocks: The fair values of these securities are valued at the quoted price reported on the active market on which the individual securities are traded.

Corporate Debt Instruments: The fair values of these securities are primarily based on observable market quotations for identical or similar bonds, valued at the quoted price reported on the active market on which the individual securities are traded.

Registered Investment Companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Partnerships/Joint Ventures: These funds consist primarily of U.S. government securities, corporate bonds, and corporate stocks, which are valued in a manner consistent with these types of investments, noted above.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Catholic Health Initiatives Master Trust's fair value measurements for investments held at December 31, 2012 and 2011.

7. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, investments, related interest and dividend income and net appreciation (depreciation) in fair value of investments presented in the financial statements are based on information certified as complete and accurate by the trustee of the Plan as of December 31, 2012 and 2011, and for the years then ended, and were not subjected to any auditing procedures performed by the independent auditors.

8. RELATED PARTY TRANSACTIONS:

Plan administrative expenses, including fees and expenses connected with administrative services provided by external service providers, are paid from Plan assets. Fees paid for legal, accounting, and other services rendered by parties-in-interest were based upon customary and reasonable rates for such services.

9. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

If the assets available for allocation under any category are insufficient to fully satisfy the benefits of all participants, the assets will be distributed proportionately. If assets remain after all the liabilities for accrued benefits have been satisfied, such assets will be distributed to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not

guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

10. INCOME TAX STATUS:

The Plan has applied for a determination letter from the Internal Revenue Service stating that the Plan is qualified under the Code Section 401(a). However, the plan administrator believes that the Plan is qualified, and therefore, the related trust is exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's only open tax year subject to income tax examination is 2011.

11. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Definitions

Actuarial Equivalence As defined in plan document.

Plan Year 12-month period commencing each January 1.

Year of Vesting Service Plan Year in which an employee completes at least 1,000 hours of service.

Participant Each employee becomes a Participant in the Plan when they become an eligible employee.

Retirement Account The sum of Annual Retirement Credits and Interest Credits

Annual Retirement Credits For any Plan Year, a percentage based on the number of Years of Vesting Service completed by an eligible employee, determined in accordance with the table below

Years of Vesting Service	Percent of Compensation	Percent of First-Step Compensation	Percent of Second-Step Compensation
1-5	5%	2%	3%
6-10	6%	2%	3%
11-15	7%	2%	3%
16-20	8%	2%	3%
21-25	9%	2%	3%
26+	10%	2%	3%

Compensation Total compensation, excluding non-cash compensation and any contributions or benefits under this plan or any other benefit plan.

First-Step Compensation Compensation above one-half of the Social Security Wage Base in effect for the Plan Year.

Second-Step Compensation Compensation above the Social Security Wage Base in effect for the Plan Year.

Social Security Wage Base The maximum amount of pay on which Social Security taxes must be paid in a given year.

Interest Credits At the end of each Plan Year, each Participant who then has a Retirement Account will be credited with an amount equal to the Index Rate applied to the Participant's Retirement Account at the beginning of that Plan Year.

 Schedule SB, Part V – Summary of Plan Provisions

Plan Provisions

Effective Date January 1, 2011

Definitions

Actuarial Equivalence As defined in plan document.

Plan Year 12-month period commencing each January 1.

Year of Vesting Service Plan Year in which an employee completes at least 1,000 hours of service.

Participant Each employee becomes a Participant in the Plan when they become an eligible employee.

Retirement Account The sum of Annual Retirement Credits and Interest Credits

Annual Retirement Credits For any Plan Year, a percentage based on the number of Years of Vesting Service completed by an eligible employee, determined in accordance with the table below

Years of Vesting Service	Percent of Compensation	Percent of First-Step Compensation	Percent of Second-Step Compensation
1-5	5%	2%	3%
6-10	6%	2%	3%
11-15	7%	2%	3%
16-20	8%	2%	3%
21-25	9%	2%	3%
26+	10%	2%	3%

Compensation Total compensation, excluding non-cash compensation and any contributions or benefits under this plan or any other benefit plan.

First-Step Compensation Compensation above one-half of the Social Security Wage Base in effect for the Plan Year.

Second-Step Compensation Compensation above the Social Security Wage Base in effect for the Plan Year.

Social Security Wage Base The maximum amount of pay on which Social Security taxes must be paid in a given year.

Interest Credits At the end of each Plan Year, each Participant who then has a Retirement Account will be credited with an amount equal to the Index Rate applied to the Participant's Retirement Account at the beginning of that Plan Year.
