NOTE 1 - Description of the Plan

The following description of the A. Daigger & Company, Inc. 401(k) Plan (the "Plan") provides only general information. Users of these financial statements should refer to the Plan's plan document for a more complete description of the Plan's provisions.

General

The Plan, established on July 1, 1993, is a defined contribution plan covering eligible non-union employees of A. Daigger & Company, Inc. (the "Company"), and the related non-union employees of ETAhand2mind, Learning Resources Holdings, Inc., and Educational Insights, Inc., and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

All employees who have completed at least 3 months of service with the Company, as defined in the Plan, are eligible to begin deferring a percentage of salary into the Plan on the first of the month immediately following satisfaction of this service requirement. Employment with certain predecessor companies is counted for eligibility purposes. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of available investment options.

Contributions

Each year, participants may contribute up to 60% of pretax annual compensation (salary reduction contributions), and up to 100% of bonus payroll, as defined by the Plan, up to the maximum allowed by the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

The Company matches 100% of participant contributions for contributions up to the first 3% of the participant's compensation, and 50% of the next 2% of the participant's compensation contributed to the Plan, up to a maximum annual contribution of $1,500 per participant. The Company may, at the discretion of its Board of Directors, make additional discretionary contributions to be allocated to the accounts of the eligible participants. In order to be eligible for the matching and/or discretionary contributions, the participant must have earned at least 1,000 hours of service during the plan year, and be employed on the first and last day of the plan year. No discretionary contributions were made for the years ended December 31, 2012 and 2011. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions, and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - Description of the Plan (cont.)

Vesting

Participants are immediately vested in their salary reduction, rollover, and Company matching contributions plus earnings thereon. Participants who leave the plan because of death, normal retirement, or disability retirement, as defined by the Plan, are considered 100% vested in the employer discretionary contributions. Vesting in the Company discretionary contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeited Accounts

As of December 31, 2012 and 2011, forfeited nonvested accounts totaled $13,085 and $6,524, respectively. These accounts will be used to reduce future Company contributions. In the event that they are not used to reduce future company contributions, these accounts shall be allocated among the accounts of eligible participants at year end. For the plan year ended December 31, 2012, no forfeitures were applied to offset employer contributions.

Payment of Benefits

Benefits may be paid to the participant or their beneficiaries upon death, disability, attainment of age 59½, retirement, or termination of employment, as defined in the plan document. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum or installment payments. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the plan document.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Notes Receivable From Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that range from 4.25% - 6.75%, as determined by the plan administrator, which are commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

NOTE 1 - Description of the Plan (cont.)

Administrative Expenses and Revenue Sharing

The Company pays of portion of the Plan's administrative expenses. A participant's account balance will be charged with certain fees and expenses. Asset –based fees (e.g., management fees and other operating expenses) are used to cover the expenses related to running an investment fund, and are generally deducted directly from a participant's investment returns.

Plan administration fees cover the day-to-day expenses of administering the Plan, and may be charged directly to a participant's account, covered by a portion of the asset-based fees deducted directly from investment returns, or paid through revenue-sharing payments made from investment managers to the recordkeeper.

Participants requesting loans pay administrative costs for processing their loans.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 - Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-04, "Fair Value Measurement," which aligns disclosures related to fair value between U.S. GAAP and International Financial Reporting Standards. The standards update includes changes to the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and changes to the disclosure of information about fair value measurements. More specifically, the changes clarify the intent of the FASB regarding the application of existing fair value measurements and disclosures as well as changing some particular principles or requirements for measuring fair value or for disclosing information about fair value measurements. This update is effective for the Plan in 2012, except for certain disclosures for nonpublic employee benefit plans as noted in ASU No. 2013-09, "Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04", which has been deferred indefinitely. The Plan has adopted the provisions of ASU No. 2011-04, except for the disclosures related to ASU No. 2013-09.

Payment of Benefits

Benefits are recorded when paid.

Investments that represent 5% or more of the plan's net assets are separately identified with an "*". Investments denoted "**" are presented for comparability and are not greater than 5% of Plan assets

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought, sold and held during the year) in shares of registered investment companies appreciated in value by $1,809,599. The Plan's interest and dividend income was $414,045.

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value of Financial Instruments

The Plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2012 and 2011.

Registered Investment Companies: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The Plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

NOTE 5 - Parties-In-Interest

The Company is the plan sponsor. In addition, certain employees of the Company act as fiduciaries of the Plan and are responsible for the administration of the Plan. The employees are compensated by the Company and do not receive any compensation from the Plan.

Certain Plan investments are shares of registered investment company funds managed by the Trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are with the Trustee and are party-in-interest transactions. These fees are netted against investment income.

NOTE 6 - Tax Status

The Plan has adopted the provisions of a Fidelity Volume Submitter Plan. The volume submitter plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator is not aware of any events that have occurred that might adversely affect the Plan's qualified status.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 7 - Subsequent Events

The Plan has evaluated subsequent events through October 11, 2013, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

The following description of the A. Daigger & Company, Inc. 401(k) Plan (the "Plan") provides only general information. Users of these financial statements should refer to the Plan's plan document for a more complete description of the Plan's provisions.

General

The Plan, established on July 1, 1993, is a defined contribution plan covering eligible non-union employees of A. Daigger & Company, Inc. (the "Company"), and the related non-union employees of ETAhand2mind, Learning Resources Holdings, Inc., and Educational Insights, Inc., and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

All employees who have completed at least 3 months of service with the Company, as defined in the Plan, are eligible to begin deferring a percentage of salary into the Plan on the first of the month immediately following satisfaction of this service requirement. Employment with certain predecessor companies is counted for eligibility purposes. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of available investment options.

Contributions

Each year, participants may contribute up to 60% of pretax annual compensation (salary reduction contributions), and up to 100% of bonus payroll, as defined by the Plan, up to the maximum allowed by the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

The Company matches 100% of participant contributions for contributions up to the first 3% of the participant's compensation, and 50% of the next 2% of the participant's compensation contributed to the Plan, up to a maximum annual contribution of $1,500 per participant. The Company may, at the discretion of its Board of Directors, make additional discretionary contributions to be allocated to the accounts of the eligible participants. In order to be eligible for the matching and/or discretionary contributions, the participant must have earned at least 1,000 hours of service during the plan year, and be employed on the first and last day of the plan year. No discretionary contributions were made for the years ended December 31, 2012 and 2011. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions, and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - Description of the Plan (cont.)

Vesting

Participants are immediately vested in their salary reduction, rollover, and Company matching contributions plus earnings thereon. Participants who leave the plan because of death, normal retirement, or disability retirement, as defined by the Plan, are considered 100% vested in the employer discretionary contributions. As of December 31, 2012 and 2011, forfeited nonvested accounts totaled $13,085 and $6,524, respectively. These accounts will be used to reduce future Company contributions. In the event that they are not used to reduce future company contributions, these accounts shall be allocated among the accounts of eligible participants at year end. For the plan year ended December 31, 2012, no forfeitures were applied to offset employer contributions.

Payment of Benefits

Benefits may be paid to the participant or their beneficiaries upon death, disability, attainment of age 59½, retirement, or termination of employment, as defined in the plan document. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum or installment payments. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the plan document.

Termination of Plan

Notes Receivable From Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that range from 4.25% - 6.75%, as determined by the plan administrator, which are commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

NOTE 1 - Description of the Plan (cont.)

Administrative Expenses and Revenue Sharing

The Company pays of portion of the Plan's administrative expenses. A participant's account balance will be charged with certain fees and expenses. Asset –based fees (e.g., management fees and other operating expenses) are used to cover the expenses related to running an investment fund, and are generally deducted directly from a participant's investment returns.

Plan administration fees cover the day-to-day expenses of administering the Plan, and may be charged directly to a participant's account, covered by a portion of the asset-based fees deducted directly from investment returns, or paid through revenue-sharing payments made from investment managers to the recordkeeper.

Participants requesting loans pay administrative costs for processing their loans.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 - Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-04, "Fair Value Measurement," which aligns disclosures related to fair value between U.S. GAAP and International Financial Reporting Standards. The standards update includes changes to the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and changes to the disclosure of information about fair value measurements. More specifically, the changes clarify the intent of the FASB regarding the application of existing fair value measurements and disclosures as well as changing some particular principles or requirements for measuring fair value or for disclosing information about fair value measurements. This update is effective for the Plan in 2012, except for certain disclosures for nonpublic employee benefit plans as noted in ASU No. 2013-09, "Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04", which has been deferred indefinitely. The Plan has adopted the provisions of ASU No. 2011-04, except for the disclosures related to ASU No. 2013-09.

Payment of Benefits

Benefits are recorded when paid.

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought, sold and held during the year) in shares of registered investment companies appreciated in value by $1,809,599. The Plan's interest and dividend income was $414,045.

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value of Financial Instruments

The Plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2012 and 2011.

Registered Investment Companies: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The Plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - Parties-In-Interest

The Company is the plan sponsor. In addition, certain employees of the Company act as fiduciaries of the Plan and are responsible for the administration of the Plan. The employees are compensated by the Company and do not receive any compensation from the Plan.

Certain Plan investments are shares of registered investment company funds managed by the Trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are with the Trustee and are party-in-interest transactions. These fees are netted against investment income.

NOTE 6 - Tax Status

The Plan has adopted the provisions of a Fidelity Volume Submitter Plan. The volume submitter plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator is not aware of any events that have occurred that might adversely affect the Plan's qualified status.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 7 - Subsequent Events

The Plan has evaluated subsequent events through October 11, 2013, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.
