Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Associated Benefits Corporation
Plan Administrator for The Restated Ag Processing Inc
Retirement Plan and Participants
(Participating Employer — AGP Grain Marketing, LLC, Group 527):

We have audited the accompanying financial statements of The Restated Ag Processing Inc Retirement Plan (Participating Employer — AGP Grain Marketing, LLC, Group 527) (the “Plan”), which comprise the statements of net assets available for benefits as of March 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of March 31, 2013 and 2012, and the changes therein for the years then ended and its financial status as of April 1, 2012 and 2011, and the changes therein for the year ended April 1, 2012, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the Table of Contents is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such schedule directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedule is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED MARCH 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following description of The Restated Ag Processing Inc Retirement Plan (Participating Employer — AGP Grain Marketing, LLC, Group 527) (“Plan”) is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a noncontributory defined benefit plan administered by Associated Benefits Corporation (“Plan Administrator”) that covers substantially all full-time employees of AGP Grain Marketing, LLC. Employees who work 1,000 hours or more per year are eligible on the first day of the first or the seventh month of the Plan year following the attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits — Participants can retire with their full pension on the first day of the month coincident with or immediately following the later of their 65th birthday (normal retirement) or the fifth anniversary of the date participation began.

The monthly pension benefit under the Plan is equal to 1.15 percent of average monthly earnings, as defined, up to \$833.33 plus 1.65 percent of average monthly earnings in excess of \$833.33 multiplied by years of credited service. The normal form is a pension payable for the participant’s lifetime. However, an actuarially reduced joint and 50 percent survivorship basis with 120 guaranteed monthly payments is the automatic form for married participants unless both the participant and spouse elect another form.

Participants become vested in the employer contributions and earnings thereon in accordance with the following schedule:

Years of Service	Percentage Vested
Less than 2 years	None
2 years but less than 3 years	20 %
3 years but less than 4 years	40 %
4 years but less than 5 years	60 %
5 years but less than 6 years	80 %
6 years or more	100 %

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan's investment in the Retirement Trust for Cooperatives (the "Trust") utilizes various investment securities including U.S. government securities, corporate debt instruments, and equity funds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumption pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses — Administrative expenses consisting of Trustee fees, investment management fees, actuarial fees and payments to the Pension Benefit Guarantee Corporation (PBGC) are paid from Plan assets. Other administrative expenses, including expenses of the Plan Administrator, are paid by the participating employer. Trustee fees and investment management fees are deducted from investment income or loss.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Subsequent Events — Subsequent events related to the financial statements have been evaluated through September 27, 2013, which is the date the financial statements were available to be issued and the Plan has determined that there are no material events that require adjustment to or disclosure in these financial statements.

New Accounting Standards — The accounting standard initially adopted in 2013 is described below.

ASU No. 2011-04 — In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which amends ASC 820. ASU 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in

unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. The adoption did not have a material effect on the statement of net assets available for benefits and statement of changes in net assets available for benefits. The additional plan determined the disclosures are included in Note 5 to the financial statements.

3. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the participating employer. The participating employer's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The participating employer met the minimum funding requirements of ERISA for the years ended March 31, 2013 and 2012. For financial statement purposes, all employer contributions made to meet the minimum funding requirements of ERISA are considered attributable to the current plan year and are accrued in the financial statements if not paid by year end. For PBGC funding purposes, all employer contributions made to the Plan prior to the filing of the Form 5500 are considered attributable to the previous year.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the employees' contributions, compensation, and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries and (2) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by independent actuaries. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated Plan benefits, using the aggregate cost method, is as follows:

	As determined on April 1,	
	2012	2011
Vested:		
Active participants	\$4,202,475	\$4,773,874
Beneficiaries and retirees	2,290,055	2,234,033
Other participants (including participants active at other groups)	<u>1,605,707</u>	<u>1,769,306</u>
	8,098,237	8,777,213
Nonvested active participants	<u>63,839</u>	<u>97,149</u>
Total actuarial present value of accumulated Plan benefits	<u>\$8,162,076</u>	<u>\$8,874,362</u>

The changes in the actuarial present value of the Plan's accumulated benefits from April 1, 2011 to April 1, 2012 are as follows:

Actuarial present value of accumulated Plan benefits at beginning of year	\$8,874,362
Increase (decrease) during the year attributable to:	
Benefit accumulations/actuarial gains and losses	577,146
Decrease for change in actuarial assumption	(1,615,193)
Increase for interest due to the decrease in the discount period	525,362
Benefits paid	<u>(199,601)</u>
Net decrease	<u>(712,286)</u>
Actuarial present value of accumulated Plan benefits at end of year	<u>\$8,162,076</u>

Actuarial assumptions used in the valuations as of April 1, 2012 and 2011 were as follows:

	April 1, 2012	April 1, 2011
Expected long-term rate of return	8.0 percent per annum	8.0 percent per annum
Discount rate	Segmented with no look-back; segmented as 5.6% for years 1-5, 6.9% for years 6-20, and 7.5% for years 20+	Segmented with no look-back; segmented as 2.5% for years 1-5, 5.6% for years 6-20, and 6.4% for years 20+

Salaries	Will increase according to an age-related table ranging from 7.5% down to 2.8%	Will increase according to an age-related table ranging from 7.2% down to 2.5%
Expenses	Investment related expenses and administration expenses will be paid from investment income in excess of assumed rate of return	Investment related expenses and administration expenses will be paid from investment income in excess of assumed rate of return
Contingency fund charge	0.0971 percent of covered payroll	0.0610 percent of covered payroll

In addition, eligible employees will retire according to the following schedule — employees eligible for the special rule of 85 benefit are assumed to retire according to the select rates shown below for the first year after becoming eligible. The ultimate rates apply to rule of 85 retirements after the first year since becoming eligible and regular retirements. The first year rates will not start before age 55 even if the rule of 85 applies earlier, nor will they ever fall below the ultimate rate for that age.

As of April 1, 2012 and 2011, the rates of retirement assumed were as follows:

Age	As determined on April 1,			
	2012		2011	
	First Year	Ultimate	First Year	Ultimate
55-60	6 %	3 %	6 %	3 %
56	6	3	6	3
57	6	3	6	3
58	6	5	6	5
59	6	5	6	5
60	6	5	6	5
61		10		20
62		30		30
63		25		25
64		25		25
65		40		50
66		25		25
67		25		25
68		25		100
69		25		
70 and over		100		

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

5. FAIR VALUE MEASUREMENTS

In accordance with GAAP, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques — Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at March 31, 2013 and 2012.

Investments in equity funds are valued at net asset value per share or its equivalent without adjustment as determined by the issuer of the fund based on the fair value of the underlying investments. Investments in equity funds are categorized as Level 2.

Cash and money market funds held are primarily short-term money market commingled funds that are categorized as Level 2. They are valued at cost plus accrued interest, which approximates fair value.

Notes, bonds, and debentures are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

The following table provides examples of inputs that are commonly relevant for valuing particular classes of fixed-income securities in which the plan invests. These classifications are not exclusive, and any of the inputs may be used to value any other class of fixed-income security.

Fixed-Income Class	Examples of Standard Inputs
Corporate bonds	Standard inputs and events affecting market sectors and individual issuer credit worthiness
U.S. Treasuries, U.S. government agencies, state and local obligations, non-US government securities	Standard inputs and Treasury curves and spreads
Mortgage backed securities, asset backed securities	Prepayment speeds, actual pool, and collateral information
All	Trade execution data, live trading levels, cash flows, bids, offers, quotes, spreads, indices, Treasury curves, observed market movements, volatility, specific terms and conditions (collectively referred to as “standard inputs”)

The following tables set forth by level within the fair value hierarchy a summary of the Trust's investments measured at fair value on a recurring basis at March 31, 2013 and 2012.

Total	\$ -	\$ 495,859,314	\$ -	\$ 495,859,314

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels for the years ended March 31, 2013 and 2012.

The following tables present a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3):

	Real Estate Funds 2012
Beginning balance — April 1	\$ 12,190,710
Sales	(13,017,340)
Realized and unrealized gains (losses)	<u>826,630</u>
Ending balance — March 31	<u>\$ -</u>
The amount of total gains or losses for the year ended March 31, 2012 included in changes in net assets attributable to the change in unrealized gains or losses related to assets still held at the reporting date	<u>\$ -</u>

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Asset Value (NAV) per Share — The Plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of March 31, 2013 and 2012. The following tables for March 31, 2013 and 2012 set forth a summary of the Trust's investments with a reported NAV.

*The fair values of the investments have been estimated using the net asset value of the investment.

- (a) The domestic stock funds seek to provide long-term growth of capital by investing primarily in equity securities and to achieve above average results over a market cycle. The funds employ a “multi-style, multi-manager” approach whereby portions of the domestic stock funds are allocated to different money managers who employ distinct investment styles. The funds use three principal investment styles intended to complement one another:

Growth: Emphasizes investments in equity securities of companies with above-average earnings growth prospects.

Value: Emphasizes investments in equity securities of companies that appear to the money manager to be undervalued relative to their corporate worth, based on earnings, book or asset value, revenues, cash flow or other measures.

Market-Oriented: Emphasizes investments in companies from the broad equity market rather than focusing on the growth or value segments of the market.

- (b) The international stock funds provide participation in financial markets outside of the United States. The international stock funds invest in international financial markets, primarily those of developed economies in Europe and the Pacific Basin. These funds invest primarily in equity securities issued by foreign corporations, but may invest in other securities perceived as offering attractive investment return opportunities. As with the domestic equity funds, the international equity funds combine Growth, Value, and Market-Oriented Advisers to ensure style diversification.
- (c) The fixed income funds strategies seek to invest at least 80% of their net assets plus any borrowing for investment purposes in a diversified portfolio of bonds, including corporate bonds of domestic and foreign issuers payable in U.S. dollars, short-term debt instruments, mortgage-related securities, and U.S. Treasury securities and other debt securities issued or guaranteed by the U.S. Government (including its agencies and instrumentalities). Although the strategies seek to invest primarily in investment-grade debt securities (i.e., those rated in the four highest rating categories by S&P or Moody’s), they may include investing a portion of their net assets in bonds rated below investment grade.
- (d) The real estate stock funds provide broad exposure to equity securities of real estate companies throughout the world, primarily real estate investment trusts (REITs) and other real estate operating companies whose value is derived from ownership, development and management of commercial properties. The real estate stock funds seek to provide current income and long-term capital growth with above-average consistency.

6. INVESTMENTS AND INTEREST IN THE RETIREMENT TRUST FOR COOPERATIVES

Wells Fargo Bank, n.a. manages the Trust on behalf of the Plan under the terms of the trust agreement between the Wells Fargo Bank, n.a. and the Plan. The Plan is a participant in the Trust. The authority to invest is vested in the appointed money managers, subject to the funding policy and investment objectives established by the Plan Administrator. The investments and changes therein of the Trust have been reported to the Plan by Wells Fargo Bank, n.a. ("Trustee") as having been determined through the use of fair values. Since the Plan's funds are commingled with other plans participating in the Trust, the investments reported in these financial statements reflect only the Plan's allocable portion of the individual investments. Although assets of all plans are commingled in the Trust, the Plan Administrator maintains supporting records for the purpose of allocating the net investment income to the participating plans. The net investment income is allocated by the Plan Administrator to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The following presents the Trust's net assets as of March 31, 2013 and 2012:

	2013	2012
INVESTMENTS — At fair value:		
Common stock and equity funds	\$ 540,237,199	\$ 469,234,558

EB Mellon Total Return Fund	40,454,490	35,567,103
EB US Large Capitalization Core Equity Fund	53,986,626	46,865,189

During the years ended March 31, 2013 and 2012, the Trust's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2013	2012
Interest and dividend income	<u>\$ 347,117</u>	<u>\$ 361,793</u>
Net appreciation (depreciation):		
Investments — at fair value:		
Common stock and equity funds	53,591,158	18,309,612

Plan's allocable portion of net investment gain of The Retirement Trust for Cooperatives	<u>\$ 1,026,364</u>	<u>\$ 372,346</u>

The Trust participates in a securities lending program through the Trustee. Under this program, the Trust's investment securities are loaned to investment brokers for a fee. At the inception of each loan, the Trust requires a minimum of 102% of the fair value of the loaned securities to be separately maintained as collateral for the loans. The Trust has reinvested the collateral in common collective trusts holding cash, letters of credit, securities issued or guaranteed by the U.S. government, its agencies, and instrumentalities and corporate bonds. At March 31, 2013 and 2012, approximately \$3,500,000 and \$2,800,000, respectively, of the Trust's securities were on loan under the Trustee's securities lending program. Securities loaned under such transactions may be sold or repledged by the transferee. Loss from the program was \$2,406 and \$366 for the years ended March 31, 2013 and 2012, respectively.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Trust investments are shares of mutual funds which are managed by Wells Fargo Bank, n.a. Wells Fargo Bank, n.a. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Trust for the investment management services are included as a reduction of the return on each fund.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Participating Employer and the Plan Administrator by a letter dated April 30, 2012, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Participating Employer and the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Participating Employer and the Plan Administrator believe it is no longer subject to income tax examinations for years prior to 2010.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the participating employer has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Plan Name <u>The Restated Ag Processing Inc Retirement Plan</u>	EIN: <u>71-0970028</u>
Plan Sponsor's Name <u>AGP Grain Marketing LLC 527</u>	PN: <u>020</u>

The weighted average retirement age is equal to the normal retirement age of 62 .

List the rate of retirement at each age and describe the methodology used to compute the weighted average retirement age, including a description of the weight applied at each potential retirement age.

See the Actuarial Assumptions attachment for the retirement age probability assumption. The weighted retirement age uses the probabilities as the weights.

Segment 3 – 7.52%

Prior Year: Segment Rates

Segment 1 – 2.51%

Segment 2 – 5.59%

Segment 3 – 6.38%

The Employee Accum's Interest Rate is 1.38%, the prior year used 2.98% per annum for applicable groups.

Mortality

RP 2000 (Separate Male and Female Tables). 2012 Annuitant and Non-Annuitant static separate tables as set forth in Proposed Regulation 1.430(h)(3)-1.

Prior Year:

RP 2000 (Separate Male and Female Tables). 2011 Annuitant and Non-Annuitant static separate tables as set forth in Proposed Regulation 1.430(h)(3)-1.

Turnover

Based on select rates of turnover for the first four years of service and on the ultimate rates of turnover thereafter shown in the table below. Please note that Groups 4 and 527 use the same select rates of turnover but have different ultimate rates in a separate column. Sample rates are shown below.

Groups 216, 323, 326, and 415, do not have a pre-retirement withdrawal assumption.

Groups 509, 510, 513, 514, and 516 use the ultimate rates of termination for all years.

Schedule SB, line 22 - Description of Weighted Average Retirement Age

Plan Name <u>THE RESTATED AG PROCESSING INC RETIREMENT PLAN</u>	EIN: <u>71-0970028</u>
Plan Sponsor's Name <u>AGP GRAIN MARKETING LLC</u>	PN: <u>020</u>

The weighted average retirement age is equal to the normal retirement age of 62.

List the rate of retirement at each age and describe the methodology used to compute the weighted average retirement age, including a description of the weight applied at each potential retirement age.
See the Actuarial Assumptions attachment for the retirement age probability assumption. The weighted retirement age uses the probabilities as the weights.
