Note 1 - Description of the Plan

The J. P. Lamborn Co. 401(k) Profit Sharing Plan ("Plan") was established by J. P. Lamborn Co. ("Company") to provide retirement benefits to eligible Company employees. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan, adopted effective April 1, 1997, was a safe harbor 401(k) plan with a salary deferral arrangement qualified under the appropriate provisions of the Internal Revenue Code ("Code") and applicable state laws. The safe harbor provisions were removed effective plan year beginning April 1, 2008. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by an administrative committee, consisting of Company employees, appointed by the Company's Board of Directors for the exclusive benefit of the participants. The Plan is funded under a qualified trust maintained by Hartford Retirement Services ("Hartford), which was acquired by Massachusetts Mutual Life Insurance Company ("Mass") in January of 2013. Mass is authorized to invest, manage and control Plan assets, pay benefits, and ensure proper accounting records are maintained on behalf of the participants and their beneficiaries. A separate trust agreement has been executed and approved by the IRS under Reliance Trust Company (Trustee).

Eligible Participants - Under the Plan, Company employees age 21 or older may become participants on the day they have completed one year of service and a minimum of one thousand hours. Employees may enter the plan on April 1st and October 1st once they have satisfied the Plan's eligibility requirements.

Contributions - Participants are permitted to make voluntary salary deferral contributions without limitation up to the annual maximum as defined by law ($17,500 in calendar year 2013 and $17,000 in calendar year 2012, respectively). The Plan permits participants to make certain tax-free transfers (rollovers) of lump sum distributions received from other tax-qualified plans, subject to Code regulations. Catch-up contributions are allowed up to $5,500 for calendar years 2012 and 2013 for individuals over 50 years of age who meet certain requirements.

The Company may make discretionary profit sharing contributions at the option of the Company's Board of Directors. For the Plan year ended March 31, 2013, the Company has elected to make a profit-sharing contribution of $200,000 to the Plan.

All or a portion of the profit sharing contributions may be designated as a qualified nonelective contribution (QNEC). A QNEC is not subject to a vesting schedule and as a result, the employee is always 100% vested in any QNECs made on their behalf.

Participant Accounts - Each participant's account is credited with the participant's contributions, an allocation of Company contributions, if any, and Plan earnings. Allocation of discretionary profit sharing contributions is based on a participant's compensation for the Plan year as compared to the compensation of all qualifying plan participants. A participant may invest his or her account in fourteen investment options offered by the Plan.

Investment Options - Upon enrollment in the Plan, a participant may direct employee contributions and employer matching contributions in any of the investment options available. The following funds represent 5% or more of the net assets available for benefits at March 31, 2013.

Massachusetts Mutual Life Insurance Company
American Funds American Balanced R3
American Funds Investment Co. of America
Franklin Strategic Income Fund
MFS Cash Reserve Fund
Pimco Total Return Fund A
Pioneer Fundamental Growth FDA

Notes Receivable from Participants – Under the Plan's provisions, participants may obtain personal loans from their account balances. Participant loans are evidenced by a written note, bear a reasonable rate of interest as determined under the loan policy, and are collateralized by the participant account balance. A participant may borrow the lesser of $50,000 or one-half of his or her vested account balance for a period not to exceed five years. Repayment of principal and interest is made through payroll deductions or an ACH agreement.

Notes receivable from participants are valued at cost, which approximates fair value. Interest income from loans is recorded when received. Delinquent participant loans are reclassified as deemed distributions based upon the terms of the Plan documents.

Vesting - Participants are immediately vested in their contributions, plus earnings thereon. Generally, Company contributions plus earnings thereon become fully vested after two years of service, or upon normal retirement, disability or death. Unvested employer contributions are forfeited and may be used by the Plan for several purposes, such as the payment of plan expenses at the earlier of full distribution of vested account balance or five consecutive one-year breaks in service.

Forfeitures - Forfeitures of profit sharing contributions that are not used to pay for the Plan's ordinary and necessary administrative expenses for the Plan year are used to reduce the amount the Company must contribute as a matching contribution. Forfeiture amounts for the year ended March 31, 2013 were $1,345.

Payment of Benefits - Upon termination of employment, participants are entitled to their vested benefits. Payment of benefits, if married, will automatically be made in a joint and 50% survivor annuity unless an alternate form of payment is elected. If not married on the date benefits are set to begin, payment of benefits will automatically be made in the form of a life annuity.

However, if the vested benefit of an employee's account does not exceed $1,000, then payment is made in a lump-sum distribution. Benefits are recorded when paid.

Administrative Expenses – The Plan permits the payment of Plan related expenses to be made from the plan assets. If the Employer does not pay these expenses from its own assets, then the expenses paid using the Plan's assets will generally be allocated among the accounts of all participants in the Plan.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts, with rights to benefits accrued to the date of termination.

Reclassifications - Certain reclassifications have been made to the prior year financial statements in order for them to be in conformity with the current year presentation.

Note 2 - Summary of Accounting Policies

Basis of Presentation - The Plan presents its financial statements on the accrual basis of accounting. All transactions captured in the statement of net assets available for benefits and statement of changes in net assets available for benefits are based on the accrual-basis method with the value of all Plan assets based on current fair market value.

Investment Valuation and Income Recognition - Investments of the Plan are stated at fair value. Shares of the registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded as of the trade date. Interest income is recorded when received. Dividends are recorded on the ex-dividend basis.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Excess Contributions - Contributions received from participants for 2013 include payments of $364 that will be made subsequent to year-end to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

Note 3 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 7, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan files Form 5500 Annual Return/Report of Employee Benefit Plan with the Internal Revenue Service. The Plan is no longer subject to examinations by the tax authority for the plan years before March 31, 2010.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, The Plan's assets at fair value as of March 31, 2013, and 2012.
