1. Description of the Plan:

The following description of the PSS World Medical, Inc. Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan covering substantially all employees of PSS World Medical, Inc. and its subsidiaries (the "Company" or "employer"). The Plan was created under the provisions of Section 401(a) of the Internal Revenue Code (the "IRC") and includes a qualified deferred arrangement, as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan also has the features of an employee stock ownership plan ("ESOP"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, ("ERISA"), as amended.

For the Plan year ended March 31, 2013, the Plan was amended to include the names of additional employers recently acquired by the Company. The new employers were Rebel Distributors Corporation, Infolabs, LLC, Shenandoah Medical Supply, Inc., Select Rx, LLC, and Family Care Medical Products, Inc. (dba OneSource Healthcare).

On February 22, 2013, the McKesson Corporation completed an acquisition of the Company. For the Plan year ended March 31, 2012, the Company filed a Form 11-K with the Securities and Exchange Commission ("SEC"). The Company is not required to file a Form 11-K for the Plan year ended March 31, 2013 because the Plan no longer holds the Company's common stock as an investment option. The Company deregistered its common stock and filed a Form 15 with the SEC effective March 4, 2013. Shares that had been held by the Plan, in the PSS World Medical, Inc. unitized stock fund, were sold on March 28, 2013 with the cash proceeds reinvested in the PSS Moderate Conservative Model Portfolio investment option.

Eligibility

Any employee of the Company is eligible to participate in the Plan upon completing 30 days of service. Plan entry dates are the first day of each month within the Plan year.

Contributions

The Plan is funded through voluntary employee salary deferrals and employer contributions. Participants can elect to defer up to 85% but not less than 1% of compensation, as defined by the Plan and as limited by requirements of the IRC. Participants who have attained age 50 before the close of the calendar year are eligible to make an additional elective deferral contribution. Participant elective contributions are invested by Principal Financial Group ("the Trustee") in the investment options (mainly mutual funds and employer securities) as directed by the participant. The Plan also allows participants to make elective contributions from incentive compensation.

The Company may make the following types of contributions: (i) Supplemental ESOP matching contributions, (ii) ESOP matching contributions, (iii) Non-ESOP matching contributions, (iv) ESOP employer contributions, (v) Employer discretionary contributions, and (vi) Qualified non-elective contributions.

1. Description of the Plan (Continued):

Supplemental ESOP Matching Contributions

For the Plan year ended March 31, 2013, the Company made no Supplemental ESOP Matching Contributions.

ESOP Matching Contributions

For the Plan year ended March 31, 2013, the Company made no ESOP Matching Contributions.

Non-ESOP Matching Contributions

The Company's Board of Directors may elect annually to make a discretionary contribution in the form of a non-ESOP matching contribution (contributions to be invested at the direction of the participant). Such contributions are allocated to participants based on the formula established by the Board of Directors. The Board of Directors also determines the percentage of participant elective contributions to be matched as well as the maximum amount of match to be contributed. A participant must make elective salary deferrals to be eligible for such matching contributions.

Non-ESOP Matching Contributions for each eligible participant are equal to the lesser of (i) 50% of a participant's elective deferral amount up to 6% of a participant's compensation for the Plan year or (ii) \$1,750. The Non-ESOP Matching Contributions for the Plan year ended March 31, 2013 were \$2,769,988, of which \$2,605,544 was funded by the Company and \$164,444 was funded by the reallocation of forfeited contributions.

ESOP Employer Contributions

There were no ESOP employer contributions for the Plan year ended March 31, 2013.

Employer Discretionary Contributions

The Company's board of directors may also elect annually to make employer discretionary contributions. There were no employer discretionary contributions for the Plan year ended March 31, 2013.

Qualified Non-Elective Contributions

The Company's board of directors may also elect annually to make qualified non-elective contributions. Such contributions may be allocated to a limited number of non-highly compensated employees and are only made to eliminate potential discrimination with respect to participant elective contributions or employer matching contributions that would otherwise favor highly compensated employees. There were no qualified non-elective contributions for the Plan year ended March 31, 2013.

PSS WORLD MEDICAL, INC. SAVINGS PLAN

Notes to Financial Statements

1. Description of the Plan (Continued):

Vesting

Participants are immediately vested in their contributions. Participants are vested in the Company's ESOP matching contributions, Non-ESOP matching contributions, ESOP employer contributions, and earnings thereon based on years of continuous service, as defined in the Plan, according to the following schedule:

Less than two years of service	0%
Two years but less than three years	20%
Three years but less than four years	40%
Four years but less than five years	60%
Five years but less than six years	80%
Six years or more	100%

In the event of total and permanent disability or death, a participant shall become 100% vested in the participant's account balance.

Forfeited Accounts

Nonvested portions of the Company's matching contributions are forfeited as of a participant's termination date and are used to reduce future Company matching contributions. During the Plan year ended March 31, 2013, forfeitures of nonvested accounts totaled \$165,240. Forfeitures used to reduce Company matching contributions were \$164,444 for the Plan year ended March 31, 2013. As of March 31, 2013 and 2012, forfeited, nonvested accounts of \$1,293 and \$566, respectively, were reflected in the accompanying *Statements of Net Assets Available for Benefits*.

Benefits Paid to Participants

Upon retirement, death, disability, or other severance of employment, a participant or his/her beneficiary may elect to receive an amount equal to the value of the participant's vested interest in the participant's account. Balances in participant accounts are paid in a single lump sum.

Participants who had an account balance in the Plan's unitized stock fund prior to the sale of the Company, had their account balances distributed in shares of the Company's common stock (with fractional shares paid in cash) or cash as elected by the participant with payment to the participant at their direction.

Participant Loans

The Plan does not permit participant loans.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, and an allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (Continued):

Voting Rights

Prior to the sale of the Company, each participant was entitled to exercise voting rights attributable to the Company common stock shares allocated to his or her account and was notified by the Transfer Agent of the Company prior to the time that such rights are to be exercised. The trustee voted any allocated shares according to the instructions given by a participant. If no instructions were given to the trustee by a participant, the trustee voted any allocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"), requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Income and Expense Recognition

Interest income is recorded as earned on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments is allocated on a daily basis to participant accounts. Purchases and sales of investments are recorded on a trade date basis.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments, allocated to the individual accounts.

Investment Valuation

Investments in mutual funds and bond funds are stated at fair value, which are based on published market quotations on national exchanges. The Plan's unitized stock fund as of March 31, 2012 was valued at a unit value determined by the amount of shares of common stock and cash held within the unitized stock fund.

Investments in the accompanying *Statements of Net Assets Available for Benefits* include investments in a common collective trust, the Wells Fargo Stable Return Fund which include fully benefit-responsive investment contracts. Investment in the common collective trust is stated at the fair value based on the underlying unit values reported using the financial statements of the collective trust and changes in such amounts through the Plan's year end. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

2. Summary of Significant Accounting Policies (Continued):

Accordingly, the *Statement of Net Assets Available for Benefits* presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The *Statement of Changes in Net Assets Available for Benefits* is prepared on a contract value basis.

Administrative Expenses

Administrative expenses reflected in the *Statement of Changes in Net Assets Available for Benefits* of \$30,043 represent distribution and redemption fees paid by participants. All other Plan administrative expenses were paid by the Company for the Plan year ended March 31, 2013.

3. Fair Value Measurements:

Assets and liabilities recorded at fair value are measured using a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Inputs using unadjusted quoted prices for identical assets or liabilities in an active market that the Company has the ability to access.

Level 2: Inputs other than quoted prices in markets that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methods used for assets measured at fair value.

Mutual funds: The fair values of these securities are based on observable market quotations for identical assets and are priced on a daily basis at the close of business.

Common collective trust: The fair value of the common collective trust is determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end.

PSS World Medical, Inc. unitized stock fund: The fair value of these securities was based on the net asset value of the units, which was the closing price of the underlying common stock in the principal active market on which the securities were traded and the uninvested cash position held by the fund, divided by the number units outstanding.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

4. Investments (Continued):

The Wells Fargo Stable Return Fund, a common collective trust, invests primarily in investment contracts, including traditional guaranteed investment contracts and security-backed contracts issued by insurance companies and other financial institutions. The interest crediting rate of the Wells Fargo Stable Return Fund as of March 31, 2013 and 2012 was 1.97% and 2.21%, respectively. The average market yield of the Wells Fargo Stable Return Fund for the year ended March 31, 2013 was 1.00%.

5. Information Prepared and Certified by the Plan Trustee:

Accordingly, the trustee has certified that the following investments included in the *Statement of Net Assets Available for Benefits* as of March 31, 2013 and the dividends and interest and net appreciation in fair value of investments included in the *Statement of Changes in Net Assets Available for Benefits* for the year then ended, are complete and accurate.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

6. Tax Status:

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated November 16, 2011, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Plan management was notified by the IRS that the Form 5500 for Plan years ended March 31, 2011 and March 31, 2012 were selected for examination. The IRS completed the examinations and provided Plan management with closing letters, dated January 29, 2013, accepting the new returns for both years.

PSS WORLD MEDICAL, INC. SAVINGS PLAN
Notes to Financial Statements

6. Tax Status (Continued):

Management has evaluated the Plan's tax positions and concluded that as of March 31, 2013 the Plan had taken no uncertain tax positions that require recognition of a liability (or asset) in the financial statements. With few exceptions, the Plan is no longer subject to income tax examination by the U.S. federal, state or local tax authorities for tax years ended before March 31, 2013.

7. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions and earnings thereon.

8. Related Party Transactions:

At March 31, 2012, the Plan owned 1,117,636 shares of the Company's common stock, which represented approximately 2.2% of the outstanding common stock of the Company. These shares along with cash represented 1,279,085 units of the unitized stock fund as of March 31, 2012.

As of March 31, 2013 and 2012, payables to participants to satisfy the Actual Deferral Percentage Test totaled \$430,630 and \$153,762 and payables to the trustee representing pending trades totaled \$0 and \$23,290, respectively. Transactions with the trustee qualify as party-in-interest transactions. Fees paid by the Plan to the trustee for administrative services amounted to \$30,043 for the Plan year ended March 31, 2013.

9. Risk and Uncertainties:

The Plan invests in various investment securities, as described in Note 4, *Investments*. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the *Statements of Net Assets Available for Benefits*.

10. Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for benefits per these financial statements to net assets per the Form 5500 as of March 31, 2013 and 2012.
