Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Trustee
Wynne Building Corporation Employees' Pension Trust
Miami, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of Wynne Building Corporation Employees' Pension Trust (the Plan), which comprise the statements of net assets available for benefits as of March 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of April 1, 2012, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of Wynne Building Corporation Employees' Pension Trust as of March 31, 2013 and 2012, and the changes in its financial status for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of schedule of assets (held at year end) as of March 31, 2013 is presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole

WYNNE BUILDING CORPORATION EMPLOYEES' PENSION TRUST
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2013 AND 2012

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Wynne Building Corporation Employees' Pension Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Description of Plan – The Plan is a defined benefit pension plan covering substantially all employees of Wynne Building Corporation (the Company and the Plan Sponsor) and JAW Holdings, LLC (a controlled entity) who have completed one year of service and attained the age of 21. All employees who begin service, or returned to the Company after a break in service, on or after April 1, 2009, are not eligible to participate. The Plan was created effective October 23, 1972, with an amendment and restatement effective September 4, 2007, and most recently amended on June 22, 2009, effective April 1, 2009. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits – Employees are entitled to pension benefits equal to 1.2% (base benefit percentage) times average monthly compensation (AMC) times each year of participant service up to 15 years plus 1.6% times AMC times each year of participant service in excess of 15 years up to a maximum of 20 years plus a benefit equal to .65% (excess benefit percentage) times AMC in excess of one-twelfth of covered compensation multiplied by the participant's total number of years of participation (up to a maximum of 35 years). The accrued benefit for a participant who terminates employment prior to their normal retirement is calculated in the same manner as the normal retirement benefit; however, the accrued benefit will be based upon years of participation and the AMC as of the date of termination.

Vesting – The Plan's vesting provisions are based on a five year schedule whereby after five years of service, participants become 100% vested in their accrued benefit.

Years of Service	Vested Percentage
Less than 5	0%
5 or more	100%

Benefit Payments – Benefit payments to participants are recorded upon distribution.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as held at year-end.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan, which are insured by the Pension Benefit Guaranty Corporation (PBGC), will be allocated, as prescribed by ERISA and its related regulations. Upon termination, each participant's interest shall be come fully vested and non-forfeitable. Benefits would be paid to each participant, retired participant and each beneficiary of a deceased participant. Any remaining funds after distributions would revert to the Company net of any taxes.

Administrative Costs – Personnel and facilities of the Plan sponsor have been used by the Plan for its administrative activities at no cost to the Plan. Additional administrative costs have been incurred by the Plan for other administrative activities performed by the Plan's third party administrator.

Actuarial Present Value of Accumulated Plan Benefits – Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable to services rendered by employees. Accumulated plan benefits include benefits expected to be paid to a) retired, disabled or terminated employees or their beneficiaries; b) beneficiaries of employees who have died; and c) present employees or beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary. This amount is the result from applying actuarial assumptions to the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of April 1, 2012 were:

1.	Funding Valuation Interest Rates	
	Funding Target Liability	April 2012 Segment Rates
	Effective Interest Rate	7.06%
	PBGC Funding Target	April 2012 Segment Rates
2.	Expected Return on Assets	8.00%, compounded annually, capped at the third segment rate for Funding Target Liability purposes.
3.	Accounting Rates	
	ASC 960 Liabilities	8.00%, compounded annually
4.	Mortality (Funding and Accounting)	The RP-2000 Mortality Table with separate rates for males and females and for annuitants and non-annuitants, as prescribed by the IRS, with fully generational mortality improvements projected with Scale AA to each future payment date.

5.	Retirement	Later of age 65 or attained age on the valuation date.
6.	Covered Compensation National Average Earnings	4.00%
7.	Changes Since Prior Valuation	The funding valuation and PBGC interest rates have been updated to the April 2012 segment rates. The prior funding valuation and PBGC Interest rates were based on the April 2011 segment rates.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Funding Policy – Contributions from the Company are actuarially determined by the Plan's actuary to cover the Plan's normal cost and prior service costs. On April 1, 2012 and 2011, the Plan was over-funded and was within the funding requirements of ERISA. Therefore, there were no Company contributions required for the years ended March 31, 2013 and 2012.

Risks and Uncertainties – The Plan invests in securities with contractual cash flows, such as asset backed securities and collateralized mortgage obligations. The value, liquidity and related income of these securities are sensitive to changes in economic conditions including real estate value, delinquencies and defaults, and may adversely be affected by shifts in the market's perception of the issuers and changes in interest rates. The Plan provides for various investment options in common stock, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of the investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

The Plan, through its investment advisor, monitors the Plan's investment and the risks associated therewith on a regular basis which the Plan believes minimizes these risks.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Subsequent Events – The Plan has evaluated subsequent events through November 30, 2013, the date the financial statements were available to be issued.

NOTE 3 – PROFIT-SHARING PLAN ROLLOVER

Net assets of a terminated profit-sharing plan were merged into the pension plan on April 1, 1984. The profit-sharing plan rollover represents a reduction in total net assets to the participants resulting from the terminated profit-sharing plan. The earnings on the net assets of the terminated profit-sharing plan are segregated from the net assets available for other pension plan benefits.

NOTE 4 – INVESTMENTS

Investments that represent five percent (5%) or more of the Plan's net assets at March 31, are as follows:

	2013	2012
Corporate Bonds		
Citizens Utilities Co. 7.875% due 2027	$ 995,400	$ 904,293
Bank America Corporation 6.55% due 2027	-	677,278
New Jersey Bell Telephone Corporation 7.85% due 2029	747,289	689,081
Mutual and Exchange Traded Funds		
Powershares QQQ	1,178,559	1,085,393
Vanguard Emerging Markets - ETF - VWO	776,013	776,507

NOTE 5 – FAIR VALUE MEASUREMENTS

ASC 820, "Fair Value Measurements and Disclosures," establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2013 and 2012.

Debt Instruments – Debt instruments which include corporate bonds, municipal bonds, and government securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bonds are valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Mutual and exchange traded funds – Valued at the net asset value ("NAV") of mutual fund shares held by the plan at year-end and day end values of exchange traded funds based on quoted market prices.

Equity Securities – Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2013.

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined and informed the Plan Sponsor, by a letter dated February 16, 1996, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. If the Plan were to incur an income tax liability in the future, interest and penalties would be reported as income taxes. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Assumed rates of retirement are as follows:

Age	Annual Rate
65 – 66	40 %
67 – 69	15
70 – 74	25
75 & Over	100

The weight applied at each potential retirement age are as follows:

Age	Weight
65	40.00 %
66	24.00
67	5.40
68	4.59
69	3.90
70	5.53
71	4.15
72	3.11
73	2.33
74	1.75
75	5.25

The weighted average retirement age was calculated by multiplying each potential retirement age by the probability of retirement at that age. The probability of retirement at each potential retirement age was calculated by multiplying the assumed rate of retirement by the probability of survival to that age (where retirement is the only decrement considered).

Schedule SB, Part V, Statement of Actuarial Assumptions/Methods – Page 1 of 4

I. SUMMARY OF ACTUARIAL METHODS

A. Calculation of Funding Liabilities and Costs

Liabilities and contributions shown in this report are calculated using the unit credit actuarial cost method, as prescribed under Internal Revenue Code §430 and ASC 960.

The objective under this method is to fund each participant's benefits under the Plan as they accrue. An individual's funding target liability is the actuarial present value of the accrued benefits as of the valuation date determined by applying rates from the mortality table and the yield curve of high quality corporate bond rates prescribed by the IRS. The Plan's funding target liability is the sum of the funding target liabilities for all participants in the Plan. Plan administrative expenses (paid out of pension assets), if any, are to be included in the normal cost for the year, as required by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA).

In the first year in which the adjusted plan assets (actuarial value of assets, reduced by any retained credit balances), is less than the funding target, a shortfall amortization base must be established. This base is amortized over a 7-year period using the 1st and 2nd funding segment interest rates from the prescribed corporate bond yield curve. New shortfall amortization bases are established each year based on the Plan's funded status each year, and all bases are maintained until either fully amortized or until the adjusted Plan assets exceed the funding target.

B. Description of Asset Valuation Method

The actuarial value of assets is the market value of assets.

C. Changes Since the Prior Actuarial Valuation

None.

II. SUMMARY OF ACTUARIAL ASSUMPTIONS

A. ACTUARIAL ASSUMPTIONS

1. Funding Valuation Interest Rates

Applicable Month	April
Funding Target Liability (MAP-21 rates)	
- First Segment Rate	5.54% (not used in 2011)
- Second Segment Rate	6.85% (not used in 2011)
- Third Segment Rate	7.52% (not used in 2011)
Effective Interest Rate	7.06% (not used in 2011)
Funding Target Liability (without MAP-21 rates)	
- First Segment Rate	1.90% (2.51% used in 2011)
- Second Segment Rate	4.90% (5.59% used in 2011)
- Third Segment Rate	6.01% (6.38% used in 2011)
Effective Interest Rate	5.30% (5.81% used in 2011)
PBGC Funding Target	April 2012 Segment Rates without MAP-21

2. Expected Return on Assets — 8.00%, compounded annually, capped at the third segment rate for Funding Target Liability purposes.

3. Accounting Rates
   ASC 960 Liabilities — 8.00%, compounded annually

4. Mortality (Funding and Accounting) — The RP-2000 Mortality Table with separate rates for males and females and for annuitants and non-annuitants, as prescribed by the IRS, with fully generational mortality improvements projected with Scale AA to each future payment date.

5. Percentage Married — 80%. Wives are assumed to be 3 years younger than their husbands.

    a. National Average Earnings 4.00%

Schedule SB, Part V, Statement of Actuarial Assumptions/Methods – Page 4 of 4

11.	Expected Plan Administrative Expenses	Expected plan administrative expenses for the current plan year are assumed to be equal to the average of the annual administrative expenses during the previous three (3) plan years.
12.	Changes Since Prior Valuation	The funding valuation and PBGC interest rates have been updated to the April 2012 segment rates. The prior funding valuation and PBGC interest rates were based on the April 2011 segment rates.

Schedule SB, Part V, Statement of Plan Provisions – Page 1 of 3

I. SUMMARY OF PRINCIPAL PLAN PROVISIONS

A. Effective Date

October 23, 1972. Amended and restated effective September 4, 2007. Most recently amended effective April 1, 2012.

B. Eligibility Requirements

All employees were eligible to participate on the first day of the plan year coincident with or next following the completion of 1 year of service and attainment of age 21. All employees who first perform an hour of service, either for the first time or following a previous severance from employment, on or after April 1, 2009 are not eligible to participate in the plan.

C. Credited Service

Service will be credited for benefit accrual purposes for each plan year in which 1,000 hours of service are earned. Hours of service will be earned based on actual hours for which an employee is paid or entitled to payment.

D. Vesting Service

Vesting service is the number of plan years in which a participant accrued 1,000 or more vesting service hours.

E. Average Monthly Compensation (AMC)

The participant's average monthly rate of compensation during the highest five consecutive plan years of service. In computing AMC, all cash paid in form of salary, wages, commissions and bonus, etc. is considered.

F. Normal Retirement Date

The first day of the month coincident with or next following the date on which the participant attains age 65 and completes five (5) years of participation.

G. Amount of Normal Retirement Income

The normal retirement income, payable monthly for the lifetime of the participant, to a participant who retires on his normal retirement date, will be the sum of the following:

1. 1.2% of AMC multiplied by the employee's years of participation, up to fifteen (15) years, at his retirement date,

2. 1.6% of AMC, multiplied by the employee's years of participation, in excess of fifteen (15) years but limited to 20 years, at his retirement date and
3. 0.65% of AMC in excess of the integration level multiplied by the employee's years of participation, maximum 35 years, at his retirement date.

No more than 35 years of participation will be used in this calculation. The participant's integration level equals the current plan year covered compensation table.

H. Late Retirement

If a participant continues in active service beyond normal retirement date, they will receive a benefit equal to the greater of:

1. Accrued benefit based upon years of participation and AMC as of late retirement date.
2. Normal retirement benefit actuarially increased to late retirement date.

I. Vested Benefits on Termination of Service

A participant shall be vested in their accrued benefit in accordance with the vesting schedule set forth below:

Years of Vesting Service	Vesting Percentage
Less than 5	0%
5 or more	100%

J. Accrued Benefit

If a participant terminates employment prior to their normal retirement date the accrued benefit will be calculated in the same manner as the normal retirement benefit however the accrued benefit will be based upon years of participation and the AMC as of the date of termination. The accrued benefit will not be less than the accrued benefit as of September 30, 2007 under the prior formula.

K. Disability Benefits

A participant who becomes totally and permanently disabled prior to normal retirement date will be entitled to receive a monthly disability retirement income in the amount of the actuarial equivalent of the participant's accrued benefit as of date of disability.

L. Normal Form of Retirement Income

The normal form of retirement income is monthly payments beginning with the participant's date of normal or late retirement, with final payment due in the month in which death occurs.

M. Optional Forms of Retirement Income

The following optional forms of retirement income may be elected by a participant:

Option 1 — Reduced income payable to the participant for either five (5) or ten (10) years certain and lifetime thereafter.

Option 2 — Modified income payable during the lifetime of the participant with 50%, 75% or 100% of such amount payable during the remaining lifetime, if any, of the participant's designated beneficiary following date of death.

N. Changes From Previous Report

None affecting calculations.

II. SUMMARY OF VALUATION DATA

1. Participant Data: The primary source of participant data for the current valuation is a census of all participants as of April 1, 2012 which was provided by the Company.

   Current and prior participant data, upon review, appeared reasonable and consistent.

2. Asset Data: The asset value as of March 31, 2012 was reported by the Company. The assets have been reviewed for reasonableness and are assumed to be appropriate for valuation purposes.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
