NOTES TO FINANCIAL STATEMENTS

FOR THE PERIOD JANUARY 1, 2013 THROUGH MARCH 31, 2013 AND THE YEAR ENDED DECEMBER 31, 2012

1. DESCRIPTION OF PLAN

The following description of the Dynegy Northeast Generation, Inc. Savings Incentive Plan (the "Plan") provides only general information. Participants should refer to the Plan documents, which are the governing documents, for a more complete description of the Plan's provisions.

General

The Plan is sponsored and maintained by Dynegy Inc., a Delaware corporation, (the "Company") for the exclusive benefit of certain eligible employees of Dynegy Northeast Generation, Inc. ("DNE" or the "Employer"). It qualifies under Section 401(a) of the Internal Revenue Code of 1986, as amended (the "Code") and is a trusteed, defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan's trustee is Vanguard Fiduciary Trust Company ("Vanguard" or the "Trustee"). The Dynegy Inc. Benefit Plans Committee serves as the "Plan Administrator" for the Plan.

All employees of the Employer are eligible to participate in the Plan except (a) employees covered by a collective bargaining agreement (unless such agreement provides for coverage under the Plan), (b) leased employees, independent contractors or individuals who are designated, compensated or otherwise classified by the Employer as independent contractors, leased employees or other non-common law employees, and (c) nonresident aliens. Additionally, effective April 3, 2008, individuals hired by the Employer on or after April 3, 2008 and who are covered by that certain Memorandum of Agreement between Dynegy Northeast Generation, Inc. and Local Union 320 of the International Brotherhood of Electrical Workers, dated March 26, 2008, as ratified on April 3, 2008, are *not* eligible to participate in the Plan. Each employee (not otherwise excluded from participation as described in this paragraph) becomes eligible to participate in the Plan as soon as administratively feasible following his or her date of hire. Notwithstanding the foregoing, effective January 1, 2009, the Plan was amended to freeze participation such that all individuals hired (or rehired) on or after January 1, 2009 are not eligible to participate in the Plan.

Effective January 1, 2012, the Plan was amended to provide that non-collectively bargained employees would no longer be eligible to make contributions to the Plan.

Effective April 12, 2012, the accounts for all non-collectively bargained participants were transferred to the Dynegy Midwest Generation, Inc. 401(k) Savings Plan (which was subsequently renamed the Dynegy 401(k) Plan). The transfer amounting to $7,931,037 is presented as Plan-to-Plan Transfers in the Statement of Changes in Net Assets Available for Benefits.

On December 1, 2012, DNE unilaterally implemented amendments to its 2008 Collective

Bargaining Agreement with the International Brotherhood of Electrical Workers Local 320, which were subsequently ratified by the DNE represented employees December 16, 2012 and executed as a Memorandum of Understanding on April 1, 2013. Under the agreement, DNE's represented employees receive a matching contribution each pay period to the Plan equal to 100% of the participant's before-tax contributions (including any catch-up contributions and Roth contributions) that are not in excess of 5% of the participant's "Compensation" (as defined in the Plan) for such pay period effective January 1, 2013. In addition, the Plan was merged with the Dynegy 401(k) Plan as of March 7, 2013, resulting in the transfer of net assets amounting to $12,663,675 from the plan.

Contributions

Participants may make before-tax contributions, including catch-up contributions (if age 50 or older before the close of the particular Plan year), in 1% increments of their "Compensation" (as defined by the Plan) up to the IRS limit. Further, participants may make after-tax contributions of 1%-5% of their Compensation. A participant may "roll-over" into the Plan amounts distributed from another eligible retirement plan. Additionally, effective as of January 1, 2009, participants may elect to have some or all of their before-tax contributions contributed to the Plan as after-tax Roth contributions up to the legal dollar limit. Total contributions are limited to the extent required by law.

The Employer contributes to the Plan matching contributions on behalf of each non-union participant at a rate of 50% of such participant's before-tax contributions up to 8% of such participant's "Compensation" (as defined by the Plan) per payroll period. The Employer contributes to the Plan matching contributions on behalf of each union participant at a rate of 36% of such participant's before-tax contributions up to 6% of such participant's Compensation per payroll period. Effective May 4, 2008, the Employer matching contribution made on behalf of union participants changed to a rate of 50% of such a participant's before-tax contributions up to 6% of such participant's Compensation per payroll period. Note that Roth contributions are not eligible to be matched. In addition, the Employer may make contributions in order to meet nondiscrimination requirements as prescribed in the Plan document.

Investment of Funds

The Plan offers a variety of investment options (which, prior to January 1, 2012, includes, but is not limited to, the Dynegy Stock Fund). Each participant has the right upon enrollment to select the investment fund(s) into which the balance in the participant's account will be invested and may change the allocation of contributions made to the selected funds or transfer amounts among investment funds anytime during the Plan year, in accordance with the procedures established by the Plan Administrator. If a participant does not make investment elections, the contributions will be invested in the default investment fund selected by the Plan Administrator for the Plan.

Effective March 13, 2012, Fiduciary Counselors, the Independent Fiduciary for the Dynegy Stock Fund, exercised its discretionary authority to (i) eliminate the Dynegy Stock Fund as an investment election under the Plan's terms on a prospective basis, and (ii) sell all shares of Dynegy common stock held by the Plan in transactions on March 14, 2012 and March 15, 2012. The Independent Fiduciary permitted participants to direct the investment of amounts previously invested in the Dynegy Stock Fund into other investment options provided under the Plan's terms. To the extent a participant did not provide an investment direction for amounts previously invested in the Dynegy Stock Fund, the Independent Fiduciary directed that such amounts would be invested in the applicable Vanguard Target Date Fund for such participant.

Participant Accounts

Each participant's accounts are credited with the participant's contributions, allocations of Employer matching contributions and Plan earnings or losses. Certain administrative expenses may also be deducted from participant's accounts (for example, a loan administrative fee is charged each year to the accounts of participant's with outstanding loans). The benefit to which a participant is entitled is the balance of the participant's accounts.

Vesting

Participants have an immediate 100% vested and nonforfeitable interest in their contributions and Employer contributions and actual earnings thereon.

Loans to Participants

The Plan allows participants to borrow from their Plan accounts an amount not to exceed the lesser of $50,000 (reduced by the excess of the highest outstanding balance of loans during the one-year period before the date the loan is made over the outstanding balance of loans on the date the loan is made) or 50% of the vested account balance (other than the portion of such account balance that is invested under the directed brokerage investment fund option). Interest is charged on these loans at a rate commensurate with interest rates charged by financial institutions in the business of lending money for similar type loans. A loan may not be made in an amount less than $500. Additionally, no participant may have more than three outstanding loans at any given time, and only one of those loans may be used to acquire any house that within a reasonable period of time is to be used as a primary residence. Loans must be repaid within a certain period of time as specified in the Plan's Loan Procedure. Loan repayments are made by payroll deductions authorized by the participant while the participant remains employed by the Employer or an affiliate. After termination of employment and before receiving a distribution from the Plan, a participant may continue to make loan payments directly to the Trustee. Principal and interest paid on the loan is credited to the participant's account.

Payment of Benefits

Participants (or their beneficiaries as applicable) may elect to receive the vested interest in their accounts upon termination of employment (including as a result of normal retirement), total and permanent disability or death. All distributions are made in one lump sum in the form of cash, except that a participant may elect to have the portion of his or her account invested in the Dynegy Stock Fund distributed in shares of Company common stock (prior to January 1, 2012). Generally, a participant can defer the receipt of his or her distribution until April 1 of the calendar year following the later of the calendar year in which he or she reaches age 70½ or the calendar year in which he or she terminates employment. However, an automatic lump sum distribution may be made upon termination of employment if the participant's aggregate account balance is not in excess of $1,000 (or as of January 1, 2011, $5,000). Note that the Plan also permits a variety of in-service withdrawals allowing participants to withdraw certain amounts from the Plan while working, as described in more detail in the Plan documents.

Effective January 1, 2012, the Plan was amended to permit Participants who hold investments in a self-directed brokerage account to make in-kind distributions of their account balances to an individual retirement account sponsored by Vanguard Fiduciary Trust Company.

Forfeitures

In the event a participant's before-tax contributions exceed Plan and/or IRS limits, such excess contributions are distributed and any related Employer matching contributions are forfeited. Further, each participant is responsible for supplying the Company with a current address. In the case of a benefit payable on behalf of a participant, if the Plan Administrator is unable to locate the participant or beneficiary to whom such benefit is payable, upon the Plan Administrator's determination thereof, such benefit shall be deemed a forfeiture. Forfeitures are used to reduce Employer matching contributions and/or to pay Plan administrative expenses.

The balance of forfeitures held by the Plan as of March 31, 2013 and December 31, 2012 was $-0- and $732, respectively.

Plan Termination

Subject to certain limitations, the right to amend, modify or terminate the Plan is reserved by the Company. In the event the Plan is terminated, the assets of the trust fund will be liquidated and each participant will be entitled to receive the entire amount of his or her account.

Plan Management Review

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after March 31, 2013, and through January 13, 2014, the

date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on an accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("US GAAP").

Investments

The Plan's investments are held in the Dynegy Inc. Master Trust (the "Master Trust") and are stated at fair value based on the latest quoted market values of the underlying securities. Securities for which no quoted market value is available are evaluated and valued by Plan management with reference to the underlying investments, assumptions and methodologies used in arriving at fair value in accordance with Financial Accounting Standards Board ("FASB") guidelines (Note 7). Investments and income there from are allocated to the individual plans based on each participant's account balance within each investment fund option. At March 31, 2013 and December 31, 2012, the Plan's interest in the Master Trust was approximately -0-% and 4.6%, respectively.

Benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan corresponding to the fully benefit-responsive investment contracts because it represents the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if material (Note 5). The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date-basis.

Notes Receivable from Participants

Participant loans (presented as Notes Receivable from Participants) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Income

Net appreciation (depreciation) of investments is comprised of realized and unrealized gains and losses. Realized gains or losses represent the difference between proceeds received upon

sale and the average cost of the investment. Unrealized gain or loss is the difference between market value and cost of investments retained in the Plan (at financial statement date).

Investment income from the Plan's investment in the Master Trust consists of the Plan's proportionate share of the Master Trust's interest and dividend income and investment income from net appreciation (depreciation) in fair value of investments.

The Trustee records dividend income as of the ex-dividend date and accrues interest income as earned.

Expenses

Certain expenses incurred in the administration of the Plan and the related trusts are paid by the Employer. These expenses include fees and expenses of the consultants, auditors, and legal personnel.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates.

Distribution of Benefits

Distributions of benefits are recorded when paid.

Risks and Uncertainties

The Plan provides for several investment options, which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available For Benefits and the Statement of Changes In Net Assets Available For Benefits.

3. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 30, 2010, that the Plan and related trust are designed in accordance with the applicable sections of the Code. The Plan has been amended by subsequent amendments not covered by the determination letter; the determination letter does not cover those amendments,

other than those amendments required by the IRS in connection with its determination of the Plan's qualified status. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan management believes it is no longer subject to income tax examinations for years prior to 2009.

4. INVESTMENTS

Plan investments are received, invested and held by the Trustee. Individual investments that represent 5 percent or more of the Plan's net assets available for benefits include:

	March 31, 2013	December 31, 2012
Investments at fair value as determined by quoted market price		
PIMCO Total Return Institutional Class	$ -	$ 1,185,969
Vanguard Capital Opportunity	-	986,460
Vanguard Global Equity	-	909,151
Vanguard Growth Equity	-	965,189
Vanguard Target Retirement 2015	-	717,358
Vanguard Total Stock Market Index	-	1,473,770
Investment at contract value		
Vanguard Retirement Savings Trust	-	2,560,807
Other investments – less than 5% of net assets	-	3,900,105
Total investments	$ -	$ 12,698,809

For the period ended March 31, 2013, Plan interest in net income of Dynegy Inc. Master Trust was $578,389 and interest on notes receivable from participants was $4,118.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Master Trust has an interest in a collective investment trust that invests primarily in a pool of investment contracts issued by insurance companies and commercial banks and in contracts that are backed by high quality bonds, bond trusts and bond mutual funds that are selected by the Trustee.

As described in Note 2 above, because these contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fully benefit-responsive investment contracts. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Occurrence of certain events may limit the ability of the Plan to transact at contract value with the issuer. The Employer does not believe that the occurrence of such an event is probable.

The average yield earned by the collective investment trust for the year ended December 31, 2012 was 2.22% and the average yield earned to reflect the actual interest rate credited to participants for the year ended December 31, 2012 was 1.82%. No information was available regarding average yield for the period January 1, 2013 through March 31, 2013.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. As of December 31, 2012, the contract value of the Plan's interest in the collective investment trust was $2,560,807 as compared to its fair value of $2,696,558. An adjustment of $135,751 has been made to the Statement of Net Assets Available for Benefits to reflect contract value.

6. PARTICIPATION IN MASTER TRUST

The Plan's investments are held in the Master Trust with assets of other qualified retirement plans sponsored by the Company.

7. FAIR VALUE MEASUREMENTS

The FASB establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Unobservable inputs, including valuations based on pricing models, discounted cash flow methodologies or similar techniques where at least one significant model assumption or inputs is unobservable. Unobservable inputs are used to the extent that observable inputs are not available and reflect the Plan's own assumptions about the assumptions the market participants would use in pricing the assets or liabilities. Unobservable inputs are based on the best information available in the circumstances, which might include the Plan's own data.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2013 and December 31, 2012.

Collective investment trust: Valued at the underlying unit values reported using audited financial statements of the collective trust and changes in such amounts through the Master Trust's year end.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Employer stock funds: Valued at the underlying unit values calculated based on the closing price reported on the active market on which the underlying employer securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of units held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2012:

	Assets at Fair Value as of December 31, 2012

8. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the Trustee as defined by the Plan and, therefore, these qualify as party-in-interest transactions. Further, Vanguard Advisers, Inc. (a subsidiary of The Vanguard Group, Inc., which provides recordkeeping and certain administrative services for the Plan) offers certain investment advisory programs for Plan participants; however, the provision of these programs is not a prohibited transaction under ERISA. Fees paid during the year for legal, accounting, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.
