(1) Description of Plan

The following description of the Pacific Coast Building Products, Inc. Profit Sharing/Retirement Plan and Trust (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is sponsored by Pacific Coast Building Products, Inc. (Employer) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a defined contribution plan which provides for retirement, disability and death benefits for substantially all nonunion employees of the Employer. Employees, other than certain employees hired as a result of an asset acquisition, who have worked 1,000 hours or more within a consecutive twelve month period commencing on their anniversary hiring date, are eligible to participate in the Plan.

(b) Contributions

The Employer has agreed to make a minimum annual contribution equal to 5% of the eligible compensation as defined in the Plan document of all participants. Plan assets are invested at the direction of the Plan Investment Committee and are thus not participant directed.

(c) Participant Accounts

Individual accounts are maintained for each of the Plan's participants as well as the participant's share of the Plan's income (loss) and any related administrative expenses. Allocations are based on participant compensation or account balances, as defined. Participants under the age of 60 may elect to have the Plan purchase life insurance policies for the participant's benefit. Life insurance policies purchased are held by the Plan and the increase in the cash surrender value of the policies and the premium expenses are allocated to the participating participant accounts.

(d) Vesting and Forfeitures

A participant is 100% vested after three years of credited service or upon death, total disability or attainment of normal retirement age, as defined. Forfeitures of terminated participants' nonvested amounts are used to offset employer contributions. There were $197,000 of forfeitures for the year ended March 31, 2013. The full amount of available forfeitures was used to reduce the Employer's contribution. There were $0 and $1,000 of unallocated forfeitures as of March 31, 2013 and 2012, respectively.

(e) Distributions to Participants

The benefit to which a participant is entitled is the participant's account valued as of the date of distribution. Upon retirement, as defined, or total and permanent disability, a participant may generally elect to receive a lump sum distribution, an annuity, or a combination of these options. In the event of a participant's death, his or her designated beneficiary will be paid in accordance with the terms of the beneficiary designation form.

(f) Plan Administration

The Plan is administered by the Administrative Committee and each member of this Committee was appointed by the Board of Directors of the Employer.

(g) Plan Amendments

Effective April 1, 2012, the plan was amended and restated to allow partial distributions required for minimum distributions.

Effective March 31, 2013, the Plan was amended and restated to allow for the merger of the Pacific Coast Building Products, Inc. Collectively Bargained Pension Plan and Trust Agreement for PABCO Gypsum – Newark and the Pacific Coast Building Products, Inc. Pension Plan and Trust Agreement for Hourly Employees at Pacific Coast Supply – Santa Rosa into the Plan.

(2) Significant Accounting Policies

(a) Method of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

(c) Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(d) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for its investments in life insurance policies. Money market funds, bonds, notes and equity securities are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds and real estate investment trusts are valued at the net asset value (NAV) of shares held by the Plan at year end. Life insurance policies are valued at cash surrender value (CSV).

Purchases and sales of investments are reported on a trade date basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold, as well as held during the year. Interest income is recognized on the accrual basis.

(e) Fair Value Hierarchy

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10, *Fair Value Measurement* provides guidance for measuring the fair value of assets and liabilities. The objective of a fair value measurement is to determine the price that would be received when selling an asset or paid when transferring a liability. The guidance outlines a fair value hierarchy that gives

the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3 - Prices or valuations that require inputs that are both significant to their fair value measurement and unobservable.

(f) Benefits

Benefits paid to participants are recorded as deductions from net assets available for benefits when approved and paid by the Plan.

(g) Administrative Expenses

Administrative expenses incurred by the Plan are allocated to each participant account based on participant account balances.

(h) Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*. The ASU clarified the application of certain existing fair value measurement guidance and expands the disclosure requirements for fair value measurements that are estimated using significant unobservable (Level 3) inputs and for assets and liabilities disclosed but not recorded at fair value. This ASU is effective for the Plan for the year ended March 31, 2013. The adoption of this standard did not have a material impact on the Plan's financial statements.

(i) Date of Evaluation – Subsequent Events

Management has evaluated subsequent events through January 9, 2014, the date on which the financial statements were available to be issued. No subsequent events requiring disclosure existed as of this date.

(4) Related Party Transactions

Certain Plan investments in money market funds are managed by Wells Fargo, who is a custodian as defined by the Plan. These transactions are party-in-interest transactions.

(5) Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue employer contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(6) Income Tax Status

The Internal Revenue Service issued its latest determination letter in May of 2012 which stated that the Plan and its underlying trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, management believes that the Plan's current design and operation is in compliance with the applicable requirements of the Internal Revenue Code and ERISA, and the trust which forms a part of the Plan, is exempt from income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2009.
