Topco Associates LLC 401(k) Plan
Elk Grove, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of Topco Associates LLC 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of March 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended March 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of March 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended March 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Member of the RSM International network of independent accounting, tax and consulting firms.

Other Matter - Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of delinquent participant contributions for the year ended March 31, 2013 and schedule of asset (held at end of year) as of March 31, 2013 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Plan Description

The following description of Topco Associates LLC 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Topco Associates LLC and TopSource LLC (together, the Company). Employees are eligible to participate on the first day of employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Under the 401(k) provisions of the Plan, participants may contribute up to 60 percent of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. For participants hired prior to January 1, 2010, the Company makes matching contributions of 33-1/3 percent of each eligible participant's pre-tax contributions and matching contributions on participant's deferrals shall not be in excess of 3 percent of his or her compensation. For participants hired on or after January 1, 2010, the Company makes matching contributions of 100 percent of each eligible participant's pre-tax contributions and matching contributions on participant's deferrals shall not be in excess of 2 percent of his or her compensation. The Company may also make an additional discretionary Matching Company Contribution and Company Non-Elective Contributions as declared by the Board of Directors. Discretionary Company contributions for the year ended March 31, 2013 amounted to $640,750. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching contributions, allocations of plan earnings, discretionary Company contributions and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions and earnings thereon for those participants that were hired prior to January 1, 2010. Participants with a hire date after January 1, 2010, vest in the Company Matching Contributions and Company Non-Elective Contributions and any earnings thereon based on years of continuous service. A participant is 100 percent vested after 6 years of credited service.

Forfeitures: At March 31, 2013 and 2012, forfeited nonvested accounts totaled $25,662 and $6,661, respectively. These accounts are used to reduce future Company contributions or pay Plan expenses. During the year ended March 31, 2013, $8,722 and $32,535 were used to reduce Company contributions and pay Plan expenses, respectively.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. The loan repayment period is not to exceed five years except for the purchase of a principal residence, for which the loan repayment period may not exceed ten years. The loans are collateralized by the balance in the participant's account and bear an interest rate of 1 percent over the Prime Rate published in the Wall Street Journal on the first business day of the month before the loan is originated. The interest rate is fixed for the life of the loan. The interest rates on loans currently outstanding ranged from 4.25 to 6.5 percent. Principal and interest are paid ratably through payroll deductions.

Note 1. Plan Description (Continued)

Payment of benefits: On termination of service, a participant's vested accrued benefit shall be paid in the form of a lump sum or installment payments.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract-value basis for fully benefit-responsive investment contracts.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standards Board (FASB) issued *ASU 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements*. This Update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management has determined that there was no effect from the provisions of ASU 2011-04 on the Plan's financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2013:

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 3. Fair Value Measurements (Continued)

Units of common/collective fund: Valued based on the NAV of units of the common/collective fund. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2013 and 2012:

	2013

Note 3. Fair Value Measurements (Continued)

The following table summarizes investments measured at fair value based on NAV per unit as of March 31, 2013 and 2012:

Investment	2013	2012	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Wells Fargo Stable Return Fund C (a)	$ 2,242,850	$ 2,512,723	$ -	Daily	12 months

a) This category includes U.S. government and government agency obligations, asset-backed securities, mortgage securities, nonconvertible bonds and cash equivalents. Investments in this category can be redeemed immediately at the participant level and in 12 months at the plan level at the current NAV per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the NAV per share of the investments.

Changes in Fair Value Levels

To assess the appropriate classification of investments with the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended March 31, 2013, there were no transfers in or out of Level 3.

Note 4. Investments

The following table presents the fair value of investments representing 5 percent or more of the Plan's net assets as of March 31, 2013 and 2012:

	2013	2012
Shares of registered investment companies:		
Vanguard Fiduciary Trust Company Index Trust 500 Portfolio Fund	$ 6,933,723	$ 6,573,716

Units of common/collective fund:		
Wells Fargo Stable Return Fund C	2,242,850	2,512,723

* Less than 5 percent of net assets.

Note 4. Investments (Continued)

Contract value of the Wells Fargo Stable Return Fund C was $2,186,014 and $2,451,437 at March 31, 2013 and 2012, respectively. During the Plan year ended March 31, 2013, the Plan's investments in shares of registered investment companies and units of common/collective fund (including investments bought, sold and held during the year) appreciated in value by $1,858,462 and $38,136, respectively.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 6. Related Party Transactions

Putnam Investor Services, Inc., an affiliate of Putnam Fiduciary Trust Company, the Plan trustee, provides recordkeeping services to the Plan. These transactions qualify as party-in-interest. Fees for these services paid by the Plan were $33,860 for the year ended March 31, 2013.

Certain administrative expenses are being paid by the Company. Certain employees of the Company are performing services for the Plan and are not compensated by the Plan.

Note 7. Tax Status

Effective April 1, 2011, the Plan adopted a non-standardized prototype plan sponsored by Orchard Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service (IRS) as to the prototype's qualified status. The Company has relied on the prototype opinion letter. The Company believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at March 31:

	2013	2012
Net assets available for benefits per the financial statements	$ 31,427,613	$ 28,244,971
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	56,836	61,286
Net assets available for benefits per the Form 5500	$ 31,484,449	$ 28,306,257

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended March 31:

	2013
Increase in net assets available for benefits per the financial statements	$ 3,182,642
Investment income	(4,450)
Increase in net assets available for benefits per the Form 5500	$ 3,178,192

Note 10. Late Deposits

During the Plan year ended March 31, 2013, the Plan engaged in prohibited transactions related to late deposit of participant contributions amounting to $229.

Lost earnings for the late deposits noted above have been deposited into the Plan in the plan year ending March 31, 2014. The Plan Sponsor has filed the Form 5330 and has paid the excise tax to the IRS. The excise tax payment was made from the Plan Sponsor's assets and not from assets of the Plan.

Note 11. Subsequent Events

Effective April 1, 2013, the Plan was amended such that eligible participants are automatically enrolled in the Plan upon meeting the eligibility requirements. A participant will have 3 percent of compensation automatically deducted and contributed to the Plan, until the participant elects a higher or lower deferral rate. This deferral rate will automatically increase each year until it reaches 6 percent of eligible compensation.

The Company has evaluated subsequent events for potential recognition and/or disclosure through January 14, 2014, the date that the financial statements were available to be issued.
