Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Keihin North America, Inc. Pension Equity Plan, which comprise the statements of net assets available for benefits as of March 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes transactions related to these assets. The Plan Administrator has obtained certifications from the trustee as of and for the years ended March 31, 2013 and 2012, that the information provided to the Plan Administrator by the trustee is complete and accurate to the best of their knowledge.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules listed in the table of contents are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements

March 31, 2013 and 2012

Note 1: Description of the Plan

The following description of the Keihin North America, Inc. Pension Equity Plan (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a noncontributory defined-benefit plan that covers substantially all employees who have one year of service or more and have attained age 21, and provides for retirement, death and disability benefits. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). State Street Bank and Trust Company is the trustee of the Plan.

Transamerica Retirement Solutions (formerly Diversified Investment Advisors) is the recordkeeper of the Plan.

Effective December 5, 2009, benefit accruals under the Plan were frozen and will not increase after this date. Participants may continue to earn years of service for vesting purposes. Effective December 5, 2009, participants are fully vested upon completion of three years of service (formerly five years).

Contributions

The Company has agreed to voluntarily contribute such amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members, as defined by the provisions of ERISA. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Benefits under the Plan are based on employees' three highest, consecutive compensation years during their last five years of credited service. Normal retirement age for Plan benefits is 65. Accrued benefits are payable as an annuity over the participant's lifetime, a qualified joint and survivor annuity or a lump sum payment.

Death Benefits

The spouse of a participant will receive a 100% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 100% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Vesting

Eligible employees are fully vested upon completion of three years of vesting service.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements March 31, 2013 and 2012

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (A) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- (B) Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
- (C) Vested benefits not insured by the PBGC.
- (D) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Method of Accounting

The accompanying financial statements are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements

March 31, 2013 and 2012

Valuation of Investments and Income Recognition

Investments in collective trust funds are stated at fair value. The fair value is determined by utilizing quoted market prices of the underlying assets on the last day of the Plan year.

The guaranteed investment contract is valued at fair value as estimated by Transamerica Financial Life Insurance Company (TFLIC). TFLIC values the investment contract using a pricing matrix that designates a hierarchy of sources based on security type.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a guaranteed investment contract. As required by the FSP, the statements of net assets available for benefits presents the fair value of the guaranteed investment contract as well as the adjustment of the investment from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Employer or the Plan, at the Employer's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 6) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- (A) Retired or terminated employees or their beneficiaries
- (B) Present employees or their beneficiaries

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements March 31, 2013 and 2012

Benefits under the Plan are based on employees' compensation as described in Note 1. The accumulated plan benefits for active employees are based on their average compensation during the three years proceeding the valuation date. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

Benefit payments to participants are reported upon distribution.

Plan Tax Status

The Plan obtained its latest determination letter on September 9, 2003, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended and restated since receiving the determination letter. A new determination letter has been requested for the restated Plan, but has not yet been received. However, the Plan Administrator believes the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2009.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Note 3: Investments

The Plan's investments are held by a trust fund. The Plan's investments (including investments bought, sold and held during the year) appreciated in fair value as follows:

	2013	
	Net Appreciation in Fair Value During Year	Fair Value at End of Year
Collective trust funds	\$ 1,577,223	\$ 16,344,998
Stable Fund	-	1,076,058

Stable Fund	-	1,003,586
	<u>\$ 803,479</u>	<u>\$ 15,998,696</u>

The fair value of individual investments that represented 5% or more of the Plan's assets were as follows:

	2013	2012
Collective Trust Funds		
Massachusetts Fidelity Trust Company		
Core Bond Portfolio	\$ 1,584,697	\$ 1,682,436
High Yield Bond Portfolio	1,507,572	1,296,132

Stock Index Fund	3,291,797	3,100,462
Guaranteed Investment Contracts		
Transamerica Financial Life Insurance Company - Stable	1,076,058	1,003,586

Interest and dividends realized on the Plan's investments for the years ended 2013 and 2012 were \$19,934 and \$24,414, respectively.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements March 31, 2013 and 2012

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at March 31, 2013 and 2012:

		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
		Fair Value		
March 31, 2013				
Core Bond	\$ 1,584,697	\$ -	\$ 1,584,697	\$ -
High Yield Bond	3,313,622	-	3,313,622	-
American Stock	8,951,565	-	8,951,565	-
International Stock	2,495,114	-	2,495,114	-
Stable Fund	1,076,058	-	1,076,058	-
March 31, 2012				
Core Bond	\$ 1,682,436	\$ -	\$ 1,682,436	\$ -
High Yield Bond	2,912,291	-	2,912,291	-
American Stock	8,162,186	-	8,162,186	-
International Stock	2,238,197	-	2,238,197	-
Stable Fund	1,003,586	-	1,003,586	-

The methods of valuation described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements March 31, 2013 and 2012

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended March 31, 2013. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy.

Note 5: Contract With Insurance Company

The Plan entered into an investment contract with Transamerica Financial Life Insurance Company (TFLIC) and TFLIC maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by TFLIC. The contract is subject to a market value adjustment upon termination. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract is carried at fair value. The average yields were approximately 1.90% and 2.46% for 2013 and 2012, respectively. The crediting interest rates ranged from 1.25% to 4.10% at March 31, 2013, and ranged from 2.25% to 4.10% at March 31, 2012. The crediting interest rate is based on an agreed-upon formula with the issuer.

Note 6: Accumulated Plan Benefits

An actuary from Mercer Human Resource Consulting determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements March 31, 2013 and 2012

The accumulated plan benefit information as of the beginning of each Plan year was as follows:

	2013	2012

Changes in the actuarial present value of accumulated plan benefits were as follows:

	2013	2012
Actuarial present value of accumulated plan benefits, beginning balance	<u>\$ 17,804,084</u>	<u>\$ 16,271,837</u>
Increase (decrease) during the year attributable to		
Change in actuarial assumptions interest rate	4,910,319	893,116
Benefits accumulated and (gains) losses	(42,234)	31,539
Increase for interest due to the decrease in the discount period	1,027,139	996,789
Benefits paid	<u>(174,990)</u>	<u>(389,197)</u>
Net increase	<u>5,720,234</u>	<u>1,532,247</u>
Actuarial present value of accumulated plan benefits, ending balance	<u>\$ 23,524,318</u>	<u>\$ 17,804,084</u>

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: 4.40% and 5.80% for 2013 and 2012, respectively
- Mortality basis: RP - 2000 Blue Collar Combined Active/Retiree Healthy Mortality Table projected to 2018
- Retirement: At normal retirement age 65
- Asset valuation: Market

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Financial Statements

March 31, 2013 and 2012

Note 7: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in collective trust funds of the Plan trustee, and fees for trust and management services paid by the Plan to the trustee were \$57,732 and \$53,135 for 2013 and 2012, respectively.

The Company provides certain administrative services at no cost to the Plan.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

Each employee is assumed to retire at his/her normal retirement age. The plan does not permit early retirement. The normal retirement age specified in the plan is age 65. Therefore, the assumed normal retirement age of 65 is used as the weighted average retirement age.

Schedule SB, line 24 — Change in Actuarial Assumptions

- The sponsor's interest rate election was changed from 2011 to 2012 in accordance with the Pension Protection Act and MAP-21.
- The expense component of normal cost increased from \$23,000 to \$24,000 to reflect our expectations for the current plan year.
- The mandated mortality tables were updated from 2011 to 2012, with one additional year of projected mortality improvement, for both expected experience as well as calculating minimum lump sum values.
- A late retirement increase was applied to active participants over age 65.

Schedule SB, line 26 — Schedule of Active Participant Data

|-------------------------------------|---|
| • Healthy and Disabled participants | Section 430(h)(3) prescribed separate static annuitant and non annuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA. |
|-------------------------------------|---|

417(e) lump sums

Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality

For the liability assumed to be paid as a lump sum, a participant's target liability is the greater of the liability described above or the present value of the participant's PEP balance.

Other economic assumptions

- | | |
|------------------------------|---|
| • Salary increases | Not applicable. |
| • Expected investment return | 7.25% per year for years 2012 and 2011 and 8.00% per year for year 2010, not to exceed the third segment rate for each respective year. |
| • Expenses | \$24,000 added to current year normal cost.

Expenses are assumed to be the average of the administrative expenses from the 3 prior years rounded to the nearest \$1,000. |

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Since the plan is frozen, the plan sponsor only provides us with employees who are participants in the plan.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions**

Effective date and plan year	Original plan: April 1, 1999 Restated plan: April 1, 2009 Plan year: April 1 through March 31
Status of the plan	The plan is closed to anyone who was not a Participant on December 5, 2009. Benefit accruals were frozen as of December 5, 2009.
Significant events that occurred during the year	None
Definitions	
• Covered employees	All employees in the Greenfield, Indiana plant.
• Participation	Age 21 and one year of service.
• Employee contributions	Participants are not permitted to make contributions to the Plan.
• Vesting and Credited service	A year of service is defined as a calendar year in which an employee works 1,000 or more hours, including overtime. Credited service was frozen as of December 5, 2009.
• Pensionable earnings	Employee's base hourly rated determined as of the December 31 of each calendar year multiplied by hours worked, including regular and overtime hours, but not to exceed two thousand eighty (2,080) in any calendar year.
• Final average earnings	Highest average annual pay for any 3 consecutive calendar years during the 5 calendar years immediately before participant's retirement or termination from service. Final average earnings were frozen as of December 5, 2009.
• Accrued benefit	Defined as the projected benefit at normal retirement age, using current final average salary, prorated by current service divided by projected service at normal retirement age. The lump sum benefit is converted to an annuity based upon 5% interest and the 1983 Group Annuity Mortality Table (50% male, 50% female). The accrued benefit was frozen as of December 5, 2009.

• Automatic form for married participants	50% Joint and Survivor annuity
• Optional forms	<ul style="list-style-type: none"> • 100% Joint and Survivor annuity • 75% Joint and Survivor annuity • Lump sum
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2012, the limit is \$200,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated through April 1, 2009 and amended through March 21, 2011 are included in this valuation.

- **Late retirement increases:**
 - *Active and Deferred vested participants:* Current active and deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* The plan does not provide any unpredictable contingent event benefits.
 - *Plan amendments:* The plan was amended March 21, 2011 to adopt certain provisions of the Heroes Earnings Assistance and Relief ("HEART") Act of 2008. This amendment has no impact on liabilities.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
