NOTE 1 – DESCRIPTION OF PLAN

The following description of the Galaxy Desserts 401(k) Plan (the Plan) provides only general information. Participants should refer to the adoption agreement and summary plan description for a more complete description of plan provisions.

General – The Plan is a 401(k) profit sharing and safe harbor plan covering all employees of Galaxy Desserts, Inc. (the Company) who have satisfied the eligibility requirements. The Plan is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The Company serves as the Plan's sponsor and administrator.

Eligibility – Employees are eligible to participate in the Plan upon reaching 21 years of age and after completing six months of service. The Plan defines excluded employees as collectively bargained employees, leased employees, summer interns, and non-resident aliens.

Contributions – Participants may elect to defer eligible compensation to the Plan each year, subject to limitations imposed by federal tax law. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company makes safe-harbor matching contributions equal to 100% of the participant's deferral contributions not exceeding 4% of the participant's eligible compensation for the plan year. The Company may also elect to make discretionary non-elective contributions. Non-elective contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' eligible compensation. To receive discretionary non-elective contributions, a participant must be credited with at least 1,000 hours of service during the plan year and be employed on the last day of the plan year. The Company did not make any discretionary non-elective contributions during the plan year ended June 30, 2013.

Participant accounts – Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution, and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in deferrals withheld from their compensation under the salary reduction arrangement and company safe-harbor matching contributions. Vesting in employer discretionary non-elective contributions is based on years of service, as defined, with increases of 20% per year after two years of service until fully vested after six years.

Payment of benefits – Upon retirement, termination of employment, disability, or death, a participant may receive their vested account balance in a lump-sum cash payment, a direct rollover to another qualified plan, or through installment payments.

Forfeitures – Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and are first used to pay plan administrative expenses, with any remaining amount used to reduce future company contributions. As of June 30, 2013 and 2012, there were no forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements are prepared under the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition – The investments are stated at fair value. The Plan's custodian, Great-West Life & Annuity Insurance Company, certifies the contract value of the guaranteed investment contract and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

As of June 30, 2013, the contract value approximated fair market value; therefore, there is no adjustment to contract value shown on the statements of net assets available for benefits.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Distributions to participants are recorded when paid.

Expenses – Administrative expenses, including custodian fees, are paid by the Plan, unless the Company elects to pay. Transaction fees are paid by the Plan.

Subsequent events – The Plan has evaluated subsequent events through December 18, 2013, the date the financial statements were available to be issued.

Recent accounting pronouncements – In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The Plan adopted this effective July 1, 2012.

NOTE 3 – INVESTMENTS

Investments representing 5% or more of net assets available for benefits consist of the following at June 30:

	2013	2012
Vanguard Target Retirement 2040 INV	$ 234,771	N/A
Vanguard 500 Index Signal	179,593	N/A
Vanguard Target Retirement 2020 INV	173,280	N/A

Lifestyle Aggressive Fund	N/A	74,367
Lifestyle Conservative Fund	N/A	72,038
New Insights Fund	N/A	47,149
American Funds Growth Fund	N/A	41,447

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Registered investment companies	$ 63,408
Pooled separate accounts	47,322
Guaranteed investment contract	98
	$ 110,828

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies (mutual funds): Shares of registered investment company funds (or mutual funds) are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed investment contract: The guaranteed investment contract (GIC) is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 9).

Pooled separate accounts: Units held in pooled separate accounts (PSAs) are valued using the net asset value (NAV) of the PSA as reported by the account managers. The NAV is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The NAV of a PSA is calculated based on a compilation of primarily observable market information.

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at June 30:

	2013			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered investment companies				
Fixed income funds	$ 46,152	$ -	$ -	$ 46,152

Guaranteed investment contract	-	14,372	-	14,372
	$ 997,845	$ 14,372	$ -	$ 1,012,217

	2012			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled separate accounts

Other funds	-	66,060	-	66,060
	$ -	$ 752,455	$ -	$ 752,455

NOTE 5 – TAX STATUS

The plan document is a prototype non-standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC).

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 7 – INFORMATION CERTIFIED BY THE CUSTODIANS

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Life & Annuity Insurance Company and John Hancock Life Insurance Company, the custodians of the Plan, have certified to the completeness and accuracy of:

- Participant-directed investments reflected on the accompanying statement of net assets available for benefits as of June 30, 2013 and 2012;
- Net appreciation in fair value of investments, interest and dividends reflected on the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2013; and
- Investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments during the year ended June 30, 2013 included pooled separate accounts managed by John Hancock and Great West. As the custodians of the Plan, transactions with Great-West Life & Annuity Insurance Company and John Hancock Life Insurance Company qualify as exempt party-in-interest transactions.

NOTE 9 – GUARANTEED INVESTMENT CONTRACT WITH NATIONAL INSURANCE COMPANY

In 2013, the plan entered into a benefit-responsive guaranteed investment contract with Great West Life & Annuity Insurance Company (Great West). Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Fair value approximates contract value. Contract value, as reported to the Plan by Great West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2013 was $14,372. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. The actual average yield earned by the fund for 2013 is 1.32%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

NOTE 10 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

NOTE 11 – RECONCILIATION TO FORM 5500
