Note 1. Description of the Plan

The following description of the Shure Associates' 401(k) Savings and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established effective July 1, 1986, and most recently amended on July 30, 2009, maintained for the benefit of eligible associates of Shure Incorporated and its wholly owned domestic subsidiaries (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility: All eligible associates of the Company, defined as employees (other than temporary), are eligible to participate in the Plan and receive an employer safe harbor match immediately upon the date they are hired. Participants who earn at least 1,000 hours during the plan year and are employed on the last day of the plan year are eligible for the employer profit sharing contribution.

Contributions: The Plan is designed as qualified cash deferred arrangement pursuant to Section 401(k) of the Internal Revenue Code (IRC) and provides for contributions, which are to be maintained in separate accounts for each participant, for:

> **Participants' elective deferrals**: To be made by the Company at the direction of the participant in amounts up to 60 percent of the participant's eligible compensation during the plan year, limited to the maximum amount permitted under the IRC. Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions.
>
> **Employer safe harbor matching**: The Company matches a participant's elective deferral at a rate of 100 percent of the first 3 percent and 50 percent of the next 2 percent, limited to 4 percent of the participant's eligible compensation.
>
> **Employer profit sharing**: Profit sharing contributions are made on a discretionary basis by Shure Incorporated and allocated to participants' accounts based upon the eligible compensation of each participant. The profit sharing contribution was $4,252,223 for the year ended June 30, 2013.
>
> **Participant rollover**: The Plan permits participants to contribute balances from other qualified employee benefit plans.

Participant accounts: Each participant's account is credited with the participant's contribution and employer safe-harbor contributions, as well as allocated a portion of employer's profit sharing contributions and the participants' share of the Plan's earnings and expenses. Allocation of earnings to participants' accounts is in proportion to the participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and employer safe harbor matching contributions plus actual earnings thereon. The employer profit sharing contribution portion of their accounts plus actual earnings thereon is 100 percent vested once the employee reaches three years of credited service. All participants become fully vested on normal retirement, death or disability.

Forfeitures: Forfeitures of terminated participants' nonvested account balances may be used to reduce future employer contributions. Forfeitures available as of June 30, 2013 and 2012, were $10,968 and $52, respectively. During the plan year, June 30, 2013, a total of $91,085 of non-vested accounts were forfeited. Forfeitures used in 2013 to reduce employer contributions were $80,828.

Note 1. Description of the Plan (Continued)

Participant-directed investments: The participants may elect the way in which contributions are invested in a variety of investment choices within the Plan as more fully described in the Plan's literature. The investment elections will apply to both participant and employer contributions. Participants may change their investment options at any time. Earnings shall be allocated in the ratio that a participant's account balance invested in a fund bears to the total of all account balances invested in that fund.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their account balance, whichever is less. The notes are secured by the balance in the participant's account and bear interest at a rate of 5.50 percent, which is commensurate with local prevailing rates as determined quarterly by the Plan Administrator. The notes are repaid through payroll deductions over periods ranging from 1 to 5 years, with the exception of home loans, which are repayable over a maximum of 10 years.

Payment of benefits: Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability or severance of employment, such benefits are to be based upon the participant's account balance (or the vested portion thereof, where applicable), to be paid either in cash (in a lump sum) or by other methods more fully described in the Plan's literature.

Participants may make withdrawals from their accounts upon reaching age 59½ or by determination that a financial hardship, as defined, has been incurred.

Administrative expenses: Administrative expenses of the Plan are charged against earnings, except to the extent the expenses are paid by the Company.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan documents.

Payment of benefits: Benefits are recorded when paid.

Note 2. Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Financial instruments: The Company's carrying value of financial instruments, including investments, approximate fair value due to the short maturity of these instruments.

Recent accounting pronouncement: In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements*. This Update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 5 for impact of adoption.

Pending accounting pronouncement: In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this Update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure though January 16, 2014, the date the financial statements were issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset and income information as of June 30, 2013 and 2012, and for the year ended June 30, 2013, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2013	2012
Shares of registered investment companies	$ 93,219,712	$ 72,486,162
Shares of common/collective trust at fair value	11,835,086	11,895,677
Notes receivable from participants	1,938,745	1,669,143
Net appreciation in fair value of registered investment companies	10,919,613	
Dividend income from registered investment companies	2,739,041	
Interest income from common/collective trust	132,977	
Interest income on notes receivable from participants	95,449	

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

The Company assesses the levels of the instruments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Company's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the year ended June 30, 2013, there were no such transfers.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2013 and 2012.

Shares of registered investment companies: Reported at fair value based on the quoted market price of the fund which presents the net asset value (NAV) of shares held by the Plan at year-end.

Shares of common/collective trust: Valued at fair value, which represents the NAV of shares held by the trust at year-end as directed by the custodian.

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of June 30, 2013 and 2012:

	Assets at Fair Value as of June 30, 2013

Note 4. Fair Value Measurements (Continued)

The following table sets forth the fair value of investments in certain funds that calculate net asset value per share (or its equivalent) as of June 30, 2013 and 2012:

Investment	Fair Value at June 30 2013	Fair Value at June 30 2012	Unfunded Commitment	Redemption Frequency	Redemption Notice Period*

*Notice period for plan redemption. Participants may individually redeem their investments without prior notice.

(a) This category includes synthetic investment contracts, traditional investment contracts, fixed income securities, and money market funds. Investments in this category can be redeemed 12 months following advance written notice at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Note 6. Related-Party and Party-in-Interest Transactions

The Plan's investments are shares of registered investment companies and common/collective funds managed and held in trust by Fidelity Management Trust Company which is the custodian as defined by the Plan. Therefore, these investment transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan were $11,414 for the year ended June 30, 2013.

Certain employees of the Company provide administrative and trustee services to the Plan. These employees do not receive compensation from the Plan for their services. Certain other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company's profit sharing contributions.

Note 8. Tax Status

Effective July 30, 2009, the Plan adopted a non-standardized form of a prototype plan sponsored by the Fidelity Management Trust Company. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status dated March 31, 2008. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receipt of the opinion letter. The Company believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9. Risks and Uncertainties

The Plan invests in various investment options. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
