Notes to Financial Statements

Note 1. Description of Plan

The following description of the Yell Adworks Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Also see Note 6 regarding Plan merger and transfer of assets.

General: The Plan is a defined contribution plan adopted February 1, 2001 covering all full time non-union employees of Yell Adworks, a Division of Yellowbook Inc. (Company), whose principal place of employment with the Company is the United States of America. The aforementioned employees are eligible to participate in the salary deferral portion of the Plan on the first day of the month after reaching the age of 18 and completing one month of service with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may defer up to 85% of their compensation and contribute it to the Plan for 2011; however, the total deferrals may not exceed the dollar limit set by law, \$16,500 for 2011. Participants age 50 or older may elect to defer additional amounts (catch-up contributions) to the Plan. The maximum catch-up contribution was \$5,500 in 2011. Participants may also contribute amounts representing distributions from other qualified plans. The Plan was amended on January 1, 2012 and effective on this date the maximum percentage of compensation a participant may elect to defer was changed to 0%.

The Company makes matching contributions equal to 50% of each participant's elective contribution up to 6% of gross compensation. In addition to the match of elective contributions, the Company may also make a discretionary profit sharing contribution. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's elective contribution, the Company match of the elective contribution and an allocation of (a) the Company's discretionary contributions, and (b) Plan investment earnings and charged with distributions and an allocation of Plan investment losses. Allocations are based on employee contributions, employee compensation, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions (including rollover contributions) plus actual earnings thereon. Company matching and discretionary contributions, including earnings thereon, become vested as follows:

Years of Participation in the Plan	Vesting Percentage for Company Contributions
Less than 1 year	0%
At least 1 year but less than 2 years	33%
At least 2 years but less than 3 years	67%
3 or more years	100%

Payment of benefits: In general, participants withdrawing from the Plan may receive their balance in the form of a lump-sum cash distribution or a direct rollover distribution for an amount equal to the value of the participant's vested account.

Forfeitures: Forfeited balances of terminated participants' non-vested accounts are used to reduce the amount of the employer matching contributions. Forfeited non-vested accounts of \$1,162 and \$12,289 were used to offset Company contributions during the period from January 1, 2012 to March 30, 2012 and year ended December 31, 2011, respectively. The total of forfeited non-vested accounts was none and \$1,834 at March 30, 2012 and December 31, 2011, respectively.

Yell Adworks Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Investment options: Upon enrollment in the Plan, a participant may direct employee and matching contributions into any of the various funds offered by the Plan as more fully described in the Plan's literature. Participants may change their allocation on a daily basis.

Notes receivable from participants: Participants may borrow from their fund accounts a maximum equal to the lesser of (a) \$50,000, reduced by the participant's highest outstanding loan balance in the prior twelve months or (b) 50% of the value of the participant's vested benefit in the Plan. Loan terms range from one to five years or, for the purchase of a primary residence, a reasonable period of time. The loans were secured by the balance in the participant's account and beared interest at rates that ranged from 5.25% to 10.25%, which was commensurate with local prevailing rates at the time of the loan. The loans matured at various times through 2016. Principal and interest was paid ratably through bi-weekly payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant accounts and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits: Benefit payments are recorded when paid.

Administrative expenses: All expenses of administration may be paid out of the Plan unless paid by the Company.

Subsequent events: The financial statements for the period from January 1, 2012 to March 30, 2012 were available to be issued on January 21, 2014. Management has determined that no events or transactions have occurred through this date that would require recognition or disclosure in the financial statements.

Note 4. Fair Value Measurements

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2011.

Registered investment companies: Valued at fair value based on the quoted market price of the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Income Tax Status

Plan management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2009.

Effective March 31, 2008, the Plan adopted a non-standardized form of a prototype plan sponsored by ADP, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan has been amended since receipt of the opinion letter; however, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.
