Note 1 - Description of the Plan

The following description of the InGenesis, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering substantially all employees of InGenesis, Inc. (the Company or Employer). The Plan is designed to comply with the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC). The Plan is administered by the Company and the third party administrator, Alliance Benefit Group of Houston, Inc. (ABGH). The custodian of the Plan's assets and recordkeeper is John Hancock Life Insurance Company (U.S.A) (the Custodian).

Eligibility

All employees of the Company are eligible to participate in the Plan on the first day of the month following employment.

Participant contributions

Participants may contribute up to 100% of their annual compensation to the Plan, up to the maximum allowable under the IRC. The maximum amount allowable for 2012 was $17,000. In addition, a participant who is at least age 50 by the end of the calendar year, may elect to make catch-up contributions in excess of their regular elective deferral contribution. For 2012, the maximum catch-up contribution was $5,500. Participant rollovers from other qualified plans are also permitted.

Employer contributions

The Company may make a discretionary matching contribution equal to a percentage of the participant's elective salary deferral contributions to the Plan. The Company may also make a discretionary profit sharing contribution to the Plan. The Company did not make any discretionary employer contributions or profit sharing contributions.

Participant accounts

Each participant's account is credited with the participant's contributions, rollover contributions, and an allocation of the Employer's contributions, if any, and Plan earnings or losses. Allocations of Plan earnings or losses are based on a participant's account balance as a percentage of the total of all participants' account balances in each investment option.

Payment of benefits

The benefit a participant is entitled to equals the value of the participant's vested interest in his or her account. On termination of service due to death, disability, severance, or retirement, a participant may elect to receive a lump-sum payment equal to the vested portion of his or her account. Upon termination of employment, vested account balances of less than $5,000 may be distributed in a lump sum for rollover to another qualified plan or an Individual Retirement Account or Annuity for the benefit of the participant. Account balances less than $1,000 are distributed as a lump sum distribution.

Note 1 - Description of the Plan - (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in the Company's matching contributions plus actual earnings or losses thereon is based on continuous years of service as follows:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Upon death or disability, the participant (or his/her beneficiary in case of his/her death) becomes 100% vested in the Plan. Upon reaching normal retirement age or after six years in the Plan, the participant becomes 100% vested in the Plan.

Forfeitures

Forfeitures of terminated participants' nonvested account balances may be used to reduce Employer contributions or to pay Plan administration expenses. There were no forfeitures used to reduce Employer contributions in 2012.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid through payroll deductions. Notes are collateralized by the participant's account balances. There were no notes receivable from participants at December 31, 2012.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Note 2 - Summary of Significant Accounting Policies - (Continued)

Use of estimates
The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Risks and uncertainties
The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances.

Administrative expenses
Administrative expenses are generally paid by the Employer. However, the Plan may pay transaction fees which are allocated to the specific participants initiating the transactions.

Payment of benefits
Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the custodians. See note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses for investments bought and sold as well as held during the year.

Subsequent events
The plan administrator has evaluated events subsequent to December 31, 2012 and through January 30, 2014, the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The accounting standards establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy places the highest priority on unadjusted quoted marked prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 inputs such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair value of its investments:

Mutual Funds: Mutual funds are investments registered under the Investment Company Act of 1940. The fair value of the fund is based on its calculated net asset value (NAV) at the close of business of the appropriate exchange, considering the value of the fund assets at that time. The values of the assets are generally based on market quotations or official closing prices. The NAV is readily available on the appropriate exchange. These funds are classified as Level 1.

Fixed income: The fixed interest account consists of accounts issued by the Custodian and backed by its general assets. Contracts available in this fund earn fixed rates of return annually. Contract value represents contributions made under the contract, plus earnings or losses, less participant withdrawals and administrative expenses. The fair value of the fixed fund investment contract is determined using an income approach based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (level 3 inputs).

Participants may ordinarily withdraw or transfer all or a portion of their investment in the fixed interest account at contract value. Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the Custodian. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

Note 3 - Fair Value Measurements – (Continued)

US GAAP defines the circumstances in which an investment contract is considered fully benefit-responsive and requires such contracts to be reported at fair value in the Plan's statements of net assets available for benefits with a corresponding adjustment to reflect these investments at contract value. The terms of the fixed interest account cause the investment to be fully benefit-responsive and as such requires it be reported in the financial statements at fair value. The contract value of the fixed interest account and the fair value were the same as of December 31, 2011 as the guaranteed and effective yields were both 2.13%.

The following tables present the Plan's fair value hierarchy by asset class for those assets measured at fair value:

Note 5 - Information Certified by the Custodian (Unaudited)

The plan administrator has elected the method of annual reporting permitted by Regulation 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by John Hancock Life Insurance Company (U.S.A), except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedule.

Note 5 - Information Certified by the Custodian (Unaudited) – (Continued)

The Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate at December 31:

December 31,	**2012**	2011
Investments, at fair value	**$ 378,150**	$ 87,853

Year ended December 31,	**2012**
Investment income:	
Net appreciation in fair value of investments	**$ 24,143**
Total investment income	**$ 24,143**

Note 6 - Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become fully vested in their accounts.

Note 7 - Tax Status of the Plan

The Employer adopted a prototype plan document sponsored by Alliance Benefit Group of Houston Inc. (ABGH). ABGH received an opinion letter from the IRS dated January 31, 2006, which states that the prototype document satisfies the applicable provisions of the IRC. The plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 - Parties-In-Interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by John Hancock Life Insurance Company (U.S.A) and its affiliates qualify as party-in-interest transactions.
