A & B PROCESS SYSTEMS CORPORATION 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
April 30, 2013 and 2012

Note A - Description of Plan

The following description of the A & B Process Systems Corporation 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was established on May 1, 1990. It is a defined contribution plan covering all full-time employees of the A&B Process Systems Corporation (the "Company"). An employee becomes eligible to participate in and contribute to the Plan on the first quarterly entry date (May 1, August 1, November 1 or February 1) provided they have reached the age of 19. At that time the employee also becomes eligible to receive an allocation of the Company discretionary matching contributions. To receive an allocation of the Company discretionary profit-sharing contribution, an employee must have completed 1,000 hours of service during the plan year and must also be employed on the last day of the plan year, unless they are separated from service due to normal retirement, disability, or death. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and Funding

Participants may contribute a percentage or specific dollar amount of their annual qualified compensation subject to maximum dollar amounts determined by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. During the year end April 30, 2013, the Plan offered various pooled separate accounts and two investment contracts as investment options for participants. Participant contributions are remitted after each payroll is paid.

The Company may also contribute a discretionary matching contribution. The company has the right to increase, reduce, or suspend matching contributions to the Plan. For the year ended April 30, 2013 and 2012, the Company contributed a discretionary match contribution of 50% of the first 4% of base compensation that a participant contributed to the Plan. The Company's discretionary match contribution is also invested based on the participant's direction, and is remitted after each payroll is paid. Discretionary matching contributions made for the year ended April 30, 2013 totaled \$223,262.

The Company may also contribute a discretionary profit-sharing contribution at the option of the Company. Discretionary profit-sharing contributions are subject to certain limitations. The participants direct Company discretionary profit-sharing contributions into the various investment options. Any Company discretionary profit-sharing contributions are remitted annually. There was no discretionary profit-sharing contribution made for the year ended April 30, 2013.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, the Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A & B PROCESS SYSTEMS CORPORATION 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
April 30, 2013 and 2012

Note A - Description of Plan - Continued

Vesting

Participants are fully vested in their voluntary contributions plus actual earnings (losses) thereon. Vesting in the Company's discretionary profit-sharing and matching contributions, plus actual earnings (losses) thereon, is based on years of continuous service. A participant is 100% vested in the Company's discretionary profit-sharing and matching contributions after six years of credited service.

Forfeited Accounts

Plan forfeitures arise as a result of participants who terminate service with the Company before becoming 100% vested in the Company's discretionary profit-sharing and matching contributions. The forfeitures are used to pay plan administrative expenses or reduce the Company discretionary matches. During the plan year ended April 30, 2013, forfeitures were \$5,934. The amount of unallocated and unused forfeitures at April 30, 2013 and 2012 was \$1,324 and \$1,443, respectively. The Plan utilized forfeitures of \$6,053 against the Company discretionary match during the April 30, 2013 plan year.

Benefit Payment Options

Upon termination of service due to death, disability, retirement, or other termination, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account or monthly, quarterly or annual installments over a period of time, not exceeding a participant's life expectancy or joint life expectancy of the participant and beneficiary, if the vested account balance exceeds \$1,000. If the participant's vested account balance does not exceed \$1,000, the Plan will distribute that portion, in a lump sum, on the first distribution date after the participant terminates employment with the Company, or as soon as administratively practicable following that date.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their non-forfeitable accrued benefit. Loan transactions are treated as transfer to (from) the investment fund from (to) the Participant Loan Fund. Loan terms range from 1-5 years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate plus 1% as published in the Wall Street Journal. Interest rates for loans outstanding at April 30, 2013 were 3.25% to 6.0%. Principal and interest are paid ratably through weekly payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Revenue is recognized when earned rather than when received and expenses are recognized when incurred rather than when paid.

As described in the accounting literature, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The group annuity contract is not fully benefit-responsive and, therefore, is presented in the statement of net assets available for benefits and the statement for change in net available for benefits on a fair value basis.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest.

Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid. Account balances of participants who have elected to withdraw from the Plan but have not been paid as of April 30, 2013, totaled \$0.

Plan Costs

Some administrative expenses, including the annual audit fee, have been paid by the plan sponsor. Investment fees and some administrative fees are paid directly by the Plan participants from their respective accounts.

Note B - Summary of Significant Accounting Policies - Continued

Date of Management's Review

Subsequent events were evaluated through January 23, 2014, which is the date the financial statements were available to be issued.

Note C - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 2 Fair Value Measurements

The pooled separate accounts and group annuity contracts are valued based on the value of the underlying investments, which are based on quoted market prices, when available.

The tables on the following page set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of April 30, 2013 and 2012:

Note D - Unaudited Information

John Hancock Life Insurance Company USA, custodian of the Plan holds the Plan's investment assets and executes transactions therein. Financial information relating to the assets included in the accompanying financial statements, including Note C and supplemental schedule, was obtained from data that has been prepared and certified to as complete and accurate by the custodian in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. The following information has also been certified to as complete and accurate by the custodian:

Note D - Unaudited Information - Continued

Statement of Changes in Net Assets Available for Benefits:

Net appreciation in fair value of investments	\$ 1,126,092
Interest	5,547

During the year ended April 30, 2013, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$1,126,092 as follows:

Investments at fair value as determined by prices for similar assets or liabilities in active markets:

Pooled separate accounts	\$ <u>1,126,092</u>
--------------------------	---------------------

Note E - Group Annuity Contracts

The Plan maintains two Guaranteed Interest Account investment contracts with John Hancock Life Insurance Company USA. Contributions are maintained in an interest bearing cash account. The accounts are credited with earnings on the underlying investments, principally bank certificates of deposit, and charged for plan withdrawals and administrative expenses charged by John Hancock Life Insurance Company USA. The investment contracts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Thus, the investment contracts are not considered fully benefit-responsive and are included in the financial statements at fair value, as reported to the Plan by John Hancock Life Insurance Company USA.

Note F - Related Party Transactions

Certain Plan investments are shares of pooled separate accounts managed by John Hancock Life Insurance Company USA. John Hancock Life Insurance Company USA is also the investment custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to John Hancock Life Insurance Company USA totaled \$32,109 for the year ended April 30, 2013.

Note G - Tax Status

The Company adopted a Volume Submitter Profit Sharing Plan with CODA (cash or deferred arrangement) and utilizes the services of a third-party administrator that has received an IRS notification letter dated March 31, 2008, which indicates that an employer who adopts this plan may rely on the notification letter with respect to the qualification of its plan under the appropriate sections of the Internal Revenue Code ("IRC"). Companies that adopt a Volume Submitter plan approved by the IRS are no longer required to obtain a determination letter. The Plan has been amended since receiving the notification letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable sections of the IRC. As such, the plan administrator believes no provision for income taxes is necessary and none has been included in the Plan's financial statements.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to April 30, 2010.

April 30, 2013 and 2012

Note H - Risks and Uncertainties

The plan invests in various pooled separate accounts. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of certain investments will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note I - Reconciliation of Financial Statements to Form 5500

There are no reconciling items between these financial statements and the Form 5500 filed for the year ended April 30, 2013.
