INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants of
The Newark Group, Inc. Employees' Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of The Newark Group, Inc. Employees' Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of April 30, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended April 30, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements, in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of April 30, 2013 and 2012, and the changes in net assets available for benefits for the year ended April 30, 2013, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of April 30, 2013 and schedule of nonexempt party-in-interest transactions for the year ended April 30, 2013 are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplemental information required by the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS AS OF APRIL 30, 2013 AND 2012 AND FOR THE YEAR ENDED APRIL 30, 2013

1. DESCRIPTION OF PLAN

The following description of The Newark Group, Inc. Employees' Stock Ownership Plan ("ESOP" or the "Plan") is provided for general information purposes only. Participants should refer to the ESOP document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective May 1, 1985, The Newark Group, Inc. (the "Company," "Plan Sponsor," and "Employer") adopted the ESOP for the benefit of its non-union salaried employees. The Plan was subsequently amended to exclude new participants after April 30, 1995.

On June 9, 2010, the Company and certain of its domestic subsidiaries filed voluntary petitions for relief under Chapter 11 of title 11 of the United States Code, 11 U S C 101-1532, as amended in the United States Bankruptcy Court for the District of New Jersey. The Bankruptcy Court confirmed the Company's Plan of Reorganization effective August 16, 2010. The Reorganization Plan provided that existing ESOP shareholders receive 2.0% of equity in the reorganized Company pursuant to the Agreement by and between Grandview Capital Strategies, Inc. (in its capacity as Independent Fiduciary of The Newark Group, Inc. Employee Stock Ownership Plan) and The Newark Group, Inc., which was approved as part of the Reorganization Plan. The 2% of equity in the reorganized Company was valued at approximately \$3,150,000 or \$5.48 per share (stock floor price).

Contributions—For Plan years ending prior to May 1, 1996, the Company made contributions to a trust fund under the Plan, in amounts determined by the Board of Directors, for the original acquisition of Company common stock. Virtually all funds received from the Company or otherwise were invested in the common stock of the Company or used to service ESOP debt incurred to acquire shares of Company common stock. Except for contributions to redeem shares of retiring employees, no contributions were made for Plan years commencing after April 30, 1995 and all shares have been allocated to the accounts of Plan participants. Earnings and losses of the Plan's trust continue to be recorded and distributions made pursuant to the terms of the Plan in the ordinary course of Plan operations.

Participant Vesting and Forfeitures—The accounts of all participants under the Plan are fully vested.

Benefit Payments—Payment of a participant's vested benefit is generally made following a participant's termination of employment, retirement or death. Payments are made in five substantially equal, annual installments in shares of Company common stock. A participant may then exercise his right (a "put right") requiring the Company to purchase the shares allocated to his ESOP account at fair market value. The put right enables the Participant to put all the shares received by him in each installment to the Company, in the year received, subject to certain procedural rules and conditions. Any amount by which the stock floor price exceeds the fair market value per share shall be funded by the Company.

As an alternative to receiving a distribution of shares from the Plan, and exercising his put rights, a Participant may elect to receive cash directly from the ESOP. The cash option also requires payment through five annual installments, and the price per share of the shares redeemed per each installment is

equal to the fair value of the Company common stock as of April 30 of each year immediately preceding the date of each installment but cannot be less than the stock floor price (\$5.48 per share, as per the Reorganization Plan effective August 16, 2010). For purposes of distributions under the Plan, including the exercise of a put right, the determination of the fair market value of the Company's common stock is based upon a methodology that is consistent with that utilized in connection with the valuation of the common stock that was used when the shares were acquired by the ESOP on December 30, 1985 or a similar valuation technique reflecting the basis of the original valuation. The fair market value as of April 30, 2013 and 2012 was \$2.44 and \$1.90 per share, respectively.

During the year ended April 30, 2013, 42,015 shares were redeemed by participants, of which no shares were redeemed for stock.

Voting Rights—Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation—The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Subsequent Events— As required by the *Subsequent Events* topic of the FASB Codification, the Plan evaluated subsequent events through February 4, 2014, which is the date the financial statements were available to be issued.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Expenses—Administrative expenses of the Plan are paid by the Plan to the extent they are not paid by the Plan Sponsor as provided in the Plan document.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Accounting Changes— In 2012, the Plan adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04), effective for Plan years beginning after December 15, 2011. ASU 2011-04 amends Accounting Standards Codification ("ASC") 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRSs"). Adoption of ASU 2011-04 did not have a material effect on the financial statements.

On July 8, 2013, the FASB issued ASU No. 2013-09, Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04. ASU No. 2013-09 defers indefinitely the effective date of certain required disclosures in Update 2011-04 of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity

securities, including equity securities of its plan sponsor's nonpublic affiliated entities. ASU 2013-09 was effective upon issuance.

3. FAIR VALUE MEASUREMENTS

Fair Value of Financial Instruments - Financial Accounting Standards Board ("FASB") *Accounting Standards Codification*, (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability, or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2013 and 2012.

Common Stock - As there is no quoted market value for the common stock of the Company, the ESOP's investment in Company common stock has been recorded at fair value based upon an annual valuation prepared by an independent appraiser, using the income and market approaches. This valuation considered pertinent factors such as historical and projected income and cash flows of the Company, as well as operating statistics, market capitalization, and transactions of comparable companies. As a result of these factors, the fair value of Company common stock was determined to be \$2.44 per share and \$1.90 per share at April 30, 2013 and April 30, 2012. Common stock is classified as a level 3 investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of April 30, 2013 and April 30, 2012:

The Newark Group, Inc. Common Stock	\$ 776,853	\$0	\$ 118,273	\$ 241,393	\$ (241,393)	\$ 895,126

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Valuation Processes Used in Level 3 Measurements

Plan management accumulates the data for the independent appraiser from the audited financial statements of the Company, along with projections of the Company's forecasted financial performance. The independent appraiser prepares a preliminary report which Plan management reviews, discusses and approves. The independent appraiser utilized the three recognized valuation approaches- asset, market and income, with primary weighting being placed on the income approach utilizing the discounted future benefits method. Valuation discounts for lack of control (minority interest) and lack of marketability were applied.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan Administrator evaluated transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended April 30, 2013, there were no transfers in or out of levels 1, 2 or 3.

4. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at April 30:

Description	2013	2012
As determined by appraised fair value:		
The Newark Group, Inc. common stock:		
Number of shares	366,855	408,870
Value per share	\$ 2.44	\$ 1.90
Fair Value	\$ 895,126	\$ 776,853

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") determined and informed the Company by a letter dated March 20, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Subsequently the IRS informed the Company by letter dated on August 1, 2013, which was issued subject to an amendment executed August 6, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC including IRC 4975(e) (7). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The determination letter expires January 31, 2015.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of April 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The plan administrator believes it is no longer subject to income tax examinations for fiscal years prior to 2010. In addition, by letter dated October 26, 2009, the U.S. Department of Labor ("DOL") commenced an investigation of the Plan which was settled by letter dated July 12, 2013 received from the DOL. (See footnote 9).

6. RISKS AND UNCERTAINTIES

The Plan invests primarily in Company stock. Company stock is exposed to various risks such as interest rate, market, and credit risks.

7. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are shares of Company common stock and, therefore, transactions related to these investments qualify as exempt party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

9. OTHER MATTER

By letter dated June 1, 2011, the DOL informed the Company that it believes that several provisions of ERISA may have been violated with respect to the Plan, most specifically regarding the put option policy during the period the Company was insolvent. The Company has since entered into a settlement with the Plan trustees and Independent Fiduciary providing for a \$175,000 payment to the Plan and amending the Plan for revised language with respect to indemnification of plan fiduciaries. The Company recovered \$175,000 from the Company's insurance policy and deposited the funds into the Plan on August 26, 2013. The Company has adopted an amendment to provide a mechanism for the allocation of the settlement to Plan participants. The DOL issued a letter dated July 12, 2013 and agreed to take no further action on this matter.

It is the Company's position that the \$175,000 settlement paid does not constitute a prohibited transaction; however, Form 5330's have been filed on a protective basis as part of its steps to conclude the DOL investigation, showing no amount involved and no applicable excise tax due.
