1. DESCRIPTION OF PLAN:

The following description of the Xtek, Inc. Employee Savings Plan (Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of Plan provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Xtek, Inc. (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Generally, full time employees are immediately eligible to participate in the Plan after attaining age 21.

Contributions

Subject to certain limits, participants may contribute a portion of their compensation to the Plan. Participants are also permitted to deposit into the Plan distributions from other qualified plans. At its discretion, the Company can elect to make matching contributions or qualified non-elective contributions to the Plan. As of June 30, 2013, no plan assets relate to Company contributions.

Participant accounts

Each participant account is credited with the participant contribution, related matching contribution, if any, and an allocation of Plan earnings. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, catch-up contributions and rollover contributions as adjusted for earnings and losses thereon. Participants vest in Company contributions in accordance with the terms of the Plan.

Notes receivable from participants

Participants may borrow from their funded accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested balance of the account. The loans are secured by the balance in the participants account. The loans carry interest at the prime rate plus one percent and are payable within five years except for those used to acquire a principal residence.

Benefits

Upon termination of service, distribution shall be made to the participant or beneficiary in a single lump sum payment. A participant who has attained age 59 ½ or is determined by the administrator to have incurred a hardship may elect in writing to make a cash withdrawal, subject to plan provisions, of up to 100% of the participant's account balance. Benefits are expensed as paid.

Forfeitures

Employer matching contributions are forfeited should a participant terminate employment before becoming fully vested. Forfeited amounts are used to reduce employer contributions or reduce Plan expenses. Forfeiture balance at June 30, 2013 and 2012 is \$0 and \$2,304. Forfeitures of \$3,928 were used for Plan expenses during the year ended June 30, 2013.

Transfers in

The Plan allows for the transfer in of diversification distributions made from the Xtek, Inc. Employee Stock Ownership Plan (ESOP). A participant, who has attained the age of 55 and completed 10 years of participation in the ESOP, is entitled to make diversification withdrawals from the ESOP.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following is a description of the significant accounting policies of the Plan.

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. As required, the statement of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See further discussion of fair value in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2013 or 2012. If a participant ceases to make loan repayments the plan administrator deems the participant loan to be in default. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through February 11, 2014 on which the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE:

All investments, investment income and the net appreciation (depreciation) in fair value of investments included in the accompanying financial statements and supplemental schedules were obtained from data that was prepared and certified as complete and accurate by the trustee, BMO Harris Bank N.A.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June, 30, 2013 and 2012.

Mutual funds: Valued at the quoted daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2013 and 2012.

<u>Investments at fair value as of June 30, 2013</u>

6. INCOME TAX STATUS:

The Plan obtained its latest determination letter May 5, 2011, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving this letter. However, the Company believes that the Plan currently is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code, and the related trust continues to be tax exempt as of June 30, 2013.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2010.

7. RISKS AND UNCERTAINTIES:

Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that change in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements and supplemental schedules.

8. PLAN TERMINATION:

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

9. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are managed by BMO Harris Bank N.A. BMO Harris Bank N.A. is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan is credited for rebates that the trustee receives from mutual funds. These fee credits are included in total additions on the statements of changes in net assets available for benefits. The trustee charges the Plan for custodial, administrative and record keeping fees, including amounts paid to a third party investment advisor. These fees are included in administrative expenses on the statements of changes in net assets available for benefits.

10. DELINQUENT CONTRIBUTIONS:

During the plan year ended June 30, 2012, the Plan had delinquent contributions. The delinquent contributions were corrected in Plan year 2013, including lost earnings. The delinquent contributions are not expected to impact the Plan's qualification.
