INDEPENDENT AUDITOR'S REPORT

Administrative Committee of
Raytheon Telemus 401(k) and Profit Sharing Plan
Falls Church, Virginia

Scope

We were engaged to audit the accompanying financial statements of Raytheon Telemus 401(k) and Profit Sharing Plan, which comprise the statements of net assets available for benefits as of April 30, 2013 and December 31, 2012, and the related statement of changes in net assets available for benefits for the four months ended April 30, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Great-West Life & Annuity Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the four months ended April 30, 2013 and year ended December 31, 2012, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RAYTHEON TELEMUS 401(K) AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was restated with an effective date of January 1, 2012. During 2013, the Company completed the merger of this Plan into the Raytheon Company plan.

General

The Plan is a defined contribution 401(k) plan covering all employees of Raytheon Telemus, Inc. (the Company) and subsidiaries Key Computer Service, LLC and ISFCE, LLC who meet the eligibility requirements of the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may make pretax or Roth contributions of compensation to the 401(k) plan. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. Also, the Company may at the option of the Board of Directors, make a contribution to the Plan. For the three months in 2013 and December 31, 2012 plan year, the Company contributed four percent of salary for employees earning an annual compensation less than $160,000, and twelve percent of salary for employees earning annual compensation greater than $160,000. Eligible employees must have worked greater than 500 hours and be active as of December 31, the last day of the Plan Year, to receive that year's Company contribution. The Plan was amended removing the 500 hours and active on the last day of the plan year for 2012. Company contributions made on behalf of any employee who doesn't meet the aforementioned criteria is forfeited. Forfeited contributions may be used to reduce nonelective or matching contributions and pay plan expenses. Unallocated funds including forfeitures amounting to $2,404 are included in plan assets at December 31, 2012.

Participants Accounts and Allocations

Each participant's account is credited with the participant's contribution, the Company's matching contribution and an allocation of Plan earnings. Allocations are based on participant account balances and compensation, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

A terminated or retired participant or a participant's beneficiary may elect to have their vested account balance paid in either a lump sum amount or in a single sum payment of a portion of the account balance.

Participant Loans

Participants may borrow from their fund accounts not to exceed the lesser of $50,000 or 50 percent of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. All remaining participant loans were transferred to the Raytheon Company plan.

Vesting

A participant immediately vests in employer contributions and in his or her deferrals and after-tax contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of Raytheon Telemus 401(k) and Profit Sharing Plan (the Plan) are prepared under the accrual method of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements. All plan assets were transferred to the Raytheon Company plan before the close of business on April 30, 2013.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Concentration of Credit Risk

Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of investments. The Plan has offered the Plan participants investment in various principal separate investment accounts. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits. Since the Employer is not required to provide collateral for a 401(k) contribution plan, the Plan has no formal policy requiring collateral to support the financial instruments held by the custodian.

Subsequent Events

The administrator of the plan has evaluated subsequent events through February 14, 2014, which is the date the financial statements were available to be issued.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon IRS rules.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Administrative Expenses

Substantially all Plan administrative expenses are paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - INCOME TAX STATUS

Although the Plan has not requested a determination from the Internal Revenue Service (IRS) as to the Plan's tax-exempt status, the master prototype plan from which the Plan was drafted has received a favorable determination from the IRS. Plan management believes that the Plan is designated to operate in accordance with all applicable provisions of the Internal Revenue Code. Therefore, management believes that the Plan is qualified and that the related trust is exempt from taxation under the Internal Revenue Code.

The Plan is required to measure, recognize, present and disclose in its financial statements uncertain tax positions the Plan has taken in the tax years that remain subject to examination or expects to take on a tax return. The Plan recognizes the tax benefits from uncertain tax positions only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities. Prior year tax returns may be subject to examination in various tax jurisdictions, most of which define open tax years as three years from the later of the due date of the return or the date the return was filed. The Plan has not recorded a liability for uncertain tax positions for any open tax years.

NOTE 4 - PARTICIPANT WITHDRAWALS

Certain participants may elect to withdraw from the Plan (e.g. by termination of employment) and vested benefits will be paid subsequent to the Plan's year end. These amounts are not reported as withdrawals or distributions until actually paid. There were no elections to withdraw from the Plan that were not paid as of April 30, 2013 or December 31, 2012.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 6 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 - FAIR VALUE MEASUREMENTS (continued)

U.S. generally accepted accounting principles establishes a three-level disclosure hierarchy to indicate the level of judgment used to estimate fair value measurements:

Level 1 - quoted prices in active market for identical assets or liabilities as of the reporting date;
Level 2 - quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in markets that are not active; and inputs other than quoted prices (such as interest rate and yield curves); and
Level 3 - uses input that are unobservable, supported by little or no market activity and reflect significant management judgment.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

Mutual Funds

These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the custodian of the fund. The NAV is a quoted price in an active market and classified within Level 1 of the hierarchy.

Pooled Separate Accounts

These investments are shares of pooled accounts, which are invested in mutual funds, managed by Great-West Life & Annuity Insurance Company. Shares of the pooled accounts are valued at the NAV of shares held by the Plan at year-end. The NAV is based on the quoted market price of the underlying mutual funds, minus the expense factor disclosed in the contract, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted by the custodian; however, the unit price is based on underlying investments which are traded on an active market.

Guaranteed Investment Contract

Guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available and are classified within Level 3 of the hierarchy. Thus, the fair value of the guaranteed investment contract is determined using an income approach and discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The contract has a provision that prevents the immediate and full payout of the contract value for plan-initiated transactions. Plan participants may request to transfer their funds at any time for their full value. If the Plan elects to terminate the contract, there would be a 12 month waiting period for the plan to receive the full value of the contract. Management believes that it is not probable that events would occur which would cause the plan to transact at less than contract value. The Guaranteed Portfolio Fund is considered to be a benefit-responsive group annuity contract issued by Great-West Life & Annuity Insurance Company. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets compared to the minimum interest crediting rate as stated in the contract and prevailing market conditions. The crediting rate is reset on a quarterly basis. The methodology for calculating the guaranteed minimum interest rate is defined in the contract. The average yield earned by the Plan is 1.45 and 2.03 percent and the actual average interest credit to Plan participants is 1.45 and 2.03 percent during 2013 and December 31, 2012, respectively. Using a discounted cash flow valuation methodology where the interest rate is reset at least as frequently as annually, fair value is considered to approximate contract value. Realized and unrealized gains and losses are included in net appreciation in fair value in the statement of changes in net assets available for benefits.

NOTE 6 - FAIR VALUE MEASUREMENTS (continued)

Stocks

Common stocks are valued at the closing price reported on the active market on which the individual securities are traded.

The table below summarizes investments, by level, for items measured at fair value on a recurring basis:
