Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

BASF Corporation as Plan Sponsor
and Plan Administrator and Participants in
Pension Plan for Hourly Employees of Attapulgus, Georgia Facility

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pension Plan for Hourly Employees of Attapulgus, Georgia Facility (the "Plan"), which comprise the statements of net assets available for benefits as of May 1, 2013 and December 31, 2012, and the related statements of changes in net assets available for benefits for the period from January 1, 2013 to May 1, 2013 and the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by BNY Mellon, N.A., the Trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of May 1, 2013 and December 31, 2012, and for

the period from January 1, 2013 to May 1, 2013 and the year ended December 31, 2012, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Data Sources

Towers Watson used asset data supplied by the trustee. BASF and the plan administrator furnished participant data as of the valuation date. The company provided the dates and amounts of the 2012 contributions that will be paid in 2013. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Valuation Date	January 1, 2013
Enrolled Actuary	William J. Nickel, F.S.A., E.A.
Enrollment Number	11-07016

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

The BASF Pension Plan for Hourly Employees of Attapulugus, Georgia Facility (EIN/PN 16-1090809/026) merged into the BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan (EIN/PN 16-1090809/003) effective May 1, 2013. The minimum required contribution for the period during 2013 before the merger (i.e. January 1, 2013 through April 30, 2013) for the former BASF Pension Plan for Hourly Employees of Attapulugus, Georgia Facility was determined as the sum of the target normal cost accrued during this period and a proration of the entire 2013 expected expenses for the four month Plan Year in accordance with IRS proposed regulation §1.430(a)-1. This plan had no outstanding amortization bases as of January 1, 2013. These amounts are shown on the attached forms.

BASF Corporation as Plan Sponsor
and Plan Administrator and Participants in
Pension Plan for Hourly Employees of Attapulgus, Georgia Facility

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pension Plan for Hourly Employees of Attapulgus, Georgia Facility (the "Plan"), which comprise the statements of net assets available for benefits as of May 1, 2013 and December 31, 2012, and the related statements of changes in net assets available for benefits for the period from January 1, 2013 to May 1, 2013 and the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by BNY Mellon, N.A., the Trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of May 1, 2013 and December 31, 2012, and for

the period from January 1, 2013 to May 1, 2013 and the year ended December 31, 2012, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of the Plan

The following description of the Pension Plan for Hourly Employees of Attapulgus, Georgia Facility (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the provisions of the Plan and detailed definitions of various Plan terms.

BASF Corporation (the Sponsor) administers the Plan through its Pension and Savings Plan Committee (the Plan Administrator) under the authority of the Pension and Benefits Committee of the Sponsor's Board of Directors. The Plan has an agreement with BNY Mellon, N.A. (the Trustee) whereby the assets of the Plan are held in the BASF Corporation Master Trust (the Master Trust). The Master Trust was established by the Sponsor and is administered by the Trustee. The trust fund distributes the benefits to participants in accordance with the provisions of the Plan. The assets of the Plan are managed by the Trustee and several investment managers of the Sponsor.

a) General

The Plan is a defined benefit pension plan providing retirement benefits to the Sponsor's eligible bargaining unit hourly employees of BASF Americas Corporation (the Company) or any of its subsidiaries or affiliates which have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was created on December 1, 1954 and has been amended since that time.

As of January 1, 2008, the Plan was amended to disallow new participants to the Plan.

As of April 30, 2013, the Plan was amended to cease all accruals for future benefits.

As of May 1, 2013, the Plan was amended to merge into and with the BASF Consolidated Bargaining Unit Pension Plan.

b) Sponsor Contributions

The Plan is noncontributory on the part of the employees. The Company contributes such amounts as are necessary to meet or exceed the minimum funding requirements as prescribed by any applicable law. No contributions for 2013 or 2012 were deemed necessary based on the January 1, 2013 and 2012 valuation report prepared by Towers Watson (the Actuary) and the Sponsor met or exceeded the minimum funding requirements of ERISA.

c) Distributions

Any participant whose service is terminated other than by death or retirement and who has completed 5 years of service is eligible to receive a vested retirement allowance. Normal retirement is at age 65. The benefit is calculated on the basis of past and future service benefits (an amount per month specified in the Plan). Early retirement is available at age 50 with 10 years of participation service. The early retirement benefit is the normal retirement benefit earned to date of retirement reduced by $\frac{1}{2}$ of 1% for each calendar month that the benefit commencement date precedes the normal retirement date.

The normal form of retirement benefit payment is a life annuity. However, if an employee is married on the date their benefit payments commence, their retirement benefit is paid in the form of a 50% joint and survivor annuity – unless the member elects not to receive it in this form, and has obtained the spouse's written consent. There are also several optional forms of retirement benefit payments, all of which are actuarial equivalents to the life annuity. These optional forms of payment include: 100%, 75% and 50% contingency, 5 or 10 years period certain, and Social Security adjusted annuities. According to the Plan document, under the 100%, 75% or 50% contingent annuity option, the "participant designates another person (usually a spouse) to receive a continued monthly pension, after his death and for the life of the other person (the contingent annuitant), in the selected percentage." The participant's benefit is reduced to reflect payout over two lifetimes, the greater the continuation percentage, the greater the reduction. Further details on these optional payment methods can be found in the Plan documents.

Total and permanent disability benefits are provided for any qualified participant. The benefit is a monthly pension equal to the monthly rate of normal retirement pension for each year of credited service to date of disability.

d) Vesting

Benefits become vested after five years of service to the Sponsor.

(2) Summary of Significant Accounting Policies

a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

b) Valuation of Investments

The Plan's investment in the Master Trust has been presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See "Note 6 Fair Value Measurements" for discussion of fair value measurement.

c) Security Transactions

Purchases and sales of securities are recorded on a trade date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d) Investment Income

Dividend income is recorded on the ex-dividend date; interest is recorded as earned on the accrual basis.

e) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

f) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

g) Administrative Costs

All administrative expenses of the Master Trust, such as trustee, custodian and accounting services are paid by the Master Trust and then allocated to the participating plans.

h) Risk and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

i) Subsequent Events

The Plan has evaluated events through February 11, 2014, the date the financial statements were available to be issued.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on the number of credited service years ending on the date the benefit information is presented (the valuation date) and the corresponding monthly benefit amount does include future Plan increases.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The significant actuarial assumptions used in determining the present value of accumulated Plan benefits as of December 31, 2012 were as follows:

Discount rate	3.75%
Mortality rate	RP-2000 Mortality Table
Actuarial cost method	Projected Unit Credit Cost Method
Average retirement age	61

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2013. Had the valuations been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated plan benefits, determined by Towers Watson for 2012, is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The status of the estimated actuarially determined present value of the accumulated benefits under the Plan as of December 31, 2012 is:

Vested benefits:

Participants / beneficiaries currently receiving payments	\$ 11,356
Other participants	7,394
	<u>18,750</u>

Nonvested benefits

Total actuarial present value of accumulated plan benefits	196
	<u>\$ 18,946</u>

The changes in the actuarial present value of accumulated plan benefits were:

Actuarial present value of accumulated plan benefits as of January 1, 2012	\$ 17,339
(Decrease) Increase attributable to:	
Benefits accumulated	881
Interest in the discount period	1,215
Benefits paid	(1,179)
Assumption changes	<u>690</u>
Actuarial present value of accumulated plan benefits as of December 31, 2012	<u>\$ 18,946</u>

(4) Federal Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated October 13, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes that the Plan is being operated in compliance with the application requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

(5) Interest in the Master Trust

The Plan has an agreement with the Trustee whereby substantially all the assets of the Plan are held in the Master Trust. The assets are maintained in a commingled account by the Trustee and are not separately identified as to ownership. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. The Plan has no interest in the Master Trust as of May 1, 2013. The Plan had a percentage interest in the Master Trust of approximately 1% as of December 31, 2012.

As of May 1, 2013, the following benefit plans participated in the Master Trust:

Pension Plan for Hourly Employees of Louisville, Kentucky Facility

Pension Plan for Hourly Employees at Quincy, Florida Works

(6) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs. |
| Level 2 | Observable prices that are based on inputs not quoted on active markets, but corroborated by market data. |
| Level 3 | Unobservable inputs are used when little or no market data is available which are significant to the fair value measurements. The fair value hierarchy gives the lowest priority to Level 3 inputs. |

In determining fair value, the Master Trust utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as, considers counterparty credit risk in its assessment of fair value. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2012.

Corporate stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Money Market: Valued at amortized cost, which approximates fair value.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Corporate Debt: Corporate bond securities traded on national securities exchanges are valued at the last reported sales price on the last business day of the year. Securities traded in the over-the-counter market and listed securities for which no sales were reported on that date are valued at the last reported bid price.

Common Collective Trusts and 103-12 Investments: The Plan's interest in the common collective trusts and 103-12 investments are valued at the NAV. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Real Estate and Partnerships/Joint Ventures: The Plan's interest in real estate and partnerships/joint venture funds are valued at the NAV. The NAV, as provided by the investment advisor, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Futures Contracts: Valued at the last sale price (or, if there is no sale on the valuation day, bid price) in the market where such contracts are principally traded.

Repurchase Agreements: Short-term agreement to sell and buy back securities in the future which is valued based on the value of the underlying asset.

Swap Agreement: Valued based on the net present value of all estimated future cash flows. Swaps may be valued in terms of bond prices or as portfolio of forwards contracts.

The fair value of the individual investment that represents five percent or more of the net assets of the Master Trust is as follows:

	Unaudited 2012
Ashmore Emerging Markets Debt Fund	\$ 173,008

The Master Trust assets include limited investments in derivative financial instruments. These investments are in accordance with guidelines established by the Sponsor. Such contracts are entered into to manage market risks associated with the Master Trust's investment portfolio, to lower transaction costs or to enhance returns on investments in the Master Trust. The Master Trust does not enter into any leverage or complex derivative instruments.

The Master Trust enters into a securities lending program with the Trustee, in its corporate capacity as a lending agent. The program allows the Trustee to loan securities, which are assets of the Master Trust, to approved brokers (the "Borrowers"). The Trustee requires Borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan. The collateral is required to equal at least 102 percent of the fair value of U.S. securities borrowed and 105 percent for non-U.S. securities borrowed. The Master Trust bears the risk of loss with respect to the unfavorable change in fair value of the invested cash collateral. However, the Borrower bears the risk of loss related to the decrease in the fair value of the securities collateral and, therefore, will have to deliver additional securities to maintain the required collateral. In the event of default by the Borrowers, the Trustee shall indemnify the Master Trust by purchasing replacement securities equal to the number of unreturned loaned securities or, if replacement securities are not able to be purchased, the Trustee shall credit the Master Trust for the market value of the unreturned securities. In each case, the Trustee would apply the proceeds from the collateral for such a loan to make the Master Trust whole.

The market value of the securities on loan to Borrowers at December 31, 2012 was \$983. Cash collateral of \$1,009 was received for securities on loan at December 31, 2012, and was invested in the Collateral Fund, which is a fund affiliated with the Trustee. The Master Trust may not repledge or relend the noncash collateral. A portion of the income generated upon investment of cash collateral is remitted to the Borrowers, and the remainder is allocated between the Master Trust and the Trustee in its capacity as a security agent. Securities lending income allocated to the Master Trust amounted to \$22 and \$62, for the period from January 1, 2013 to May 1, 2013 and the year ended December 31, 2012, respectively. Securities lending income allocated to the Trustee amounted to \$12 and \$33,

(8) Party-in-Interest Transactions

Certain Plan investments are shares or units of funds managed by BNY Mellon, N.A. the Plan's Trustee, as of May 1, 2013 and December 31, 2012. Transactions in these funds qualify as permitted party-in-interest transactions.

(9) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.
