NOTES TO FINANCIAL STATEMENTS

DEIORIO FOODS, INC. 401(k) PLAN

December 31, 2011 (Audited) and 2010 (Compiled)

NOTE A--DESCRIPTION OF THE PLAN

The following description of the DeIorio Foods, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of DeIorio Foods, Inc. (the Company) who are twenty-one years or older and have completed one year of service. An employee is eligible to participate in the elective deferral feature of the Plan on the first day of the calendar month following the date the employee meets the eligibility requirements. To become eligible to participate in the Company's safe harbor and profit sharing contributions, an employee must have made elective deferral contributions to the Plan and be eligible to participate in the Plan, respectively.

Contributions: Each year, participants may contribute tax-deferred and after-tax Roth dollars through a payroll deduction (elective deferral contributions), subject to limitations determined by the Internal Revenue Code (IRC). Additionally, if a participant has or is projected to attain age 50 before the end of the Plan year, that participant may make "catch-up" contributions as determined by the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). The Company makes safe harbor contributions in an amount no less than 3% of a participant's compensation. During 2011, the Company made safe harbor contributions totaling $99,831.

Additional discretionary profit sharing contributions may also be made at the option of the Company. Such employer profit sharing contributions are allocated to individual accounts of qualifying participants in the ratio that each qualifying participant's compensation for the Plan year bears to the total compensation of all qualifying participants for the Plan year. There were no discretionary profit sharing contributions made by the Company to the Plan in 2011. Contributions are subject to certain individual account and aggregate Plan limitations.

Participant Accounts: Each participant's account is credited with the elective deferral, matching and discretionary profit sharing contributions and Plan earnings and losses. Plan earnings and losses are allocated based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A--DESCRIPTION OF THE PLAN--Continued

Vesting: Participants are vested immediately in their contributions and the Company's matching and discretionary profit sharing contribution portions of their accounts plus actual earnings or losses thereon.

Investment Options: Upon enrollment in the Plan, a participant may direct their contributions and Company matching and discretionary profit sharing contributions among the investment options made available by the Plan. Participants may change their investment options at any time throughout the year.

Receivables--Notes From Participants: Participants may borrow from their vested accounts a minimum of $1,000 with the maximum amount being the lesser of 50% of the vested account balance or $50,000 reduced by the highest outstanding loan balance at any time in the preceding year. Loan terms are up to five years, unless the loan is for the purpose of acquiring a principal residence then a reasonable timeframe will be determined at the time the loan is made. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator (currently prime plus 1%). Participants are permitted to have two loans outstanding at a time. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits: Upon termination of service due to retirement, death, termination of employment, proven hardship or disability, a participant or their beneficiary may elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in his or her account or a series of substantially equal installments over a period of not more than a participant's or beneficiary's life expectancy. For termination of service for other reasons, a participant will receive a lump sum distribution of their vested account balance. If a participant's vested account balance is between $1,000 and $5,000, and the participant fails to make a distribution election, a lump-sum amount will be rolled over to an individual retirement account without their consent. If a participant's vested account balance is $1,000 or less, and the participant fails to make a distribution election, a lump-sum amount will be paid to the participant without their consent.

NOTE B--SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are treated as distributions based upon the terms of the Plan document.

Payment of Benefits: Benefits are recorded when paid.

Events Occurring After Reporting Date: Plan management has evaluated events and transactions that occurred between December 31, 2011 and September 27, 2012, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements. There were no such events or transactions identified by Plan management.

Each asset representing 5% or more of the Plan's net assets is separately identified.

NOTE D--FAIR VALUE MEASUREMENTS

The Plan follows Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) Topic 820, "Fair Value Measurements and Disclosures", which requires fair value measurements of the Plan's assets and liabilities. Fair value is an estimate of the price the Plan would receive upon selling a financial instrument in a timely transaction to an independent buyer or the most advantageous market of the financial instrument. FASB ASC Topic 820 established a three tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the financial instruments as noted below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D--FAIR VALUE MEASUREMENTS --Continued

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Investments in registered investment companies are reported at fair value based on the quoted market price of the fund which represents the net asset value of the shares (participation units) held at year end.

Collective trust: The Plan's interest in the collective trust is based on periodic valuations performed by the trustee using current market values of the underlying assets of the fund.

As described in FASB ASC Topic 946, "Financial Services - Investment Companies", investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by FASB ASC Topic 946, the Statement of Net Assets Available for Benefits presents the fair value of the underlying investment contracts of the collective trust as well as the adjustment of the fully benefit-responsive underlying investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by Level, within the fair value hierarchy, the Plan's investments at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

	Investments at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

	Level 1	Level 2	Level 3	Total
Mutual funds	$2,191,460	$ -0-	$ -0-	$2,191,460
Collective trust	-0-	323,815	-0-	323,815
Total investments at fair value	$2,191,460	$323,815	$ -0-	$2,515,275

NOTE E--PARTY-IN-INTEREST TRANSACTIONS

The Plan issues loans to participants, which are secured by the balances in the participants' accounts. Therefore, related transactions qualify as party-in-interest transactions. All other transactions which may be considered parties-in-interest transactions relate to normal Plan management and administrative services, and the related payment of fees.

Fees paid by the Plan to the custodian of the Plan for participant recordkeeping and investment services have been separately stated as administrative fees on the statement of changes in net assets available for benefits.

Administrative expenses for recordkeeping and auditing services are provided by parties-in-interest and are paid directly by the Company.

NOTE F--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants maintain their 100% nonforfeitable interest in their account balances.

NOTE G--INCOME TAX STATUS

The Plan adopted a non-standardized form of a prototype plan sponsored by the Fort William, LLC. The Internal Revenue Service has determined and informed the prototype plan sponsor by a letter dated March 16, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan continues to qualify and the related trust continues to be tax-exempt as of December 31, 2011. Therefore, no provision for income taxes is included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Plan management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is potentially subject to income tax examinations for years 2008 through 2011.

NOTE H--RISKS AND UNCERTAINTIES

The Plan's investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE I--PARTIAL PLAN TERMINATION

In November 2010, the Company sold a portion of its operations which resulted in a partial plan termination. This affected 38 participants, 19 of whom have taken distributions from the plan totaling approximately $866,000 for the year ended December 31, 2011. All participants affected by the partial plan termination maintained their 100% nonforfeitable interest in their account balances prior to distributions being taken.
