Report on the Financial Statements

We were engaged to audit the accompanying financial statements of St. Vincent Charity Medical Center Pension Plan for ONA Employees (the "Plan"), which comprise the statement of net assets available for benefits as of May 31, 2013 and 2012 and the related statement of changes in net assets available for benefits for the years ended May 31, 2013 and 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Key Bank National Association (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of May 31, 2013 and 2012, and for the year ended May 31, 2013 that the information provided to the plan administrator by the Trustee is complete and accurate.

St. Vincent Charity Medical Center Pension Plan for ONA Employees
Notes to Financial Statements
May 31, 2013 and 2012

1. Description of the Plan

The following description of the Saint Vincent Charity Medical Center Pension Plan for ONA Employees (the “Plan”) provides only general information. Participants should refer to the plan document agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined benefit pension plan covering members of the Ohio Nurses Association (ONA) employed at Saint Vincent Charity Medical Center of Cleveland, Ohio (collectively, the “Company” or “Plan Administrator”). The Plan provides retirement and disability benefits to participants. Contributions are made to the Plan in amounts which, on an actuarial basis, provide assets sufficient to meet the benefits for participants. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements.

The Plan was amended to freeze accumulation of benefits to existing participants effective December 31, 2011. Additionally, the Plan no longer allows for new participants to enter the Plan after December 31, 2011.

The Company elected to terminate the Plan on February 6, 2013 as of May 31, 2013 with liquidation of Plan assets to be completed by June 30, 2014 as required as part of the collective bargaining agreement with ONA. Subsequent to year end, the Company elected to cancel the termination of the Plan and then elected to terminate the Plan as of May 31, 2014 and liquidate the Plan’s assets by December 31, 2014 as required as part of the collective bargaining agreement with ONA. Because of the termination, its net assets will generally not be available on a pro-rata basis to provide participant benefits. Payment of a participant’s accumulated plan benefits depends on the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all. However, the plan sponsor intends to fully fund the Plan as part of the termination.

Contributions - The Company contributes such amounts as are deemed necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits paid to its participants. Contributions are sufficient to meet ERISA minimum funding requirements.

Pension Benefits - Eligible employees with five or more years of qualified service are entitled to normal annual pension benefits beginning at the participant’s normal retirement age of 65 as described in the Plan. The individual pension benefit is equal to credited service times a monthly pension basic benefit. Special provisions for retirement at other-than-normal retirement age are described in the plan agreement, if applicable.

Notes to Financial Statements (continued)
May 31, 2013 and 2012

1. Description of the Plan (Continued)

Party-in-interest Transactions - Certain plan assets are investment funds managed by Key Bank National Association. Key Bank is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

2. Significant Accounting Policies

Investment Valuation - Investments primarily consist of mutual funds which are stated at fair value, as determined by quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Significant estimates are used in determining the actuarial present value of accumulated benefit plans (see Note 3).

Benefit Payments - Benefits to participants are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Risks and Uncertainties - Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

May 31, 2013 and 2012

2. Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including February 26, 2014, which is the date the financial statements were available to be issued.

3. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are calculated as the applicable percent of average monthly compensation multiplied by the years of credited service. The accumulated plan benefits for active employees are the participants' accrued benefit as of the valuation date. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the beginning of each year is as follows:

	June 1	
	2012	2011
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 731,500	\$ 383,426
Other participants	8,864,717	8,153,335
Total vested benefits	9,596,217	8,536,761
Nonvested benefits	74,446	110,930
Total benefit obligations	<u>\$ 9,670,663</u>	<u>\$ 8,647,691</u>

St. Vincent Charity Medical Center Pension Plan for ONA Employees
Notes to Financial Statements (continued)
May 31, 2013 and 2012

3. Accumulated Plan Benefits (Continued)

	June 1	
	2012	2011
Actuarial present value of accumulated plan benefits	\$8,647,691	\$7,608,226
Benefits accumulated (including investment gains)	548,561	686,208
Increase for interest due to decrease in discount period	641,778	562,131
Benefits paid	(167,367)	(208,874)
Actuarial present value of accumulated plan benefits	<u>\$9,670,663</u>	<u>\$8,647,691</u>

The significant actuarial assumptions used in the valuation of the Plan at June 1, 2012 and 2011 are summarized as follows:

Actuarial cost method	Projected Unit Credit Method
Assumed rate of return on investments	7.50%
Retirement	All employees age 65 and who have worked at least five years are assumed to retire immediately. All other employees are assumed to retire at age 65 and the fifth anniversary from the date of hire.
Mortality basis	RP-2000 Mortality Table projected to 2020 for healthy participants, and RP-2000 Mortality for disabled participants

These actuarial assumptions are based on the presumption that the Plan would continue; however, the board voted to terminate the plan on February 6, 2013. As a result, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated plan benefits in future periods.

4. Unaudited Investment Information

Key Bank National Association (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year and schedule of reportable transactions are based solely on information provided by the Trustee.

St. Vincent Charity Medical Center Pension Plan for ONA Employees
Notes to Financial Statements (continued)
May 31, 2013 and 2012

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service, dated May 31 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the “Code”) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

6. Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at May 31, 2013 and 2012 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Notes to Financial Statements (continued)
May 31, 2013 and 2012

6. Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at May 31, 2013	
	Quoted Prices in Active Markets for Identical Assets (Level 1)
Assets:	
Mutual funds:	
PIMCO Moderate Duration Fund	\$5,967,389
Short-term investments:	
Federated Prime Cash Obligations	\$5,006,354

	Quoted Prices in Active Markets for Identical Assets (Level 1)
Assets:	
Mutual funds:	
Vanguard 500 Index Fund	\$5,304,075

Years Ended May 31, 2013 and 2012

6. Fair Value Measurements (Continued)

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2013 and 2012.

Optional Form Election

Eighty-five percent are assumed to elect the lump sum option, fifteen percent are assumed to elect a life annuity. Lump sum cashouts are valued using the interest rate applicable as stated above and the 417(e) Mortality Table as defined in Rev. Rul. 2001-62.

Provision for Expenses

The expected administrative (i.e. non-investment) expenses that will be paid from plan assets, which were assumed to equal actual expenses during the prior year, were included in the Target Normal Cost for minimum contribution purposes.

APPENDIX B (Continued)

<i>Standing Elections</i>	The client has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.
<i>MAP-21 Elections</i>	The MAP-21 segment rates have been used for minimum funding purposes as well as for the calculation of the AFTAP.
<i>Asset Method</i>	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.
<i>Employees Valued</i>	Only participants as of the valuation date were valued.
