PETERSEN ALUMINUM CORPORATION
401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2013 AND 2012

(1) DESCRIPTION OF PLAN:

The following brief description of the Petersen Aluminum Corporation 401(k) Profit Sharing Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General -

The Plan is a defined contribution plan covering all eligible employees of Petersen Aluminum Corporation, Charleston Industries, a wholly owned subsidiary, and Petersen Finishing Corporation, an affiliated company through common ownership. An employee becomes eligible to participate upon completion of one year of Company service and attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions -

Each year, participants may contribute to the plan up to 92 percent of their annual compensation, with such contributions not to exceed the maximum allowable by law annually. The Company safe harbor contribution to the plan equals 100% of the participant's elective deferrals that do not exceed 4% of the participant's compensation.

Company profit sharing contributions to the Plan are discretionary as determined by the Employer.

Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts -

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participants are immediately vested in their voluntary contributions and safe harbor matching contributions, plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

(1) DESCRIPTION OF PLAN (continued):

Forfeitures -

At June 30, 2013 and 2012, forfeited non-vested accounts totaled $69,295 and $33,676, respectively. These accounts will be used to reduce future employer contributions. During the year ended June 30, 2013 and 2012 the Plan used $15,086 and $11,792 of forfeitures to reduce employer contributions.

Payment of Benefits -

A participant who is terminated by reason of death, disability, retirement, or any separation from service, shall receive the vested amount in their separate account as a lump-sum payment. The manner in which distribution is made shall be determined after consulting with the participant or beneficiary. Benefits are recorded when paid. The Plan also allows for in-service hardship withdrawals and employee loans under certain conditions.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Date of Management's Review -

Subsequent events were evaluated through January 30, 2014, which is the date the financial statements were available to be issued. See Note 12.

Estimates -

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Basis of Accounting -

The accompanying financial statements are prepared using the accrual method of accounting.

The JPMCB Stable Asset Inc investment is considered an investment contract. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract value basis.

Notes Receivable from Participants -

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Investment Valuation and Income Recognition -

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

(3) PARTICIPANT NOTES RECEIVABLE:

The Plan allows participants to borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or one-half of the value of their vested accrued benefits. Loans must bear a reasonable rate of interest and must be repaid over a reasonable period of time. Participant notes receivable outstanding at June 30, 2013 and 2012 were $602,438 and $551,204, respectively.

(4) FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for the asset, either directly or indirectly observable, that reflect assumptions market participants would use to price the asset based on market data obtained from sources independent of the plan, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used when Level 1 inputs are not available to the Plan. No Level 3 inputs were used by the plan.

Level 1 The fair value of registered investment companies (mutual funds) is based on quoted net asset values of the shares held by the Plan at year end.

Level 2 The JPMCB Stable Asset Inc fund is valued on the sum of the market value of all of the fund's investments.

(6) STABLE ASSET PORTFOLIO:

The Plan has a stable asset portfolio option that is considered a benefit-responsive guaranteed investment contract with JPMorgan. JPMorgan maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The stable asset portfolio is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by JPMorgan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2013 and 2012 was $1,632,671 and $1,523,483, respectively. The crediting interest rate is based on a formula agreed upon with the issuer.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(6) STABLE ASSET PORTFOLIO (continued):

	June 30, 2013	June 30, 2012
Average yields:		
Based on actual earnings	1.25%	1.56%
Based on interest rate credited to participants	1.78%	2.18%

(7) PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend, modify, or terminate the Plan or to suspend employer contributions at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

(8) TRANSACTIONS WITH PARTIES-IN-INTEREST:

Certain accounting fees and other administrative fees of the Plan are paid by the Company. Certain employees of the companies perform administrative services for the Plan. These employees receive no compensation from the Plan for these services. Certain Plan investments are funds managed by JPMorgan. JPMorgan is the Plan trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

(9) TAX STATUS:

The Plan has received a favorable determination letter from the Internal Revenue Service dated March 31, 2008. The plan has been further amended after this date. However, the Plan Administrator represents the plan, as amended, is currently being operated in compliance with applicable requirements of the Internal Revenue Code and is exempt from Federal income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax eliminations for years prior to 2010.

(10) RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(11) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:
