1. DESCRIPTION OF PLAN

The following description of the Dokken Engineering 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established in 1986 to provide eligible employees of Dokken Engineering, Inc. ("Company") with retirement benefits in accordance with section 401(k) of the Internal Revenue Code ("IRC"). The Plan covers all employees of the Company who have attained the age of 21. Employees may begin making salary deferrals on the first of the month following 30 days after their hire date. To be eligible for the employer matching contribution, participants must have been employed at the Company for 12 months, and have worked at least 1,000 hours during that period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Participants may elect to make tax deferred contributions to the Plan between 1% and 100% of their compensation each year, not to exceed the maximum allowed by the IRS of $17,500 for the plan year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company will make matching contributions each pay period once eligibility requirements have been met. The matching contribution will be 100% of the first 9% of the participant's base compensation that they elect to defer. The match is computed each pay period and is based on the contributions for that pay period only.

Participant Accounts - A separate account is maintained for each participant and is credited with the participant's contributions, the employer contribution, and an allocation of net earnings from investments and changes in investment values. Each participant may direct the investment of his or her account in any investment fund maintained by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions and vest in the employer contributions according to a six-year graded schedule. In order to receive vesting credit, participants must work a minimum of 1,000 hours during the fiscal year.

Once funds have been deposited in the Plan, they cannot be withdrawn unless the participant has a severe financial hardship. Hardship includes college tuition, purchasing a primary residence, or medical expenses. If a hardship withdrawal is taken, the participant will be barred from participating in the Plan for six months.

Loans to Participants – Participants may borrow up to 50% of their vested interest in their account in the form of a loan with a minimum of $1,000 and a maximum of $50,000. Loans bear interest at the U.S. Federal Prime Rate + 2%. All loans are to be repaid within five years from the date of the loan. Principal and interest shall be repaid, in a level amount, which will fully amortize the loan over its duration. Loans to participants are stated at the principal amount outstanding, which approximates fair value.

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits – Participants are entitled to the vested portion of their benefit upon termination or upon reaching the retirement age of 65. At retirement, participants are automatically vested in the employer matching contributions.

Forfeited Accounts – Forfeited amounts of unvested employer matching contributions are used by the Company to reduce future matching contribution obligations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments in registered investment companies are stated at fair value based on quoted market prices. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in guaranteed investment contracts are stated at contract value, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments included net unrealized and net realized gains and losses on investments during the Plan year and is presented net of investment expenses. Investment income is allocated to individual participants accounts based on the participant's share of the investment fund.

Payment of Benefits - Benefits are recorded when paid.

Administration Expenses – The Company pays all significant costs of the Plan.

5. FAIR VALUE MEASUREMENT

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosure*s, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1*:* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2*:* Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3*:* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of May 31:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
2013			
Registered Investment Companies	$159,938		
Pooled Separate Accounts		$11,672,021	
2012			
Registered Investment Companies	$8,386,977		
Common/collective Trusts		$1,822,627	

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will be 100% vested in their accounts.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the Mass Mutual Financial Group, the custodian of the Plan. Accordingly, these transactions qualify as party-in-interest transactions.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENTS

Management has evaluated all subsequent events from May 31, 2013 through March 13, 2014, the date the financial statements were available to be issued.
