REDNECK, INC. EMPLOYEES 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

August 31, 2013 and 2012

Note 1: Description of Plan

1. General: The Plan is a defined contribution plan covering all full-time employees of Redneck, Inc., (the Company), and certain affiliated businesses, who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustee is responsible for oversight of the Plan.
2. Contributions: Each year, participants may contribute amounts not to be less than 1% nor more than the maximum dollar amount or percentage specified by the Plan Administrator (if not specified, the maximum permitted by law) of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes to the Plan a discretionary percentage match. The actual percentage is determined by the Company prior to the beginning of each Plan Year. The participants direct the investment of the Company match. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors and the investment is directed by the participants. Contributions are subject to certain IRS limitations.

Supplemental Contributions: The Company may make optional contributions for any plan year at the discretion of its Board of Directors.

3. Participant Accounts: Each participant's account is credited with the participant's contribution, employer match and the allocation of (a) the Company's discretionary contribution, (b) Plan earnings, (c) forfeitures of terminated participants' nonvested accounts. Allocations of discretionary contributions, forfeitures and earnings related to forfeitures will be made in the ratio that the compensation of each participant bears to the total compensation of all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is fully vested after six years of credited service.
5. Investment Options - As discussed in Note 6, beginning June 6, 2011 the Plan has an investment contract with Transamerica Retirement Services (Transamerica). Upon enrollment in the plan, participants may direct their investments among the Transamerica Stable Value Core Option investment choices. This investment choice is not guaranteed by the FDIC or any other government agency. These investment choices seek to protect against any loss of principal while providing returns in excess of money market funds and one-year U.S. Treasury bills. The investment choices have a portfolio investment rate design in which all deposits in the particular investment choice are credited with the same interest rate on a daily basis, and with no set maturity. The effective credited interest rate is set monthly and effective on the first day of the month. Contract charges may reduce this return.

The participants may also invest in Separate Accounts. These separate accounts are not proprietary to Transamerica, except for the Transamerica Stable Value Core Option, and many invest exclusively in one underlying mutual fund traded on an established market. These separate accounts begin with a price determined by Transamerica, and the number of units issued are calculated to match the current fair market value of the underlying mutual fund holdings. This is known as unitizing the underlying assets. The price of each separate account investment will not match the price of the corresponding mutual fund. The rate of return of each will be consistent, taking into account any plan/participant expenses.

6. Participants may change their investment options daily.
7. Payment of Benefits: On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, immediate installment payments, or a plan-to-plan transfer.

Note 1: Description of Plan (continued)

8. **Forfeited Accounts:** Forfeited nonvested accounts are reallocated among participants in the ratio that the compensation of each participant bears to the total compensation of all participants in the year of forfeiture.
9. **Note Receivable from Participants:** Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Loan terms range 1 to 5 years or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at prime plus one percent. Principal and interest is paid ratably through bi-weekly or semi-monthly payroll deductions.

Note 2: Summary of Accounting Policies

- A. **Basis of Accounting:** The financial statements of the Plan are prepared using the accrual basis of accounting.
- B. **Estimates:** The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.
- C. **Investment Valuation:** The Plan's investments are stated at fair value, except for its investment contract which is valued at contract value (Note 6). Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Participants loans are valued at their outstanding balances, which approximate fair value.
- D. **Plan Termination:** Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.
- E. **Tax Status:** The Internal Revenue Service (IRS) has determined and informed the Company by letter dated June 1, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

- F. **Payment of Benefits:** Benefits are recorded when paid.

- G. Since the inception of the Plan, the following restatement and amendments have been adopted:
1. The Plan was amended and restated in its entirety on April 26, 2010, effective September 1, 2002.
 2. Amendment One: The Plan was amended effective September 1, 2011. The following changes were made:

Section 2.9 is amended to permit non-lead production employees of Redline Products, LLC to be eligible to participate in the Plan, provided they meet the other eligibility requirements of the Plan.

Section 2.11 is amended to provide that Four G's Ranch is now considered a participating employer.

Section 3.1 is amended to eliminate the one year of service requirement for purposes of making elective deferrals and participating in employer discretionary contributions.

Section 12.1 is clarified to say that participants cannot have more than one loan outstanding beginning February 1, 2012.
- H. Operating Expenses: All expenses of maintaining the Plan are paid by the Company.

Notes to Financial Statements (continued)

August 31, 2013 and 2012

Note 4: Costs Absorbed by Plan Sponsor

Redneck, Inc. incurred no administrative fees for the Plan during 2013 and 2012. The Plan uses forfeiture balances to pay plan expenses.

Note 5: Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at August 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the years ended August 31, 2013 and 2012 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Transamerica Retirement Services Company (the custodian of the Plan).

Note 6: Investment Contract with Insurance Company

Beginning, June 6, 2011, the Plan contracted with Transamerica Retirement Services for a fully benefit-responsive investment contract. Transamerica maintained the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses charged by Transamerica. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The contract is included in the financial statements at contract value, which approximates fair value, as reported to the Plan by Transamerica. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at August 31, 2013 and 2012 was \$2,402,269 and \$1,981,607, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for Transamerica.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields:		
Based on actual earnings	.995%	1.22%
Based on interest rate credited to participants	.995%	1.22%

Note 7: Related-Party Transactions:

Certain Plan investments are shares of mutual funds managed by Transamerica Retirement Services. Transamerica Retirement Services was the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees in the amount of \$7,950 and \$6,624 for August 31, 2013 and 2012, respectively to Transamerica for the investment management services during the year ended August 31, 2013 and 2012. The Plan Sponsor pays directly any fees related to the Plan's operation.

Notes to Financial Statements (continued)

August 31, 2013 and 2012

Note 8: Income Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service dated June 1, 2011, therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan files income tax returns in the U.S. federal jurisdiction. The Plan is no longer subject to U.S. federal income examination by tax authorities for years prior to August 31, 2009.

The Plan follows the provisions of uncertain tax positions as addressed in FASB Accounting Standards Codification 740-10-65-1. The Plan recognized no increase in the liability for unrecognized tax benefits. The Plan has no tax position at August 31, 2013 for which the ultimate deductibility is highly certain but for which there is uncertainty about the timing of such deductibility. The Plan recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses. No such interest or penalties were recognized during the periods presented. The Plan had no accruals for interest and penalties at August 31, 2013 and 2012.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at August 31, 2013 and 2012 to Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	\$ 15,356,740	13,654,154
Employer contributions receivable	(300,000)	(400,000)
Participant contributions receivable	-	-
Loan payments receivable	-	-
Net assets available for benefits per Form 5500	\$ 15,056,740	13,254,154

Note 11: Fair Value Measurements

Financial Accounting Standards Board (FASB) Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: (1) Quoted prices for similar assets or liabilities in active markets; (2) Quoted prices for identical or similar assets or liabilities in inactive markets; (3) Inputs other than quoted prices that are observable for the asset or liability; (4) Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements (continued)

Note 11: Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Valued at liquidation value based on actuarial formula as defined under the terms of the contract. No observable price.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2013 and 2012:

Assets at Fair Value as of:**August 31, 2013**
