Employee Retirement Savings Plan - Atrium Health System

Notes to Financial Statements June 3, 2013 and December 31, 2012 and 2011

Note 1 - Plan Description

The following description of Employee Retirement Savings Plan - Atrium Health System (the "Plan"), prior to its merging into the Employee Retirement Savings Plan - Premier Health Partners (see Note 8), provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of Atrium Health System (the "Plan Sponsor") and several organizations that are affiliated with the Plan Sponsor, including Atrium Health Center Foundation, MiddCare, Inc., and Partnership EAP, Inc. (collectively, the "Company"). The Plan, as restated January 1, 2011, is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants can contribute a portion of their compensation as a pretax contribution to the Plan, up to the maximum allowed under the Plan and the Internal Revenue Code. Participants may also make contributions to the Plan in the form of rollover funds from another qualified plan.

Participant Accounts - Each participant's account is credited with the participant contribution and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon.

Benefit Payments - Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Account balances less than \$1,000 are paid in a single lump sum upon termination without consent; however, participants always have the option, when applicable, to roll over their vested account balance and avoid any premature distribution penalties.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Metropolitan Life Insurance Company (MetLife), ING Life Insurance and Annuity Company (ING), Massachusetts Mutual Life Insurance Company (MassMutual), and Hartford Life Insurance Company (Hartford) or their affiliates. MetLife is a recordkeeper of the Plan and ING, MassMutual, and Hartford are trustees of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The pooled separate accounts and common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets. The guaranteed investment contract with MetLife is not considered benefit responsive and is presented at fair value. This guaranteed investment contract invests in the general assets of MetLife; however, since there are no specific securities in MetLife's general account related to this contract and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contracts, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The guaranteed investment contracts with ING are considered fully benefit responsive and are valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits (see Note 6). The fair values of the ING guaranteed investment contracts are based on contract value adjusted for certain contractual provisions. However, as of December 31, 2012 and 2011, contract value has been deemed to approximate fair value.

Employee Retirement Savings Plan - Atrium Health System

Notes to Financial Statements June 3, 2013 and December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

The remaining guaranteed investment contract was with Hartford, subsequently MassMutual. As described further in Note 3, in 2013 MassMutual acquired the retirement business of Hartford, including Hartford's guaranteed investment contracts. This guaranteed investment contract is a group annuity contract that invests in the general assets of the insurance company. MassMutual and Hartford considered this contract to be benefit responsive; however, since there are not specific securities in MassMutual's or Hartford's general accounts related to this contract and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. See Note 7 for additional information.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including February 21, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

In 2013, MassMutual acquired the retirement business of Hartford. MassMutual became the successor trustee of certain Plan assets. Previously Hartford was the trustee of certain Plan assets.

The trustees of the Plan, Reliance Trust Company, ING, MassMutual, and Hartford, held the Plan's investments and participant notes receivable and executed related transactions. The investments and participant notes receivable balances and related income and losses included in the accompanying financial statements and schedule of assets held at end of year are based solely on information provided by and certified by Metropolitan Life Insurance Company, acting as agent for Reliance Trust Company, ING, MassMutual Retirement Services, a division of MassMutual, and Hartford.

No investments were held as of June 3, 2013. Significant investments as of December 31 net assets are as follows:

	2012	2011
Mutual funds - Oakmark Equity and Income II	\$ 1,748,583	\$ 924,531

Note 4 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for 403(b) plan determination letters. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011. There were no Plan assets held as of June 3, 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Restatement - Due to a reevaluation of the significance of the inputs used in the valuation of the guaranteed investment contracts, it was determined that these investments previously classified as Level 3 should have been classified as Level 2 based on the fair value hierarchy. Accordingly, the 2011 fair value disclosures have been updated to reflect this change.

Note 5 - Fair Value Measurements (Continued)

- (1) This class represents investments in actively managed pooled separate accounts that invest primarily in money market funds that seek high current income consistent with maintaining liquidity and preserving capital. There were no unfunded commitments or redemption restrictions on these investments.
- (2) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities which may include common stocks, options, and futures. There were no unfunded commitments or redemption restrictions.
- (3) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. There were no unfunded commitments or redemption restrictions.
- (4) This class represents investments in actively managed pooled separate accounts or common collective trust funds with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. There were no unfunded commitments or redemption restrictions.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during the period from January 1, 2013 through June 3, 2013 or during 2012.

Note 6 - ING Guaranteed Investment Contracts

The Plan has benefit-responsive, guaranteed investment contracts with ING Life Insurance and Annuity Company (ING). ING, the contract issuer, maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the contract issuer, but may not be less than 3 percent. Such interest rates are reviewed on the contract year anniversary date.

Employee Retirement Savings Plan - Atrium Health System

Notes to Financial Statements June 3, 2013 and December 31, 2012 and 2011

Note 6 - ING Guaranteed Investment Contracts (Continued)

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan; or (iv) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable, except for the plan merger as described in Note 8. However, the guaranteed investment contracts with ING were not transferred. As these contracts have remained intact, the transfer as described represents a non-event with respect to ING's guaranteed investment contract.

The guaranteed investment contracts do not permit the contract issuer to terminate the contract prior to the scheduled maturity date.

As described in Note 2, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the guaranteed investment contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

	2012	2011
Average yields for the ING guaranteed investment contracts:		
ING Fixed Accounts based on actual earnings	3.21 %	3.16 %
ING GAA Accounts based on actual earnings	3.53 %	3.89 %
ING Fixed Accounts based on interest rate credited to participants	3.21 %	3.16 %
ING GAA Accounts based on interest rate credited to participants	3.53 %	3.89 %

Note 7 - Hartford Guaranteed Investment Contract

The Plan invests in a benefit-responsive guaranteed investment contract with Hartford Life Insurance Company (Hartford). Hartford maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Employee Retirement Savings Plan - Atrium Health System

Notes to Financial Statements June 3, 2013 and December 31, 2012 and 2011

Note 7 - Hartford Guaranteed Investment Contract (Continued)

Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return Hartford expects on new investments made by it and held with the Hartford general account. When establishing interest credit rates for these contracts, Hartford considers past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments. The crediting rate will always equal or exceed the contractually guaranteed rate.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3 percent for the Hartford contract. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Hartford. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (iv) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with the plan participants, is probable, except for the plan merger as described in Note 8. However, the guaranteed investment contract with Hartford was not transferred. As it has remained intact, the transfer as described represents a non-event with respect to this guaranteed investment contract.

Liquidation of the entire contract may cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from contract value. The unallocated insurance contract does not permit the insurance companies to terminate the agreement prior to the scheduled maturity. This total liquidation is a contingent event, which cannot be initiated by the plan participants and can only be initiated by the plan trustee upon termination of the Plan or complete termination of the contract.

Average yields for the Hartford guaranteed investment contract as of December 31, 2012 and 2011 are as follows:

	2012	2011
Average yield earned by the Plan	4.00%	3.30%
Average yield credited to participants	4.00%	3.30%

Note 8 - Plan Merger

In 2013, the Premier Health Partners Board of Directors approved a plan to merge the Employee Retirement Savings Plan - Atrium Health System into the Employee Retirement Savings Plan - Premier Health Partners (formerly the Employee Retirement Savings Plan - MedAmerica Health Systems). The merger took effect on June 3, 2013, and the Plan ceased to exist as a separate retirement plan at that time. All benefits, rights, and features of the Employee Retirement Savings Plan - Atrium Health System have been preserved under the merger.
