Notes to Financial Statements

1. Description of the Plan

The following description of the MediSave 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Merger

All of the stock of Medicity, Inc. (the Plan Sponsor or Employer) was acquired by Aetna on January 3, 2011. In conjunction with this transaction, Plan management made the decision to merge all assets of the Plan into the parent company's retirement plan and effectively terminate the Plan. The Plan Sponsor discontinued all contributions into the Plan as of June 30, 2012 according to its right under the provisions of ERISA. Effective September 1, 2012, the Plan was frozen and all participants became 100% vested in their accounts. All Plan assets were transferred to a plan sponsored by Aetna effective July 12, 2013. In accordance with accounting principles generally accepted in the United States of America (US GAAP), the Plan changed its basis of accounting used to value Plan assets from the ongoing plan basis to the liquidation basis for the period January 1, 2013 to July 12, 2013.

General

The Plan was a defined contribution 401(k) plan covering all employees of the Plan Sponsor, who were 21 years of age or older. The Plan became effective January 1, 2006 and was most recently amended October 7, 2009. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

No contributions were made to the Plan during 2013. Contributions were discontinued as of June 30, 2012 as a result of Plan participants becoming enrolled in a plan offered by Aetna.

Participant Accounts

Prior to the discontinuation of contribution activity, each participant's account was adjusted for participant contributions, the Employer's contributions, and an allocation of the Plan's actual earnings or losses and administrative expenses specifically associated with the participant's investment account. Subsequent to the discontinuation of contribution activity, participant account balances were affected by earnings, distributions, and expenses only. The benefit to which participants were entitled upon their termination was the vested balance in the participants' accounts.

Vesting

Participants were vested immediately in their contributions plus actual earnings thereon. Employer discretionary matching contributions vested at a rate of 20% per year over 5 years of service. All Employer discretionary matching contributions became 100% vested as of September 1, 2012.

Payment of Benefits

Upon a participant's death, disability, retirement or termination of employment, the trustee would generally distribute the vested account balance in a single, lump-sum cash payment to the participant or his/her beneficiaries. Participants who terminated with a vested balance of less than \$1,000 were automatically required to remove their funds from the Plan.

Forfeitures

Forfeitures of nonvested participant account balances could be used to pay Plan administrative expenses or to offset Employer contributions. In the event forfeitures were used to reduce an Employer discretionary matching contribution and the forfeitures exceeded such contribution, then the remaining forfeitures would be allocated as an additional discretionary contribution. As of July 12, 2013 and December 31, 2012, the balance of the forfeiture account was \$0 and \$20,404, respectively. Earnings on the forfeiture account totaled \$105 for the period January 1, 2013 to July 12, 2013. Forfeited funds totaling \$10,954 were used to pay administrative expenses, and forfeited funds totaling \$9,555 were used to pay accounting fees for the period January 1, 2013 to July 12, 2013. No forfeited funds were used to reduce Employer contributions or to pay an additional discretionary contribution for the period January 1, 2013 to July 12, 2013.

Administrative Expenses

Plan administrative expenses could be paid by the Plan or by the Plan Sponsor at the Plan Sponsor's option. During the period January 1, 2013 to July 12, 2013, the Plan paid \$20,171 in administrative expenses.

Significant
Accounting
Policies**

Basis of Accounting

For the period from January 1, 2013 to July 12, 2013, the Plan's basis of accounting was the liquidation basis. There were no material differences in the Plan's financial statements as a result of using the liquidation basis of accounting for the period January 1, 2013 to July 12, 2013.

Policies**

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds were stated at fair value based on quoted market prices. The investment contract with an insurance company was also stated at fair value, which was measured based upon the market value of similar securities and other observable inputs.

Purchases and sales of securities were recorded on a trade-date basis. The net appreciation in the fair value of investments, which includes realized gains and losses and unrealized appreciation or depreciation on those investments, is presented in the statement of changes in assets in liquidation available for benefits of the Plan. Dividends and interest were reinvested as earned.

Payment of Benefits

Benefits are recorded when paid by the Plan.

Subsequent Events

The Plan Administrators have evaluated events occurring subsequent to July 12, 2013 and through November 12, 2013, the date the financial statements were available to be issued.

**3. Investment
Contract with
Insurance
Company**

During the year ended December 31, 2012, the Plan had a fully benefit-responsive investment contract with American United Life Insurance Company (AUL). The contributions were maintained in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fair value of this contract was materially equivalent to the contract value, as reported to the Plan by AUL. Contract value represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. AUL was contractually obligated to repay the principal and a specified crediting rate that is guaranteed to the Plan. At the beginning of each year, a new crediting rate was established. The crediting rate as of December 31, 2012 was 1.69%. For the period January 1, 2013 to July 12, 2013, the contract had a yield of 2.05%.

**3. Investment
Contract with
Insurance
Company**
Continued

Participants ordinarily could direct the withdrawal or transfer of all or a portion of their investment at contract value. There were no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events would generally limit the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan; (2) changes to the Plan's prohibition on competing investment options; (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Upon any such liquidation, Plan participants would receive contract value subject to a positive or negative market value adjustment applicable upon contract termination with AUL.

On July 12, 2013, all amounts held by participants in the investment contract were liquidated, resulting in a positive market value adjustment of \$39,329.

**4. Plan

The following table separately presents investments (at fair value) that represent 5% or more of the Plan's assets available for benefits as of December 31, 2012. All investments were participant directed.

- Mutual funds and the investment contract with the insurance company held by the Plan prior to the Plan's merger appreciated in value by \$648,427 and \$39,329, respectively, during the period from January 1, 2013 to July 12, 2013.
- 5. Fair Value Measurement**
- Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, the fair value hierarchy prioritizes observable and unobservable inputs used to measure fair value into three broad levels. These levels, in order of highest priority to lowest priority, are described as follows:
- Level 1 – Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities.
 - Level 2 – Observable prices other than Level 1 that are based on inputs quoted in less active markets or other observable inputs that can be corroborated by observable market data.
 - Level 3 – Unobservable inputs supported by little or no market data for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

5. Fair Value Measurement
Continued

The following table summarizes the Plan's assets that were required to be measured at fair value as of December 31, 2012. Based upon the Plan merging with an Aetna plan on July 12, 2013, there were no assets measured at fair value in the Plan on the close of day on July 12, 2013.

	<u>\$ 5,380,157</u>	<u>\$ 710,001</u>	<u>\$ -</u>	<u>\$ 6,090,158</u>

6. Party-In-Interest Transactions

Certain Plan investments were managed by AUL. AUL was the trustee of the Plan and, therefore, these transactions qualified as party-in-interest transactions.

7. Income Tax Status

The Plan was a standardized prototype plan. The Internal Revenue Service (IRS) issued an opinion letter dated March 31, 2008, in which the IRS stated that the standardized plan, as then designed, was acceptable under Section 401 of the IRC. The Plan was amended since receiving the opinion letter. The Plan Administrators believe that the Plan continued to operate in accordance with the requirements to qualify for tax-exempt status through July 12, 2013. Accordingly, no provision for income taxes is included in the accompanying financial statements.

MEDISAVE 401(k) PLAN

**7. Income Tax
Status**
Continued

US GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by taxing authorities. The Plan's management analyzed the tax positions taken by the Plan and concluded that as of July 12, 2013, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by tax jurisdictions for years for which the applicable statutes of limitation have not expired; however, there are currently no audits in progress. The Plan's management believes the Plan is no longer subject to income tax examinations for years prior to 2010.

**8. Information
Certified by
the Trustee**

All investment balances disclosed in the accompanying financial statements, the net appreciation in the fair value of investments for the period January 1, 2013 to July 12, 2013, and all investment transactions for the same period, were obtained or derived from information certified as complete and accurate by AUL, the trustee of the Plan.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.
