ARMELLINI EXPRESS LINES, INC. AND SUBSIDIARIES PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of the *Armellini Express Lines, Inc. and Subsidiaries Profit Sharing Plan* (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Description of the Plan

General

The Plan is a defined contribution plan covering all employees of *Armellini Express Lines, Inc. and Subsidiaries* (the "Company") who have completed two months of service and are at least eighteen years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was adopted on January 1, 1986. The Plan qualifies as a 401(k) plan subject to Sections 401(a), 401(k), and 501(a) of the Internal Revenue Code.

Contributions

Each year participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan agreement up to the maximum amount permitted by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company, at its discretion, may make a profit sharing contribution to the Plan at an amount equal to a percentage of the participants' annual compensation. No such profit sharing contributions were made in 2013 or 2012. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers mutual funds, a common collective trust, and pooled separate accounts as investment options for participants. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's profit sharing contribution (when made), (b) Plan earnings and (c) forfeitures of terminated participants nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their 401(k) voluntary contributions plus actual earnings thereon. Vesting in the Company profit sharing contribution is based on years of service. A participant is 100 percent vested after six years of credited service.

NOTES TO FINANCIAL STATEMENTS

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes receivable are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with local prevailing rates as determined by the prime rate of interest at the time of the loan. Principal and interest is paid ratably through payroll deductions. Delinquent notes receivable become a distribution to the participant regardless of whether or not a distributable event has occurred when payment of principal and interest remains unpaid for more than 90 days after due.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installment payments, as defined by the Plan agreement. In-service withdrawal of vested balances may be elected by participants who have reached 59 ½ years of age. The Plan also permits withdrawals of active participants' elective contributions and rollover contributions only in amounts necessary to satisfy financial hardship as defined by the Plan agreement.

Forfeited Accounts

At June 30, 2013 and 2012, forfeited nonvested accounts totaled $5,624 and $19,410, respectively. These accounts will be reallocated to participants in the same manner as Company profit sharing contributions. During 2013 and 2012, forfeited nonvested accounts in the amount of $19,410 and $25,665, respectively have been reallocated to participants.

Administrative Expenses

The Plan's administrative expenses, including an allocation of salaries, accounting, and legal, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Fees for custodial and record keeping services are paid by the Plan. Participants are charged directly for fees related to notes receivable from participants.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

NOTES TO FINANCIAL STATEMENTS

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by investment custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in aggregate fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Certain management fees and operating expenses charged to the Plan for investments in mutual funds and pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation or an addition to net depreciation in the aggregate fair value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distribution based upon the terms of the Plan agreement.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ("ASU") 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which includes several new fair value disclosure requirements, including, among other things, information about valuation techniques and unobservable inputs used in Level 3 fair value measurements. The adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits, as changes are related to fair value measurement disclosures.

NOTES TO FINANCIAL STATEMENTS

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to June 30, 2013, the most recent statement of net assets available for benefits presented herein, through March 21, 2014 the date these financial statements were available to be issued. No significant such events or transactions were identified.

2. INVESTMENTS

Net appreciation (depreciation)	**$ 1,376,462**	**$ (124,843)**

3. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification, *Fair Value Measurements and Disclosures*, establishes the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. Based on additional information management obtained in 2013 detailing the valuation process used by Principal, certain investments have been reclassified and transferred to represent the levels Plan management believes are appropriate as of June 30, 2013. As a result of such reclassification, Plan management transferred its common collective trust account of $5,014,380 from Level 3 to Level 2 during 2013. Refer below for the detail of transfers out of Level 3 investments.

Mutual funds: Shares held in mutual funds are valued at quoted market prices that represent the net asset value ("NAV") of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities then divided by the number of shares outstanding.

Common collective trust: Shares held in the common collective trust are valued using the net asset value ("NAV") as provided by Principal. Such investment is classified as Level 2 as of June 30, 2013 and as Level 3 as of June 30, 2012. The NAV is based on the underlying assets owned by the common collective trust, which consists of a guaranteed investment contract.

Pooled separate accounts: These investments are valued using the NAV of units held by the Plan at year-end as provided by Principal and are classified as Level 2. The NAV is based on the fair value of the underlying assets owned by the account net of investment management fees.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at June 30:

Fixed income funds: These funds include investments that seek to provide income by investing in intermediate and long-term bonds issued by corporations, the U.S. government and its agencies.

Principal stable value fund: This fund seeks to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit responsive plan or participant payments by investing primarily in bonds issued by the U.S. government and cash equivalents.

NOTES TO FINANCIAL STATEMENTS

4. RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Principal Life Insurance Company ("Principal"). Principal is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the custodial and record keeping services amounted to $6,810 and $6,239 for 2013 and 2012, respectively. Fees paid by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments.

5. INCOME TAX STATUS

The Company's Board of Directors adopted the Prototype Non-standardized Profit Sharing Plan with CODA plan document. The Plan document has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified; the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2013 , there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTES TO FINANCIAL STATEMENTS

7. RISKS AND UNCERTAINTIES

The Plan invests in mutual funds, pooled separate accounts, and a common collective trust with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits reported in these financial statements to the amounts reported on Schedule H to the Form 5500 at June 30:

	2013	2012
Net assets available for benefits reported in these financial statements	$ 15,095,652	$14,560,374

Net assets available for benefits reported on Schedule H to Form 5500	**$ 15,130,406**	**$14,684,056**

The following is a reconciliation of net appreciation (depreciation) in fair value of investments in these financial statements to the amounts reported on Schedule H to the Form 5500 for the years ended June 30:
