Note 1. Description of Plan

The following description of the Witt/Kieffer, Ford, Hadelman & Lloyd Savings and Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Witt/Kieffer, Ford, Hadelman, & Lloyd Corp. (the Company) who have completed 30 days of service and are at least 21 years of age. The Plan is designed as a qualified cash deferral arrangement pursuant to Section 401(k) of the Internal Revenue Code (IRC). Employees may begin contributing to the Plan on the first day of the following month upon meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan, subject to IRC limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Any newly eligible employees are automatically enrolled in the Plan with elective deferrals set to 5 percent of their eligible compensation. Participants have the option to increase, decrease or eliminate their automatic enrollment contribution at any time. Effective January 1, 2013, an Automatic Savings Increase Program was added to the Plan whereby each eligible participant (which is limited to new participants auto enrolled in the Plan or those participants who were previously auto enrolled in the Plan) whose elective deferral percentage as of January 1st of any year is below 15% automatically will have his/her elective deferral percentage increased by 1% on each January 1st until his/her elective deferral percentage equals 15%. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. For participants who are employed on the last day of the year, the Company may match 25 percent of the first 5 percent of compensation, subject to the IRC limitations, that a participant contributes to the Plan, except for any catch-up contributions, at the discretion of the Company's board of directors. Additional profit-sharing amounts may be contributed to eligible employees who have completed one year of service and are employed at the end of the year, at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution, if any, and allocations of the Company's profit-sharing contributions, if any, plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, participants are responsible for determining the type and nature of their investments within the guidelines established by the Plan's Profit Sharing Committee. A participant may elect to have their accounts invested in any one or a combination of investment options offered by the Plan.

Vesting: Participants are immediately vested in their contributions, the Company's matching contributions, and actual earnings or losses thereon. Vesting of the Company's profit-sharing contributions plus actual earnings or losses thereon is 20 percent after two years of credited service, and increases by 20 percent for each of the next four years of credited service. A participant is 100 percent vested after six years of credited service. Participants are automatically fully vested upon normal retirement, death, permanent disability, or termination of the Plan.

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Participants are allowed a maximum of three loans outstanding at any time. Loans are repaid through bi-weekly payroll deductions within five years or longer if it is determined at the time of the loan that the proceeds will be used for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at rates that range from 3.25 to 8.25 percent, which are commensurate with local prevailing rates at the time of the loan origination as determined by the Plan Administrator.

Payment of benefits: On termination of service due to disability, retirement, or for other reasons except death, a participant may elect to receive the vested interest in his or her account as a lump-sum distribution. Upon death, a beneficiary may elect to receive either a lump-sum distribution or installment payments.

Forfeited accounts: At June 30, 2013 and 2012, forfeited non-vested accounts totaled $8,896 and $15,954, respectively. These accounts will be used to pay for the Plan's administrative expenses. Forfeiture accounts which are not used to pay administrative expenses will be used to reduce Company contributions, if any. In the event of termination of employment before full vesting, the non-vested portion of the Company's contributions is held in suspense until either a lump-sum payment of the participants' vested portion of their account balance, or five consecutive one-year "breaks in service" have occurred, if earlier. If the participant should return to employment while the non-vested portion is still in suspense, the non-vested portion is reinstated. For the year ended June 30, 2013, forfeited non-vested accounts were used to pay for administrative expenses in the amount of $22,055.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Profit Sharing Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants: The notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses of the Plan are paid by the Plan as provided in the plan document. Certain other administrative expenses are paid by the Company on behalf of the Plan, without reimbursement.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The requirements of this pronouncement did not impact the Plan's fair value disclosures.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

The following is a summary of the Plan's asset information as of June 30, 2013 and 2012, and for the year ended June 30, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Charles Schwab Bank, the trustee, that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of its knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Charles Schwab Bank also certified to the completeness and accuracy of the following income related to the aforementioned plan assets for the year ended June 30, 2013:

Net appreciation in fair value of investments	$ 3,612,592
Dividends	$ 946,803
Interest income on notes receivable from participants	$ 13,640

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2013 and 2012.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Units of common/collective trusts: Valued based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2013 and 2012:

	2013

	Fair Value		Unfunded	Redemption	Redemption
Investment	2013	2012	Commitment	Frequency	Notice Period
Units of common/collective trusts

Stable value (b)	4,269,987	3,922,646	-	Daily	12 months

(a) Emphasis on return potential while balancing risk of worst case scenarios and inflation protection.
(b) Seeks to provide a stable rate of return with preservation of principal and liquidity.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended June 30, 2013, there were no transfers in or out of Level 3.

Note 6. Related-Party Transactions

Certain plan investments are shares of registered investment companies and units of common/collective trusts managed and issued by Charles Schwab Bank or its affiliates. Charles Schwab Bank is the Plan's trustee; therefore, these transactions qualify as party-in-interest transactions. In addition, an affiliate of the trustee of the Plan is providing plan administration services to the Plan. Fees incurred by the Plan for some of the services provided by Charles Schwab Bank and its affiliates are reflected in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan made a direct payment for these services to the trustee or its affiliates of $38,090 for the year ended June 30, 2013.

Note 6. Related-Party Transactions (Continued)

Certain employees of the Company serve on a Profit Sharing Committee and perform administrative services for the Plan. These employees receive no compensation from the Plan for these services. The Company pays certain administrative fees of the Plan without reimbursement.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

Note 8. Income Tax Status

Effective July 1, 2009, the Plan adopted a restatement to the non-standardized form of a prototype plan sponsored by Charles Schwab Bank. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is currently operating in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at June 30, 2013 and 2012:

Net assets available for benefits per the Form 5500	$ 44,092,010	$ 36,384,627

Note 10. Reconciliation of Financial Statements to Form 5500 (Continued)

The following is a reconciliation of the changes in net assets available for benefits for the year ended June 30, 2013, per the financial statements to Form 5500:

Changes in net assets available for benefits per the Form 5500	$ 7,707,383

Note 11. Subsequent Event

On September 25, 2013, the Plan was amended effective October 1, 2013, to add Roth after-tax elective deferrals to the Plan.

The Plan Administrator has evaluated subsequent events through March 24, 2014, the date the financial statements were available to be issued.
