Note 1: Description of the Plan

The following description of the Retirement Plan for Employees of Somerset Community Hospital (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the plan administrator.

General

The Plan is a noncontributory, trustee, defined benefit retirement plan covering certain employees of Somerset Hospital (the "Plan Sponsor") who have attained the age of 21 and have one year of service with at least 1,000 hours of service.

The Plan Sponsor previously determined that no employee who is hired after December 31, 2003, shall be eligible to participate in the Plan. As of June 30, 2008, all benefit accruals have been frozen. Refer to the *Summary Plan Description* for more detail regarding the transition from the freeze on plan entry to the final freeze on benefit accruals.

The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan Sponsor has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to plan members. The Plan Sponsor's present intention is to make contributions in amounts sufficient to fund the Plan's normal costs on a current basis and to fund prior service costs over periods permitted by ERISA. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Benefits under the Plan are based on employees' five highest compensation years during their last ten years of credited service. Normal retirement occurs at age 65, but early retirement with a reduced benefit may be elected at age 55 with at least five years of service. An employee becomes fully vested in the Plan on completion of five years of service. Benefits upon retirement are paid in the form of an annuity. Effective June 1, 2012, the Plan was amended to add a lump sum distribution form of payment. Participants with a present value of benefits of \$1,000 or less automatically receive a full distribution of the value of their benefit in a lump sum payment from the Plan. Participants with a present value of benefits exceeding \$1,000 and not greater than \$5,000 will receive an automatic rollover absent of an affirmative election to an IRA or elective lump sum full distribution of the value of their benefit from the Plan. Benefits for retired or terminated employees, or their beneficiaries, are calculated based on the length of service and the level of compensation earned by the retiring or terminated employee. Effective April 23, 2012, the Plan was amended to extend the pre-retirement death benefit provided to married participants to unmarried participants.

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Benefits attributable to employee contributions, taking into account those paid out before termination.
- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- Vested benefits not insured by the PBGC.
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Retirement Plan for Employees of Somerset Community Hospital

Notes to Financial Statements

June 30, 2013 and 2012

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are carried at fair value in the accompanying financial statements. Investments in securities (exchange traded funds) traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. Investments in hedge funds are reported at fair value and are based upon the net asset value (NAV) per share of the underlying investments as reported by the partnership fund managers.

Cash equivalents include U.S. Treasury obligations with original maturities of three months or less. The carrying value reported in the statement of net assets available for benefits approximates fair value.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Plan Sponsor or the Plan, at the Plan Sponsor's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see *Note 4*) are those estimated future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Present employees or their beneficiaries

Retirement Plan for Employees of Somerset Community Hospital

Notes to Financial Statements

June 30, 2013 and 2012

Benefits under the Plan are based on employees' five highest compensation years during their last ten years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances – retirement, death and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Plan Tax Status

The Plan obtained its latest determination letter on July 31, 2011, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan (and related trust) are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to federal, state and local income tax examinations by tax authorities for years before 2010.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on period ending date.

Note 3: Investments

The Plan's investments are held by Somerset Trust Company as of June 30, 2013 and 2012. The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows:

Alternative Investments

The fair value of alternative investments has been estimated using the net asset value (NAV) per share of the investments. Alternative investments held at June 30 consist of the following:

Retirement Plan for Employees of Somerset Community Hospital

Notes to Financial Statements

June 30, 2013 and 2012

Archstone Offshore Fund, Ltd.

The Plan had an investment in this fund of \$1,018,075 and \$894,510 at June 30, 2013 and 2012, respectively. The fund was formed primarily with the purpose of achieving long-term growth of capital with reduced volatility by allocating its capital among various money managers that, as a group, employ a variety of investment techniques and strategies. The fund is a multi-manager, multi-strategy fund of funds formed to invest predominantly in limited partnerships and similar pooled investment vehicles. After an initial one year lock-up period that ended February 1, 2009, the fund is subject to quarterly redemption with a 90-day redemption notice period. As of June 30, 2013 and 2012, there were no unfunded commitments associated with this investment.

Note 4: Accumulated Plan Benefits

An actuary from Buck Consultants, LLC determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of July 1 of each plan year was as follows:

	2013	2012
Actuarial present value of accumulated plan benefits:		
Vested benefits		
Participants currently receiving payments	\$ 8,276,620	\$ 7,610,081

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

The Plan's investments are held by Somerset Trust Company. Somerset Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan incurred fees of \$33,809 and \$31,116 for trust department services in 2013 and 2012, respectively.

The Plan Sponsor provides certain administrative services at no cost to the Plan.

Note 6: Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2013 and 2012:

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended June 30, 2013. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds, exchange traded funds and cash equivalents. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Such securities are classified in Level 2 of the valuation hierarchy. Level 2 securities include hedge funds. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include hedge funds. See *Note 2* for inputs and valuation techniques used to determine fair value.

The value of certain investments, classified as hedge funds, is determined using net asset value (or its equivalent) as a practical expedient. Investments for which the Plan expects to have the ability to redeem its investments with the investee within 12 months after the reporting date are categorized as Level 2. Investments for which the Plan does not expect to be able to redeem its investments with the investee within 12 months after the reporting date are categorized as Level 3.

Notes to Financial Statements

June 30, 2013 and 2012

Fair value determinations for Level 3 measurements of securities are the responsibility of the Plan Sponsor. The Plan Sponsor challenges the reasonableness of the assumptions used and reviews the methodology to ensure that estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

Change in net assets available for benefits per Form 5500	<u>\$ 2,237,166</u>	<u>\$ (1,008,807)</u>

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 9: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
