National Church Residences 3-4-5 Retirement Plan

Notes to Financial Statements June 30, 2013 and 2012

Note I - Plan Description

The following description of National Church Residences 3-4-5 Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan available to substantially all employees of National Church Residences and National Affordable Housing Trust, Inc. who have completed one year of service and have attained the age of 21. Eligible employees can begin making deferrals immediately upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by National Church Residences (the "Company").

Contributions - The Company is required to contribute an amount equal to 3 percent of each participant's compensation each pay period for all participants with at least 1 year of service but less than 5 years of service, 4 percent of each participant's compensation each pay period for all participants with at least 5 years of service but less than 10 years of service, and 5 percent of each participant's compensation each pay period for all participants with at least 10 years of service.

In addition, the Company is required to contribute a matching contribution equal to 100 percent of the participant's contributions to a separate defined contribution savings plan sponsored by the Company. The Company's contribution is limited to 3 percent of total compensation for each pay period for all participants with at least 1 year of service but less than 5 years of service, 4 percent of compensation for each pay period for all participants with at least 5 years of service but less than 10 years of service, and 5 percent of compensation for each pay period for all participants with at least 10 years of service.

Participants are not eligible to contribute to the Plan, with the exception of rollover contributions.

Participant Accounts - The allocation of the Company's basic contribution is based on compensation. Company matching contributions are allocated based on each participant's deferral to a separate defined contribution savings plan sponsored by the Company. Allocation of earnings and expenses is based on participants' account balances. The benefit to which a participant is entitled is that provided from the participant's vested account. All amounts in participant accounts are participant-directed.

Vesting - Vesting of the Company's contributions and related earnings is based on years of service and accumulates 25 percent per year after two years of service. A participant is fully vested in the basic and matching contributions after five years of credited service.

National Church Residences 3-4-5 Retirement Plan

Notes to Financial Statements June 30, 2013 and 2012

Note 1 - Plan Description (Continued)

Participant Notes Receivable - The Plan allows a participant to borrow money from the Plan in amounts not to exceed one-half of the participant's vested account balance. Participants cannot have more than one note receivable from the Plan at any time and initial notes must be for at least \$1,000 with a maximum of \$50,000, as determined by the Internal Revenue Service (IRS).

Payment of Benefits - Participants or their beneficiaries are entitled to receive 100 percent of their vested portions of Company contributions and related earnings upon attaining normal retirement (age 65), death, or disability. Termination of employment with the Company entitles the participant to the vested portion of Company contributions plus earnings thereon. Participants over age 59½ are eligible to receive all or a portion of their vested balances, excluding any earnings earned after December 31, 1988.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan agreement. The Company must approve any such hardship withdrawals.

Forfeitures - Upon termination of employment, a participant's nonvested portion of Company contributions and related earnings is forfeited. These amounts are used to reduce future Company contributions or to defray administrative expenses of the Plan. The plan held \$234,776 in unused forfeitures as of June 30, 2013.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its benefit-responsive common collective trust fund, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the Wells Fargo Stable Value common collective trust (CCT) fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. All other investments are valued based on quoted market prices. See Note 6 for more information.

National Church Residences 3-4-5 Retirement Plan

Notes to Financial Statements June 30, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

The CCT has certain limitations on withdrawals and exchanges. Withdrawals made in order to accommodate distributions to participants or transfers to noncompeting investments may be made on any business day. Transferred amounts must be held in a noncompeting investment option for 90 days before subsequent transfers to a competing fund can occur.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including February 18, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Common collective trust fund - Wells Fargo Stable Value Fund - At contract value	4,299,313	4,330,936

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although, the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 5 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to the common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500 in 2012. The net assets on the financial statements were lower than those on Form 5500 at June 30, 2012 by \$119,014. The increase in net assets on Form 5500 for the year ended June 30, 2013 was lower than on the financial statements by \$119,014.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

National Church Residences 3-4-5 Retirement Plan

Notes to Financial Statements June 30, 2013 and 2012

Note 6 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at June 30, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

National Church Residences 3-4-5 Retirement Plan

Notes to Financial Statements June 30, 2013 and 2012

Note I - Plan Description

The following description of National Church Residences 3-4-5 Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan available to substantially all employees of National Church Residences and National Affordable Housing Trust, Inc. who have completed one year of service and have attained the age of 21. Eligible employees can begin making deferrals immediately upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by National Church Residences (the "Company").

Contributions - The Company is required to contribute an amount equal to 3 percent of each participant's compensation each pay period for all participants with at least 1 year of service but less than 5 years of service, 4 percent of each participant's compensation each pay period for all participants with at least 5 years of service but less than 10 years of service, and 5 percent of each participant's compensation each pay period for all participants with at least 10 years of service.

In addition, the Company is required to contribute a matching contribution equal to 100 percent of the participant's contributions to a separate defined contribution savings plan sponsored by the Company. The Company's contribution is limited to 3 percent of total compensation for each pay period for all participants with at least 1 year of service but less than 5 years of service, 4 percent of compensation for each pay period for all participants with at least 5 years of service but less than 10 years of service, and 5 percent of compensation for each pay period for all participants with at least 10 years of service.

Participants are not eligible to contribute to the Plan, with the exception of rollover contributions.

Participant Accounts - The allocation of the Company's basic contribution is based on compensation. Company matching contributions are allocated based on each participant's deferral to a separate defined contribution savings plan sponsored by the Company. Allocation of earnings and expenses is based on participants' account balances. The benefit to which a participant is entitled is that provided from the participant's vested account. All amounts in participant accounts are participant-directed.

Vesting - Vesting of the Company's contributions and related earnings is based on years of service and accumulates 25 percent per year after two years of service. A participant is fully vested in the basic and matching contributions after five years of credited service.

National Church Residences 3-4-5 Retirement Plan

Notes to Financial Statements June 30, 2013 and 2012

Note 1 - Plan Description (Continued)

Participant Notes Receivable - The Plan allows a participant to borrow money from the Plan in amounts not to exceed one-half of the participant's vested account balance. Participants cannot have more than one note receivable from the Plan at any time and initial notes must be for at least \$1,000 with a maximum of \$50,000, as determined by the Internal Revenue Service (IRS).

Payment of Benefits - Participants or their beneficiaries are entitled to receive 100 percent of their vested portions of Company contributions and related earnings upon attaining normal retirement (age 65), death, or disability. Termination of employment with the Company entitles the participant to the vested portion of Company contributions plus earnings thereon. Participants over age 59½ are eligible to receive all or a portion of their vested balances, excluding any earnings earned after December 31, 1988.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan agreement. The Company must approve any such hardship withdrawals.

Forfeitures - Upon termination of employment, a participant's nonvested portion of Company contributions and related earnings is forfeited. These amounts are used to reduce future Company contributions or to defray administrative expenses of the Plan. The plan held \$234,776 in unused forfeitures as of June 30, 2013.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its benefit-responsive common collective trust fund, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the Wells Fargo Stable Value common collective trust (CCT) fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. All other investments are valued based on quoted market prices. See Note 6 for more information.

National Church Residences 3-4-5 Retirement Plan

Notes to Financial Statements June 30, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

The CCT has certain limitations on withdrawals and exchanges. Withdrawals made in order to accommodate distributions to participants or transfers to noncompeting investments may be made on any business day. Transferred amounts must be held in a noncompeting investment option for 90 days before subsequent transfers to a competing fund can occur.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including February 18, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although, the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 5 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to the common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500 in 2012. The net assets on the financial statements were lower than those on Form 5500 at June 30, 2012 by \$119,014. The increase in net assets on Form 5500 for the year ended June 30, 2013 was lower than on the financial statements by \$119,014.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.
