INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
the iQor Retirement Savings Plan
(Sponsored by iQor, Inc.)

We have audited the accompanying statements of net assets available for benefits of iQor Retirement Savings Plan as of December 31, 2008 and 2007, and the statements of changes in net assets available for benefit and the related notes to the financial statements for the years then ended.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

Except as discussed in the following paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

"GOING BEYOND THE NUMBERS"

Because of inadequacies in the Plan's prior year records, we were unable to perform auditing procedures with respect to individual participant account balances accumulated from inception of the Plan through December 31, 1999 or to satisfy ourselves as to the basis on which participants' equity is stated at that date. In addition, due to the inadequacy of the Plan's records, we were unable to perform auditing procedures related to the Plan verifying the proper circumstances were met for issuing hardship withdrawals and loans during the years ended December 31, 2008.

Qualified Opinion

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to perform procedures with respect to the prior year's participant account balances and loan and hardship withdrawal documentation, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of iQor Retirement Savings Plan as of December 31, 2008 and 2007, and the changes in its net assets available for benefit for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules listed in the accompanying index are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. . Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effects of such adjustments on the schedule of assets held for investments, if any, as might have been determined to be necessary had we performed procedures with respect to the information as described in the second preceding paragraph, are fairly stated in all material respects in relation to the basic financial statements taken as a whole

1. Description of the Plan

General

The IQOR Retirement Savings Plan (formerly known as IntelliRisk Management Corporation Retirement Savings Plan) (the “Plan”), is a defined contribution plan covering certain employees of IntelliRisk Management Corporation (currently known as IQOR, Inc. and formerly known as IRMC, Inc.) and its wholly owned subsidiaries (the “Employer”). Employees are eligible to participate in the Plan upon the attainment of age 18. Employees received credit for purposes of eligibility for the time they worked for any of the IntelliRisk Management Corporation subsidiaries that were merged into the Plan.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Amendment

On April 1, 2008, the Plan was amended. The amendments included a name change to the Plan and the employer/Plan sponsor as noted above. In addition, the amendment added a provision to allow for Roth 401k contributions (see contributions below). The Plan also added an exclusion for certain executives. The amendments have no impact on benefits to the participants.

Contributions

Employer’s contribution

Effective January 1, 2007, the Plan was amended to exclude Employer’s matching contributions in the Plan. The Employer may make a non-elective employer contribution to those participants who are employed on the last day of the Plan year and have earned at least 1,000 hours of service during the Plan year. For the Plan years ended December 31, 2008 and 2007, the Employer did not make a non-elective contribution.

Participant’s voluntary contributions

A participant may elect to make a voluntary tax-deferred contribution of 1% to 70% of his or her annual compensation up to the maximum permitted under Section 402(g) of the Internal Revenue Code adjusted annually (\$15,500 at December 31, 2008). This voluntary tax-deferred contribution may be limited by Section 401(k) of the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to \$5,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

On April 1, 2008, the Plan was amended to allow after-tax Roth contributions in addition to the above. Roth contributions must follow the same limitations as above.

1. Description of the Plan (cont.)

Investment options

Participants direct the investment of both their own and the Employer's contributions into various investment options offered by the Plan. The Plan currently offers sixteen mutual funds and a common collective trust fund as investment options.

Vesting

A participant is always 100% vested in regular contributions, rollover contributions, qualified matching contributions and qualified non-elective contributions. Vesting under the Plan is based upon the elapsed time method. Hours of service are not counted and instead periods of service are computed. A period of service starts with a participant's date of employment and, generally, ends on date of termination. Only whole years of service are counted to compute years of service for vesting purposes. A summary of vesting percentages in the Employer's contributions follows:

<u>Years of Service</u>	<u>Percentage</u>
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 years	100%

Payment of benefits

The full value of a participant's account becomes payable upon retirement, disability, or death. Upon termination of employment for any other reason, participants' accounts, to the extent vested, become payable. Those participants with vested account balances greater than \$1,000 have the option of leaving their accounts invested in the Plan until required by law to take a minimum distribution. All benefits will be paid as a lump-sum distribution or as installments. Participants also have the option of having their benefit paid directly to an eligible retirement plan specified by the participant.

Participants may obtain an in-service withdrawal from his or her account for a hardship distribution (based upon terms of the Plan) or upon reaching the age of 59½. A participant may obtain an in-service withdrawal of vested employer contributions from his or her account after the participant has at least 60 months of participation.

Participant loans

The Plan allows participants to borrow from their account to satisfy certain immediate and heavy financial needs as defined by the Plan. The minimum loan amount is \$1,000, while the maximum loan amount is the lesser of one-half of the vested balance of the participant's account or \$50,000. Participants may have only one outstanding loan at a time. Loans shall bear a reasonable interest rate as determined by the Plan Administrator based on the prevailing interest rates charged by financial institutions under similar circumstances, which shall be fixed throughout the duration of the loan. All loans must be repaid on at least a quarterly basis over a five-year period unless it is for the purchase of a principal residence in which case the loan repayment period may not exceed 10 years from the date of the loan.

1. Description of the Plan (cont.)

Amounts allocated to participants withdrawn from the Plan

There was no vested portion of net assets available for benefits allocated to participants withdrawn from the plan at December 31, 2008 and 2007.

Forfeitures

Forfeitures may be used to reduce the employer's required contributions or to pay administrative expenses of the Plan. Forfeitures of \$67,937 and \$3,364 were used during the year ended December 31, 2008 to offset Plan expenses and employer qualified discretionary contributions, respectively. No forfeitures were used during the Plan year ended December 31, 2007 to offset plan expenses or employer contributions. Forfeitures of \$101,588 and \$118,093 have not been utilized as of December 31, 2008 and 2007, respectively, and represent unallocated assets in the Plan.

Expenses

Plan administration expenses are paid by the Plan unless paid by the Employer.

Brokerage fees, transfer taxes, 12b-1 fees and other expenses incurred in connection with the investment of the Plan's assets will be added to the cost of such investments or deducted from the proceeds thereof, as applicable.

2. Summary of accounting policies

Basis of presentation

The accompanying financial statements have been prepared on the accrual basis of accounting, including investment valuation and income recognition.

Estimates

The Plan prepares its financial statements in conformity with generally accepted accounting principles, which requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Risks

The plan provides for the various investment options as described in note 1. Any investment is exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2. Summary of accounting policies (cont.)

Investment Valuation and Income Recognition

Plan investments in mutual funds are stated at fair value on an annual recurring basis, see Notes 3 and 4. Mutual funds are stated at fair value as determined by quoted market prices, which represents the net asset value of shares held by the Plan at year-end. The common collective trust, a fully benefit responsive contract, is carried at contract value because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. Participant loans are valued at amortized cost, which is estimated to approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statements of changes in net assets available for benefits as net appreciation in fair value of investments.

Benefit payments

Benefits are recorded when paid.

3. Fair Value Measurements

Effective January 1, 2008, the Plan adopted FASB ASC 820-10 (formerly Statement of Financial Accounting Standards No. 157, *Fair Value Measurements*), which provides a framework for measuring fair value under GAAP. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820-10 are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

3. Fair Value Measurements (cont.)

- Level 3 inputs are unobservable inputs for the asset or liability for which there is little, if any, market activity at measurement date. Unobservable inputs reflect the Plan's own assumptions about what market participants would use to price the asset or liability. The inputs are developed based on the best information available in the circumstances, which might include the Plan's own financial data such as internally developed pricing models, discounted cash flow methodologies, as well as instruments for which the fair value determination requires significant management judgment.

Under the Fair Value Measurements Topic of the FASB Accounting Standards Codification, the Plan bases its fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. It is the Plan's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy.

The following is a description of the valuation methodologies used for assets measured at fair value. Valuation methodologies utilized to determine fair value are consistently applied.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common Collective Trust: Valued at amounts as provided by the trustee, based on the current net asset value of the underlying assets held in the fund and reported by the fund daily.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (cont.)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008 and 2007:

5. Investment Contract with Insurance Entity

The Plan has entered into a benefit-responsive investment contract with Fidelity Insurance Company, specifically, the Fidelity Managed Income portfolio. Fidelity maintains these investments in a Trust managed by the Fidelity Management Trust Company. The portfolio is an open-ended commingled pool dedicated to the management of assets of defined contribution plan. The Trust enters into “wrapper” contracts that provide that participants can, and must, execute plan transactions at contract value. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Fidelity. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2008 and 2007 was \$1,393,861 and \$1,199,772, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reset on a quarterly basis.

Average yields:	2008	2007
Based on actual earnings	3.57%	4.82%
Based on interest rate credited to participants	3.04%	4.40%

6. Information Supplied by Trustee

All information included in the accompanying financial statements, except information concerning employer and employee contributions, benefit payments, and administrative expenses is unaudited and has been prepared by or summarized from reports prepared by the trustee and furnished to the plan administrator. The plan administrator has obtained certification from the trustees that such information is complete and accurate.

7. Tax status

The Plan was established using a Prototype Plan designed by Fidelity Management Corporation. The Prototype plan was approved in Plan Form by the Internal Revenue Service in its opinion letter dated October 9, 2003. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan’s third party administrator (including its tax counsel) believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. Tax status, continued

During the years ending December 31, 2001 and 2000 the Plan had several failures in Plan operations (see notes 11 through 14). These errors were discovered in years subsequent to 2001. The Plan has identified corrections that need to be made related to the failures and the associated lost earnings. The Plan has completed most of the corrections for the identified failures and has presented these corrections, or proposed corrections, for approval to the Department of Labor under its Voluntary Fiduciary Correction Program ("VFCP") and to the Internal Revenue Service under its Voluntary Correction Program ("VCP"), as applicable. In its letter dated May 27, 2010, the Internal Revenue Service indicated that the proposed correction methods were appropriate and the disqualification of the Plan due to these failures would not be pursued. In its letter dated February 17, 2009, the U.S. Department of Labor, under the VFCP program, indicated that no civil enforcement action regarding the failures would be taken, as corrective actions had been completed.

The Internal Revenue Service, in their letter dated May 27, 2010, indicated that they would not pursue excise taxes related to the employee benefit plan failures. In addition, the Plan had not filed the required Forms 5500 (Reports of Employee Benefit Plan) since inception through the plan year ended December 31, 2007, with the Internal Revenue Service. The Plan submitted the completed Forms 5500 to the Internal Revenue Service under the Delinquent Filer Voluntary Correction Program ("DFVC"). The Plan has not yet filed the Form 5500 for the Plan year ended December 31, 2008 through 2012, but plans to submit the completed forms through the "DFVC" also.

8. Plan administration

A Committee, the members of which are appointed by the Board of Directors of the Employer, administers the Plan.

9. Plan termination

Although the Employer has not expressed any intent to do so, the Employer has the right under the Plan to discontinue their contributions at any time. iQor, Inc. has the right at any time, by action of its Board of Directors, to terminate the Plan subject to provisions of ERISA. Upon Plan termination or partial termination, participants will become fully vested in their accounts.

10. Parties-in-interest

Certain plan investments are shares of mutual funds managed by Fidelity Management Trust Company and its subsidiaries and/or affiliates. Fidelity Management Trust Company is the trustee of the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the plan to Fidelity Management Trust Company for investment management, recordkeeping and related services amounted to \$77,519 and \$14,134 for 2008 and 2007, respectively.

11. Untimely Remittance

Late Contributions

Participant deferrals of \$5,530,825 were not timely deposited in the trust during the years ended December 31, 2006 and prior. The Plan sponsor calculated the lost earnings related to the delay in transmitting the funds. The calculation was based on the rates established by the VFCP calculator using the date of loss and date of final recovery. Lost earnings on the late deposits in the amount of \$8,849 and \$4,559 were recorded as an additional employer contributions and employer QNEC contributions during the years ended December 31, 2007 and 2006, respectively. Accumulated earnings on the late deposits through December 31, 2006 totaled \$64,736. The accumulated earnings were deposited into the Plan on December 15, 2006. An additional \$1,297 of earnings accumulated on these contributions through the date of deposit and was funded to the Plan during the year ended December 31, 2008.

Missed Funding

In plan year 2001 and prior, the Company failed to fund participant contributions in the amount of \$47,146 and employer match in the amount of \$17,116. These amounts were funded to participant accounts during the year ended December 31, 2006 with earnings with forfeiture funds (see note 1).

See Note 7 related to tax status and untimely remittances.

Lost Earnings

Total lost earnings due to participants in the amount of \$8,848 recognized in 2007 for late deposits and missed fundings, reduced by the earnings on over-funding. During 2007, \$8,848 of lost earnings were funded to participant accounts with a QNEC contribution from the Plan sponsor.

12. Nondiscrimination Test Failures

For nondiscrimination test failures for the Plan years 2002 and prior, timely refunds of excess contributions were not made. As the distributions were not processed until the 2006 Plan year, the Plan Sponsor followed the one-to-one correction method. The one-to-one correction method required the Plan sponsor to contribute an equivalent amount to the Plan as a QNEC (qualified non-elective deferral) that will only be allocated to the non-highly compensated participants.

The one-to-one correction was satisfied during the year-ended December 31, 2006.

Earnings on the one-to-one corrections were originally calculated through August 2006. The corrective contribution for earnings was satisfied during December 2006; therefore, additional earnings were calculated through the date of the deposit at \$35,570. During November 2007, the Plan sponsor contributed a QNEC for the additional earnings. In addition, earnings were calculated on the earnings due from December 15, 2006 (the date of the one-to-one correction) through November 2007 (the date of the additional earnings deposit). These earnings were calculated to be an additional \$5,013.

12. Nondiscrimination Test Failures, continued

As of November 2007, all corrective contributions with earnings related to the nondiscrimination test failures have been funded to the Plan per the proposed corrections. The Plan sponsor submitted for approval of these corrections to the Internal Revenue Service under their Voluntary Correction Program “VCP” (see note 7) regarding these failures and subsequent proposed corrections.

13. Hardship Withdrawals

Under the regulations, a participant that takes a hardship withdrawal is required to suspend any deferrals to the Plan for a 6 month period. Since inception, the Plan has continued to allow some participants to defer into the plan. The Plan Sponsor presented this failure to the Internal Revenue Service under their Voluntary Correction Program. The Internal Revenue Service required the Plan to prospectively suspend the deferrals of effected participants, which were still active participants, for the appropriate number of months. This suspension was subsequently confirmed for all active participants. There is no amount required to be reported in the financial statements related to this correction. See Note 7 regarding these failures and proposed corrections.

14. Participant Loans

The Plan has established that loans to participants shall bear a reasonable interest rate as determined by the Plan Administrator based on the prevailing interest rates charged by financial institutions under similar circumstances. Beginning January 2005 through October 15, 2007, the Plan charged interest rates on new loans that were less than determined under the terms of the plan. Effected participants with remaining outstanding loan balances will have their loans reamortized over the remaining term of the loan using an interest rate in agreement with the terms of the Plan. Participants with no outstanding balance will be required to make a contribution to the Plan in the amount of the missed interest. The Plan sponsor will contribute an amount to the Plan representing the missed earnings on any interest corrections. Participants who have left the plan will receive letters indicating the tax impact and requirements.

From July 2003 to the plan year ending December 2004, the Plan charged rates on new loans that were within the rates determined by the terms of the Plan. However, from June 2000 (inception of the plan) to June 2003, the Plan charged rates on new loans that were in excess of the rates determined by the Plan. Again from October 16, 2007 through the Plan year ended December 31, 2007, the Plan charged rates in excess of the rates determined by the Plan. Effected participants with remaining outstanding loan balances will receive a credit, applied to outstanding principal on the loan, in an amount equal to the overpayment of interest, plus earnings. Loan balances will be reamortized over the remaining term as applicable. Any amounts in excess of the loan balance will be distributed to the participant affected. Participants who have left the plan will receive letters indicating the tax impact and requirements.

14. Participant Loans, continued

The Plan Sponsor presented this failure to the Internal Revenue Service under their Voluntary Correction Program. Missed earnings to be contributed by the Plan sponsor will be calculated based on the highest rate of return among all investment alternatives available under the Plan from the date of the original loan to the actual date of the correction. The dollars attributable to the errors in interest rates is estimated to be immaterial to the overall financial statements and therefore not reported in these financial statements. See note 7 regarding these failures and proposed corrections.

As of the date of this report, these corrections have not been completed by the Plan.

During the year ended December 31, 2008, the Plan continued to charge interest rates above and below the Plan required rates. These variations during the Plan year 2008 ranged from .50% below the required rate to 2% above the required rate. The dollars attributable to the errors in interest rates is estimated to be immaterial to the overall financial statements and therefore not reported in these financial statements. No corrections for these errors have been proposed by the Plan.

15. Reconciliation of Financial Statement to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2008	2007
Net assets available for benefits per the financial statements	\$ 10,426,228	\$ 16,642,327
