Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. 1. Description of Plan

The following description of the H & B Packing Co., Inc. Employee Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Plan employer sponsor is H & B Packing Co., Inc. (the Company). The Plan was also adopted by an affiliated service group company, Champion Pet Food.

General

The Plan is a defined contribution plan, commonly referred to as a Profit Sharing Plan. It covers all employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and restated effective January 1, 2009, to comply with changes in laws and regulations.

Contributions

Each year the Company may contribute to the Plan a portion of its current profits, at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with an allocation of a) the Company's contribution b) Plan earnings; and c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. A participant receives credit for a year of service if they complete at least 1,000 hours of service at any time during the plan year. Employees are vested according to the following schedule:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

1. Description of Plan (continued)

Payment of Benefit

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account as a lump-sum amount. Partial withdrawals are also allowed provided the withdrawal amount is at least $ 1,000.

Forfeited Accounts

At June 30, 2013 and 2012, forfeited nonvested accounts totaled $ 4,127 and $ -0-, respectively. These accounts were reallocated to active participants in the same manner as employer contributions, based on each participant's compensation as a percentage of the total compensation of all active participants.

Investment Options

Upon enrollment in the Plan, the Company's contributions are invested at the discretion of the Plan trustee.

2. Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through April 3, 2014, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting and the accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements. If available, quoted market prices are used to value investments.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

All expenses of maintaining the Plan are paid by the Plan.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

At June 30, the Plan's portfolio investments were classified as follows, based on fair values:

	June 30, 2013 Fair Value	June 30, 2012 Fair Value
Level 1	$ 900,642	$ 870,194
Level 2	89,099	84,385
Level 3	-	-
Total portfolio investments	$ 989,741	$ 954,579

3. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Common stocks and options: Valued at the closing price reported on the active market on which the individual securities are traded. Assessed Value: Level 1

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end. Assessed Value: Level 1

Life Insurance: Valued at cash surrender value as reported by the life insurance companies. Assessed Value: Level 2

Invested cash: Valued at principal amount invested. Assessed Value: Level 1

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Investments

The Plan's nonparticipant-directed investments are held by a registered investment company. The following table presents investments at June 30, 2013 and 2012.

5. Administrative Expenses

Administrative expenses for the year ended June 30, 2013 include investment management fees of $ 9,801. The remaining $ 13,392 in expenses include plan audit fees and miscellaneous other plan management expenses.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Plan is using a prototype non-standardized profit sharing plan document. The Plan operates under a plan that the Internal Revenue Service (IRS) indicated in a letter dated March 31, 2008; the standardized form of plan is acceptable under Section 401 of the Internal Revenue Code. The IRS's opinion on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code section 401(a). However, the Plan administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Other Risks and Uncertainties

Certain financial instruments potentially subject the plan to concentrations of credit risk. These financial instruments include mutual funds. The trustee continually performs ongoing evaluations to assess the credit risk associated with these investments. The Plan has not experienced any credit losses associated with these investments.

Investments securities are exposed to various risks, such as interest rate, market and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

9. Party-In-Interest Transactions

The plan has not considered Company contributions to the plan or benefits paid by the plan to participants as party-in-interest transactions.
