1. DESCRIPTION OF THE PLAN

The following description of The Gillette Company Retirement Plan for Collectively Bargained Employees (the "Plan") provides only general information. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined benefit plan maintained principally for the hourly employees of Oral-B Laboratories Iowa City Plant of The Gillette Company, a subsidiary of The Procter & Gamble Company (collectively, the "Company") covered by the collective bargaining agreement between the Company and the Chauffeurs, Teamsters and Helpers Local Union 238 who have completed one year of service. Effective January 1, 2010, the Plan changed its year end from December 31 to June 30.

Effective August 2, 2009, the Plan was amended to freeze the accrual of benefits and credited service for participants. In conjunction with the freezing of benefits, each current participant became fully vested in his or her pension benefits without regard to vesting requirements. However, participants continue to remain eligible for early retirement subsidies which become available at the participant's retirement upon fulfillment of criteria established by the Plan. No additional participants will be eligible for the Plan.

In addition, effective December 31, 2000, The Gillette Company Retirement Plan for Janesville Business-to-Business Skilled Workers and The Gillette Company Retirement Plan for Janesville Business-to-Business Production Workers (the "Janesville Union Pension Plans") were merged with and into this Plan. The retirement or other pension benefit payments to which members of the Janesville Union Pension Plans, or their surviving spouses or beneficiaries, were entitled to receive under such plans are provided under this Plan.

State Street Bank & Trust Company (the "Trustee") serves as trustee of the Plan, and together with other investment managers, manages the Plan's investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Procter & Gamble Master Retirement Trust (the "Master Trust") was established pursuant to a trust agreement between the Company and the Trustee. The assets of the Master Trust are held by the Trustee.

Pension Benefits — Under the terms of the Plan document, participants are eligible for benefit payments either upon reaching age 64 or reaching age 55 and completing 10 years of service. Benefit payments are determined by multiplying years of service by a fixed dollar monthly benefit factor based on when the participant retires or terminates employment. The following table presents the current monthly benefit factors:

	Monthly Benefit Rate Credited Service	Monthly Benefit Rate Credited Past Service
Retirement/termination date:		
January 1, 2005–December 31, 2005	35.10	25.80
January 1, 2006–December 31, 2006	36.10	27.30
January 1, 2007–December 31, 2007	37.10	29.30
January 1, 2008–December 31, 2008	38.10	31.30
January 1, 2009 and thereafter	39.10	33.30

Credited past service relates to service periods prior to June 28, 1984.

Death and Disability Benefits — The spouse of a participant who dies after becoming vested and married for one year, but before retirement benefits commence, is eligible to receive a pre-retirement survivor annuity, generally in the form of a monthly annuity for the life of the spouse. Active employees with 10 years of service who become totally disabled and who are eligible for disability benefits under Title II of the Social Security Act receive monthly disability benefits equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age (age 64), at which time disabled participants begin receiving normal retirement benefits. The retirement benefits are equal to the disability benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investments underlying the Plan's investment in the Master Trust including interest bearing cash, common collective trust funds and corporate common stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition — The Plan's investment in the Master Trust at June 30, 2013 and 2012 is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year on the underlying investments of the Master Trust.

Management fees and operating expenses charged for investments in common collective trust funds were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses were reflected as a reduction of investment return for such investments.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Administrative Expenses — Fees charged by the Trustee for the management and investment of Plan assets, actuarial fees and routine administrative fees are paid by the Plan. All other expenses of the Plan are paid by the Company.

Subsequent Events — For the year ended June 30, 2013, subsequent events were evaluated through April 3, 2014, the date the financial statements were available to be issued.

New Accounting Standards — The accounting standard initially adopted in 2013 is described below.

ASU No. 2011-04 — In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs,* which amends ASC 820. ASU 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance was effective for reporting periods beginning after December 15, 2011. The adoption did not have a material effect on the financial statements.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Methodology — Valuation methodologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation

methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2013 and 2012.

Common Stocks — Valued at the closing price reported on the active market on which the individual securities are traded.

Common Collective Trust Funds — Valued at the net asset value of units of a bank collective trust. The net asset value, as provided by the trustee, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Transactions (purchases and sales) may occur daily. Redemption for common collective trusts is permitted daily with no other restrictions or notice periods and there are no unfunded commitments.

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. The Master Trust's policy is to recognize transfers between levels at the actual date of the event or change in circumstances that caused the transfer.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended, June 30, 2013 and 2012, there were no transfers between levels.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of June 30, 2013 and 2012:

	Master Trust Assets Fair Value Measurements at June 30, 2013			
Asset Group	**Quoted Prices in Active Markets for Identical Assets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**	**Balance at June 30, 2013**

Total	$ 23,598,144	$ 1,782,690,040	$ -	$ 1,806,288,184

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the Plan for the years ended June 30, 2013 and 2012. No contributions to the Plan were required in 2013 or 2012. For the years ended June 30, 2013 and 2012, the Company elected to make contributions to the Plan.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of June 30, 2012, the measurement date, is as follows:

	2012
Vested benefits:	
Participants and/or beneficiaries currently receiving benefits	$ 26,032,711
Other participants	15,781,175
Total vested benefits	41,813,886
Nonvested benefits	471,282
Total actuarial present value of accumulated plan benefits	$ 42,285,168

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended June 30, 2012, are as follows:

	2012
Actuarial present value of accumulated plan benefits — beginning of period	$ 41,851,997
Increase (decrease) attributable to:	
Interest due to the decrease in the discount period	2,730,495
Benefits paid	(2,800,449)
Actuarial losses	173,631
Assumption changes	329,494
Actuarial present value of accumulated plan benefits — end of period	$ 42,285,168

The significant actuarial assumptions used in the June 30, 2012 and 2011 valuations were:

Mortality — RP -2000 table for males and females, with white collar adjustment, projected to 2015 by Scale AA was used for healthy mortality at 2012 and 2011.

Retirement — Active participants are assumed to retire at the following rates, provided they are eligible to retire at such age:

Age	
60–61	5 %
62	20
63–64	15
65	75
66	80
67	90
68	100

Interest Rate — 6.75% per annum for 2012 and 2011.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan were to be terminate, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits.

6. INTEREST IN MASTER TRUST

The Plan's investment assets are held in a trust account at the Trustee and consist of an undivided interest in an investment account of the Master Trust, a master trust established by the Company and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of the Procter & Gamble Puerto Rico Pension Plan and the Procter & Gamble Master Retirement Plan for investment and administrative purposes. The Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income/(loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The net assets and investments of the Master Trust at June 30, 2013 and 2012, are summarized as follows:

	2013	2012
Investments — whose fair value is determined based on quoted market prices:		
Interest bearing cash	$ 16,129,938	$ 23,592,092

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Company is a party-in-interest, as defined by ERISA. However, the administrative exemption provided under ERISA allows the Company to provide administrative services to the Plan. There were no fees paid by the Plan to the Company for administrative services for the years ended June 30, 2013 and 2012.

The Plan's investment in the Master Trust as of June 30, 2013 and 2012 is managed by the Trustee as defined by the Plan and, therefore these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were $29,698 and $25,233 for the years ended June 30, 2013 and 2012, respectively.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 13, 2012, that the Plan was designed in accordance with applicable regulations of the IRC. The Plan has been amended and restated since receiving the determination letter from the IRS. The Plan

is subject to routine audits by taxing jurisdictions at any time. The Company and the Plan administrator have concluded that the Plan, as designed and operated, complies with the applicable requirements of the IRC and the Plan remains tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of and for the years ended June 30, 2013 and 2012, included in the Plan's financial statements that was prepared by or derived from information prepared by State Street, the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

* - Plan investment exceeding 5% of the Plan's net assets available for benefits at June 30, 2013 and 2012.

** - Represents the net appreciation in value of the Plan's investments (including securities bought and sold as well as held during the years ended June 30, 2013 and 2012)

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under, and the Plan documents.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are truncated to be consistent with the instructions for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request
