INDEPENDENT AUDITORS' REPORT

To the Administrative Committee
Micro Plastics, Inc. Employee Stock Ownership Plan
Flippin, Arkansas

Report on the Financial Statements

We have audited the accompanying financial statements of Micro Plastics, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of June 30, 2013 and 2012, and the related statements of changes in net assets available for benefits for the year ended June 30, 2013, and the related notes to the financial statements.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Micro Plastics, Inc. Employee Stock Ownership Plan as of June 30, 2013 and 2012, and the changes in its net assets available for benefits for the year ended June 30, 2013, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Part IV, Line 4i, Schedule of Assets Held at End of Year, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Micro Plastics, Inc.
Employee Stock Ownership Plan
Notes to the Financial Statements

1) PLAN DESCRIPTION

Micro Plastics, Inc. (the "Company") established the Company's Employee Stock Ownership Plan (the "Plan") effective as of July 1, 1978. As of July 1, 2007 the plan was amended and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the IRC and is subject to applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by an Employee Benefits Administration Committee comprising up to three persons appointed by the sponsor company's board of directors, two of which are the Plan's trustees. The trust department of an independent third-party bank is the Plan's custodian.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan covering substantially all full-time employees who have one year of service and are age twenty-one or older. It is subject to the provisions of ERISA.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such plan year. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts.

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated, non-vested account balances allocated to remaining participants at June 30, 2013 were \$1,502. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent per year of service and are 100 percent vested after five years of service.

1) PLAN DESCRIPTION (continued)

Payment of Benefits

Participants or beneficiaries will be eligible to receive one hundred percent of their account balance under the following circumstances: (1) upon reaching normal retirement age (anniversary date coinciding with the following sixty-fifth birthday); (2) upon reaching late retirement date (anniversary date coinciding with their actual retirement date after reaching normal retirement age); (3) upon death; and (4) upon disability. If employment is terminated for any reason other than those listed above, the participant is entitled to only his vested interest. The vested amount will be kept in a separate account and continue to receive an allocation of income or loss in the separate investment account. Distributions of these funds will be made within the one year period after the close of the fifth Plan year after separation. The Administrator may direct the Custodian to pay the terminated employee his vested interest at an earlier point in time after separation from service. If this distribution is greater than \$1,000, written consent of the participant is required. Distributions may be made as a lump-sum payment in cash or in installment payments (monthly, quarterly, semi-annually, or annually) of cash over a period of time not to exceed the participant's or beneficiary's life expectancy, or if a participant elects, in the form of Company common shares plus cash for any fractional shares.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2013, the Company repurchased from participants 3,172 shares at prices determined from the independent appraisal.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or

her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan investments consist of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition

The stock of Micro Plastics, Inc. is valued at fair market value based on an annual independent appraisal. See Note 7 for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported using the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Operating Expense

All expenses of maintaining the Plan are reimbursed by the Company.

Date of Management Review

The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through April 9, 2014, the date the report was available to be issued. Management is not aware of any subsequent events that require further disclosure.

Notes to the Financial Statements

3) TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 1, 2009, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the internal revenue service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

4) ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Company common shares, are held by a bank-administered trust fund. Company contributions are held and managed by the Custodian, which invests cash received, interest, and dividend income and makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Custodian's fees are reimbursed by the Company.

5) EMPLOYER CONTRIBUTIONS

Each year the Company determines the amount, if any, of Company contributions to the Plan. The amount of the contribution is at the Company's discretion. The Plan does not permit voluntary participant contributions.

6) INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian.

7) FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;

**Micro Plastics, Inc.
Employee Stock Ownership Plan
Notes to the Financial Statements**

7) FAIR VALUE MEASUREMENTS (continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at June 30, 2013.

The fair value of the Micro Plastics, Inc. common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Assets at fair value as of June 30, 2013 and 2012:

	2013		2012	
	Level 3	Total	Level 3	Total
Common stock - Micro Plastics, Inc.	\$ 2,239,085	\$ 2,239,085	\$ 1,720,545	\$ 1,720,545
