QUALIS HEALTH BASIC RETIREMENT PLAN

Notes to Financial Statements For the Year Ended June 30, 2013

Note 1 - Description of Plan

The following description of the Qualis Health Basic Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan that was established by Qualis Health (the Employer) effective July 1, 1974. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective January 1, 2006, the Employer acquired several employees from an affiliated company. Accordingly, the Plan was amended to allow these employees to be eligible participants in the Plan.

Eligibility - All employees other than independent contractors, employees that are covered by a collective bargaining agreement, nonresident aliens, on-call employees, student interns and temporary employees are eligible to participate in the Plan. Eligible employees may enter the Plan on the first day of the month upon completion of one year of service.

Contributions - Employer contributions to the Plan are discretionary. The Employer contributed 7% of eligible participants' compensation for year ended June 30, 2013. The Plan does not provide for participant deferral contributions. The Plan permits eligible participants to rollover contributions from other eligible plans. Participants direct the investment of employer contributions into various investment options offered by the Plan.

Participant accounts - Each participant's account is credited with the Employer contributions as well as allocations plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account

Vesting - Participants are immediately vested in their rollover contributions and earnings thereon. Vesting in employer contributions plus earnings thereon is based on years of continuous service according to the following schedule:

<u><i>Years of Service</i></u>	<u><i>Vested Interest in Employer's Contribution</i></u>
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

If any participant's account has not already become fully vested, it shall become fully vested in employer contributions upon the participant's attainment of 55 years of age, disability or death.

Benefits Paid to Participants - Upon termination of service, retirement, death, or disability, a participant may elect to receive a lump sum payment. Participants who have reached age 65 may elect to receive their vested benefit prior to their actual retirement date.

QUALIS HEALTH BASIC RETIREMENT PLAN

Notes to Financial Statements For the Year Ended June 30, 2013

Note 1 - Continued

Forfeitures - The Plan allows for a five-year break in service before a separated employee must forfeit any unvested amount. Any unvested portion remaining after a five-year break in service may first be applied to pay expenses under the Plan, which would otherwise be paid by the Employer. Forfeitures not used to pay expenses are used to reduce future employer contributions. There were no unallocated forfeitures at June 30, 2013 or 2012. Forfeitures totaling \$42,820 were used to reduce employer contributions for the year ended June 30, 2013.

Note 2 - Summary of Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust fund which is reported at contract value. Contract value for the collective trust fund is based on the net asset value (NAV) of the fund as reported by the custodian. Reporting the common collective trust at fair value would not have a material effect on the Plan's financial statements.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets in the statements of net assets available for benefits and the additions and deductions in the statement of changes in net assets available for benefits, as well as the amounts disclosed in the financial statement footnotes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of mutual funds includes the Plan's gains and losses on mutual funds bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Expenses - Asset custodianship and plan administration fees charged to the Plan totaled \$8,038 for the year ended June 30, 2013. The Employer pays for certain expenses associated with sponsoring the Plan. Additionally, investment fees are charged to the funds and are offset against plan investment income as presented on the statement of changes in net assets available for benefits. Participants should refer to the fund prospectuses for details on the various types and amounts of investment fees charged.

Subsequent Events - The Plan's management has evaluated subsequent events through April 1, 2014, the date on which the financial statements were available to be issued.

QUALIS HEALTH BASIC RETIREMENT PLAN

Notes to Financial Statements For the Year Ended June 30, 2013

Note 3 - Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2013 and 2012:

Collective Trust Fund - Units held by the Plan are valued using the NAV of the fund. The NAV, as provided by the fund's trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

QUALIS HEALTH BASIC RETIREMENT PLAN

Notes to Financial Statements For the Year Ended June 30, 2013

Note 5 - Information Certified by the Plan's Custodian

The Plan has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a financial institution need not be subjected to independent audit. The Plan's management has obtained a certification from the custodian, Wilmington Trust (Wilmington), that the following information included in the Plan's financial statements and supplementary information is complete and accurate:

- Fair value of investments as of June 30, 2013 and 2012;
- Investment and other income earned for the year ended June 30, 2013; and
- Investment transactions for the year ended June 30, 2013.

Note 6 - Party-In-Interest Transactions

Wilmington serves as the Plan's custodian. Therefore, expenses paid by the Plan to Wilmington qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. For the year ended June 30, 2013, fees paid by the Plan to Wilmington were \$6,008.

Northwest Plan Services, Inc. (NWPS) serves as the Plan's recordkeeper. Therefore, expenses paid by the Plan to NWPS qualify as party-in-interest transactions which are exempt from prohibited transaction rules. For the year ended June 30, 2013, fees paid by the Plan to NWPS were \$2,030.

Note 7 - Risks and Uncertainties

Plan assets invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 8 - Tax Status

The Plan obtained its latest determination letter on August 11, 2011, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to 2009.
