KUNA MEAT COMPANY, INC. 401(k) PROFIT-SHARING PLAN

NOTES TO THE FINANCIAL STATEMENTS

(1) Plan Description

The following description of Kuna Meat Company, Inc. 401(k) Profit-Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General Information

The Plan, which was established December 19, 1966 and subsequently amended, is a defined contribution and 401(k) plan covering substantially all employees of Kuna Meat Company, Inc. and its subsidiary KFS Trucking, LC (the "Company") who meet the eligibility provisions of the Plan. The Plan is subject to provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 50% of their eligible compensation, as defined in the Plan, not to exceed the maximum amount allowed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan includes a provision for a matching contribution determined by the Company at its discretion. Additional amounts may be contributed at the option of the Company's Board of Directors. Participants direct the investment of the contributions into various investment options offered by the Plan.

Distributions

Distributions to participants of $268,305 and $405,527 for the years ended December 31, 2012 and 2011, respectively, include payments of $27,973 and $4,256, respectively, made to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

Eligible Participants

Non-union employees are eligible to participate in the Plan if they are at least 21 years of age. Union employees are not covered by the plan.

Participant Accounts

Each participant's account is credited with (a) the participant's contributions, (b) the Company's contributions, (c) Plan earnings and appreciation, and (d) the participant's share of forfeited accounts of former employees. Each participant's account is charged with (a) any withdrawals or distributions, (b) Plan losses and depreciation, and (c) an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferrals and rollover and transfer contributions, plus or minus actual earnings or losses thereon.

(Continued)

(1) Plan Description (Continued)

For employer contributions to the Plan, participants will vest as follows:

Years of Service	Vesting Percentage
Less than one	0 %
One	25 %
Two	50 %
Three	75 %
Four or more	100%

Participants are fully vested in employer contributions upon the attainment of age 65, retirement due to disability, death, or the termination of the Plan

Participants are considered to have completed one year of service upon the completion of 1,000 hours of service at any time during the employment year. If a participant terminates service and is later re-employed, the participant may lose credit for prior service if they have not completed more than one-half of the hours of service need for a year of service during previous employment.

Forfeited Plan Assets

If a participant forfeits any unvested balances in his/her account, the forfeited assets are used to reduce future employer contributions. Forfeitures used to reduce employer contributions for the years ended December 31, 2012 and 2011 were $9,711 and $2,710, respectively.

Participant Loans

Subject to provisions under the Plan, participants may borrow from the Plan an amount which does not exceed the lesser of $50,000 or 50% of the present value of the participant's vested benefit under the Plan. Loans, which are secured by the balance in the participant's account, bear interest at 8.75%, and have terms which range from 12 to 60 months, unless the loan was made for the participant to acquire his/her principal residence. In this case, the term is for a period that ranges from 12 to 360 months. Principal and interest are paid ratably through monthly payroll deductions.

Retirement and Terminations

In the case of normal retirement (defined as age 65) or retirement due to permanent disability, participants will receive the value of their vested plan benefits, in accordance with the provisions of the Plan, either in a lump-sum distribution, in installments payable over a period which does not exceed the joint life expectancy of the participant and his/her beneficiary, or in the form of an annuity.

In the event that a participant dies before retirement, the beneficiary will receive the value of the participant's vested plan benefits in a lump-sum distribution, in installments payable over a period which does not exceed the life expectancy of the beneficiary, or in the form of an annuity.

(Continued)

(1) Plan Description (Continued)

In the case of termination of an employee, the participant may request early payment of the vested benefit by submitting a written request to the plan administrator. However, if the participant's account balance at the time of the termination exceeds $5,000, the payment of the benefit may be deferred by the participant until April 1 of the calendar year following the calendar year during which the participant attains age 70 ½.

In-Service Distributions

The Plan allows for in-service distributions upon the attainment of the age 59 ½ and only if the participant is 100% vested.

Hardship Withdrawals

The Plan allows for hardship withdrawals, as defined in the Plan, that are limited to the amount needed to meet the financial need. If a participant receives a hardship withdrawal, he/she is still eligible to participate in employer contributions to the Plan, but the participant's right to make elective deferrals will be suspended for six months. These withdrawals may not be recontributed to the Plan and may be subject to income tax and penalties.

Administration

American United Life Insurance ("AUL"), a One America financial partner, is the Plan's custodian. All assets of the Plan are held and managed by AUL. Frontier Trust Company is the Plan's trustee.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Participant Loans

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

(Continued)

(2) Summary of Significant Accounting Policies (Continued)

Investment Valuation

The Plan's investments are stated at fair value. The fair value of the Plan's other financial instruments approximate their carrying amounts, either because the expected collection or payment period is relatively short or because the terms are similar to market trends. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment Risk

Participants in the Plan assume all adverse investment risk connected with any decrease in value of plan assets, and such assets are the sole source of payments under the Plan.

Subsequent Events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through October 7, 2013, which is the date the financial statements were available to be issued.

(3) Transactions with Parties-In-Interest

The Plan is administered by the Company. Employees of the Company serve as the Plan's administrators and participate in the Plan. The Plan pays for certain administrative expenses, including the fees of the independent auditor issuing the accompanying report. All investment funds are managed by AUL, the custodian for the Plan.

(4) Fair Value Measurements

Under the Fair Value Measurements and Disclosures topic of the FASB ASC, a guideline is provided for measuring fair value under generally accepted accounting principles. The topic establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs include quoted prices in active markets for similar assets, quoted prices in inactive markets for similar assets, or inputs that are observable or can be corroborated by observable market data or other means for substantially the full term of the asset; and Level 3 inputs have the lowest priority and are based on prices or valuation techniques that are unobservable and not corroborated by market data. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The Plan uses Level 2 inputs when an active market comparable is not available and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

(Continued)

(4) Fair Value Measurements (Continued)

Level 1 Fair Value Measurements

The fair values of registered investment companies are based on quoted market prices.

Level 2 Fair Value Measurements

The fair value of the guaranteed interest accounts is based upon the underlying investments and vendor pricing agents.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for plan benefits as follows:

(5) Investments (Continued)

During the years ended December 31, 2012 and 2011, the Plan's investments in registered investment companies appreciated (depreciated) by $673,505 and (158,118), respectively.

(6) Guaranteed Interest Accounts

The Plan offers fully benefit-responsive fixed interest investment contracts with AUL. AUL maintains the contributions in the general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by AUL. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. AUL believes contract value is an appropriate determination of fair value for the contract; therefore, the contract has been included in the accompanying financial statements at fair market value of $ 105,735 and $81,653, respectively. The fixed interest investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against fair value for credit risk of the contract issuer or otherwise. The crediting interest is based on a formula agreed upon with the issuer, but may not be less than the lesser of 3% or the average 5-year Constant Maturity Treasury Rate as reported by the Federal Reserve for the month of October of the calendar year immediately preceding the calendar year in which that Interest Pocket's Guaranteed Rate became effective reduced by 1.25% where the resulting interest rate is not less than 1%. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with AUL. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan; or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with plan participants are probable of occurring.

The guaranteed interest accounts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields based upon actual earnings and interest rate credited to the participants at December 31, 2012 and 2011 were 2.61% and 3.13%, respectively.

(7) Custodian Certification

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the Company has obtained certification from the custodian of the Plan that the investment and loan balances and their related income as reported in the accompanying financial statements are complete and accurate.

(8) Plan Termination Policies

Although it has not expressed intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions set forth in ERISA. In the event of termination of the Plan, the right of all participants to benefits would become 100% vested and nonforfeitable. The amount of the account balance due each participant would be distributed in accordance with the payment provisions of the Plan.

(9) Internal Revenue Service Status

The Internal Revenue Service has determined and informed the plan administrator by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan was amended subsequent to this date; however, the plan administrator and management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan accounts for certain tax positions in accordance with the Income Taxes topic of the FASB ASC. The topic prescribes a recognition threshold and measurement process for financial statement recognition of uncertain tax positions taken or expected to be taken in an annual return/report of an employee benefit plan. In evaluating the Plan's tax position, interpretations and tax planning strategies are considered. The Plan believes its tax exempt status is appropriate based on current facts and circumstances.

The Plan's tax filings are subject to audit by various taxing authorities. The Plan's open audit periods are primarily the years ended December 31, 2009 through December 31, 2012.

(10) Plan Amendment

Effective January 1, 2012, the Plan approved an amendment removing the 1 year service requirement to participate in the plan.

Effective May 1, 2011, the Plan approved an amendment for forfeitures to be used to reduce any employer contributions.

(11) Risks and Uncertainties

The Plan invests in various securities. The underlying investments may include corporate debt instruments and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
