Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Home Nursing Agency's Pension Plan, which comprise the statements of net assets available for benefits as of June 30, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 3*, which was certified by Principal Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes transactions related to these assets. The plan administrator has obtained certifications from the trustee as of and for the years ended June 30, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Home Nursing Agency's Pension Plan

Notes to Financial Statements

June 30, 2013 and 2012

Note 1: Description of the Plan

The following description of Home Nursing Agency's Pension Plan (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the plan document and *Summary Plan Description*, which are available from the plan administrator.

General

The Plan is a noncontributory defined benefit plan that covers substantially all employees of Home Nursing Agency Affiliates (Company) and provides for retirement, death and disability benefits. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Principal Financial Group is the trustee of the Plan.

On November 11, 2009, the Board of Directors unanimously approved a recommendation that all new employees hired on or after January 1, 2010, will be enrolled in a separate defined contribution plan. No current employees lost any benefits.

Contributions

The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to plan members. The Company's present intention is to make contributions in amounts sufficient to annually fund the Plan's current service cost and the initial past-service costs plus interest on them over a period of 30 years. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Benefits under the Plan are based on 1.25% of the employees' highest average monthly compensation (during any 60 consecutive months) multiplied by the employee's total number of benefit service years, but not more than 40 years. Normal retirement age for plan benefits is 65. Participants may elect to receive reduced benefits upon early retirement at age 55. Monthly pension benefit payments are determined for each participant according to the retirement option selected. When a married participant retires, the normal benefit under the Plan is a qualified joint and 50% survivor annuity with the participant's spouse. For an unmarried participant, the normal retirement benefit is a single-life annuity. A participant may elect to receive benefits in a form other than noted above, with a spouse's written permission, as applicable.

Death Benefits

The spouse of a participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Vesting

The pension benefits for the Plan are fully vested after seven years. However, a participant is always fully vested upon reaching the normal retirement age.

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

(a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

(b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.

(c) Vested benefits not insured by the PBGC.

(d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Home Nursing Agency's Pension Plan

Notes to Financial Statements

June 30, 2013 and 2012

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. Pooled separate accounts are valued at estimated fair value as provided by Principal Life Insurance Company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see *Note 4*) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

(a) Retired or terminated employees or their beneficiaries

(b) Present employees or their beneficiaries

Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Plan Tax Status

The Plan obtained its latest determination letter on August 29, 2002, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

With a few exceptions, the Plan is no longer subject to federal, state and local income tax examinations by tax authorities for years before 2010.

Note 3: Investments

The Plan's investments are held by Principal Financial Group.

The Plan uses an annuity contract that has certain former participants retired under a benefit index alternative. Under this arrangement, a benefit index is established. The benefit index represents the amount needed to purchase an annuity for each retiree under this alternative. Annuity payments are made directly from allocated plan funds to these retirees as long as there are assets in the contract to support the payments. In the event assets under the contract are equal to or less than the benefit index amount, annuities will be purchased from Principal Life Insurance Company, and therefore, this funding arrangement meets the definition of an allocated annuity contract. The investments underlying these contracts accordingly have been excluded from plan assets. Although the investments underlying these contracts have been excluded from plan assets, the actual experience of the fund, *i.e.*, interest earnings, benefit payments, mortality changes and changes in the purchase price of annuities, has been included in the statement of changes in net assets available for benefits as increase/decrease in benefit index fund.

The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows:

	2013	
	Net Appreciation (Depreciation) in Fair Value During Year	Fair Value at End of Year
Mutual funds	$ (154,277)	$ 2,775,877
Pooled separate accounts	3,129,120	21,654,376
	$ 2,974,843	$ 24,430,253

	2012	
	Net Appreciation (Depreciation) in Fair Value During Year	Fair Value at End of Year
Mutual funds	$ (176,875)	$ 1,148,928
Pooled separate accounts	685,881	17,452,620
	$ 509,006	$ 18,601,548

The fair value of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows:

	2013		2012	
Bond Market Index Separate Account	$ 3,739,808		$ 3,166,860	
Core Plus Bond I Separate Account	1,553,392		1,418,474	
High Yield I Separate Account	728,305	*	1,220,930	
International Equity Index Separate Account	1,577,000		726,261	*

LargeCap Value I Separate Account	1,857,172		1,183,526	
Short-Term Income Separate Account	866,934	*	1,909,159	

* Investment represents less than 5% of net assets at the respective year end

Interest and dividends realized on the Plan's investments for 2013 and 2012, were $50,440 and $140,638, respectively.

Note 4: Accumulated Plan Benefits

An actuary from Principal Financial Group determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information calculated as of the end of each plan year prepared as of July 1, 2013 and 2012, is as follows:

	2013	2012
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	$ 13,249,573	$ 12,276,987
Other participants	6,015,194	5,390,153
	19,264,767	17,667,140
Nonvested benefits	484,120	617,222
Total actuarial present value of accumulated plan benefits	$ 19,748,887	$ 18,284,362

Changes in the actuarial present value of accumulated plan benefits were as follows:

	2013	2012
Actuarial present value of accumulated plan benefits, beginning of year	$ 18,284,362	$ 17,211,937
Increase for interest due to the decrease in the discount period	1,797,365	1,641,926
Benefits accumulated	1,453,967	1,446,819
Transfers to benefit index option	(906,010)	(1,160,328)
Benefits paid	(880,797)	(855,992)
Net increase	1,464,525	1,072,425
Actuarial present value of accumulated plan benefits, end of year	$ 19,748,887	$ 18,284,362

Significant assumptions underlying the actuarial computations are:

	2013	2012
Assumed rate of return on investments	7.50%	7.50%
Normal retirement age	65 years old	65 years old
Mortality basis	IRS Prescribed Mortality - Generational Annuitant and Non-Annuitant, Male and Female	IRS Prescribed Mortality - Generational Annuitant and Non-Annuitant, Male and Female

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the plan trustee. Fees expensed by the Plan to the trustee for services amounted to $27,098 and $21,248 for the years ended June 30, 2013 and 2012, respectively.

The Company provides certain administrative services at no cost to the Plan. The Company pays certain accounting and auditing fees relating to the Plan.

Note 6: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2013 and 2012:

	2013 Fair Value Measurements Using

	$ 18,601,548	$ 1,148,928	$ 17,452,620	$ -

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended June 30, 2013. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds and are valued at the net asset value (NAV) of shares held by the Plan at year end. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include pooled separate accounts and are valued at the net asset value (NAV) of units held by the Plan at year end. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan is not currently invested in any Level 3 securities.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks which may be heightened because of the economic environment. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. The financial statements have been prepared using values and information currently available to the Plan.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 8: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Plan Amendment

Effective December 31, 2013, the Plan was amended to freeze the accrued benefit so no additional benefits will accrue after December 31, 2013.

Plan Sponsor Change

Effective January 1, 2014, the Company approved participation in another defined benefit plan sponsored by University of Pittsburgh Medical Center (UPMC) as successor.

Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Benefit Accrual	All benefits paid at decrement are considered in total and then split to determine how much is included in Funding Target. The following pieces are included in the Funding Target. • The portion based on the plan's definition of accrued benefit. • The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement. The benefits included in Target Normal Cost are calculated similarly, by splitting the benefits. The Target Normal Cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.
Methods Selected by Plan Sponsor	
Asset Method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment Rates	24 month average with no weighting to prior law basis. Use rates where February is the last month included in the average.
PBGC Premium Basis	Premiums are calculated using the funding segment rates used for the plan year without the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). This method was elected with the 07/01/2009 plan year and must continue for five years before a change can be made.

Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by: • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE The Funding Target is not based on the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv).
Vested Benefits	A benefit is included in vested benefits when the participant will meet age and service eligibility requirements at the valuation date. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, and pre-retirement death benefits in excess of the Survivor Annuity Death Benefit except as noted in the Plan Provisions.
Assumptions and Methods Elected by Actuary Long-Term Contribution Level and Plan Accounting (ASC 960)	
With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular Funding Target and Target Normal Cost.	
Interest Rate Used to Value Liabilities	7.00%
Benefit Liability	Long-Term Contribution Level reflects: • Service and compensation projected to the age benefits are assumed to be paid. • Compensation and benefit limits projected at 2.25% per year.
Long-Term Contribution Level	Allocates the difference between the Benefit Liability and the Market Value of Assets as a level percentage of payroll per year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
