Quantum Medical Radiology, P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2012 (*Audited*) and 2011 (*Compiled*)

Note 1: Description of Plan

The following description of the Quantum Medical Radiology, P.C. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was established on December 1, 2006. The Plan is a defined contribution profit sharing plan covering substantially all employees of Quantum Medical Radiology, P.C., Optimum Physician Services, LLC, Northside Radiology Associates, P.C., Quantum Radiology Northwest, P.C., US Teleradiology, LLC, Open MRI & CT Specialist of Stockbridge, LLC, Medica Support Services, LLC, Medica Forsyth Open MRI, LLC, Medica at Rabun, LLC, Medica Stand Up MRI of Atlanta, LLC, Medical Stand UP MIR of Birmingham, LLC and USMammo, LLC. (collectively referred to as the Company or the Plan Sponsor).

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective April 10, 2012, the Company amended the Plan to permit notes receivable from participants.

Eligibility

Employees are eligible to participate in the Plan upon reaching age 21. Employees must complete 1 year of service to be eligible for employer safe harbor matching, discretionary matching and discretionary profit sharing contributions. Upon satisfying eligibility requirements, an employee becomes a participant of the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year coinciding with or next following the date eligibility requirements were met.

Contributions

Participants may elect to contribute, through payroll deductions, up to 100% of eligible earnings, as defined in the Plan Document, not to exceed the statutory limit set by the Internal Revenue Code (IRC). The aggregate limit for 2012 was \$17,000. If a participant attained age 50 or older before the Plan's year end, he or she may elect to defer additional catch-up contributions up to \$5,500 in 2012. Participants direct their contributions into various investment options offered by the Plan. The Plan also accepts rollovers from other tax-qualified and tax-advantaged plans.

The Plan Sponsor may elect to make discretionary matching contributions to the Plan, which is equal to a discretionary percentage of the participant's elective deferrals, to be determined by the Plan Sponsor each year. The Plan Sponsor may elect to make discretionary profit sharing contributions to the Plan, which is determined by the Plan Sponsor each year. No discretionary contributions were made to the plan for the year ending December 31, 2012.

The Plan Sponsor makes a non-elective safe harbor contribution to the account of each eligible participant equal to 3% of the employee's compensation for the Plan year.

Administration

MG Trust Company, LLC (the Custodian) serves as Custodian of the Plan pursuant to the Plan Document. The Custodian receives certain contributions made under the Plan, holds certain Plan assets and pays certain benefits to participants as directed by the Plan administrator.

Swerdlin & Company (Swerdlin) serves as record-keeper and White Horse Advisors, LLC serves as investment advisor of the Plan.

The Company serves as the Plan administrator. The Plan administrator has the responsibility to administer the Plan for the exclusive benefit of the participants and their beneficiaries. These duties include, but are not limited to, establishing procedures, maintaining records, interpreting provisions of the Plan and making determinations regarding questions which may affect eligibility for benefits. The Plan administrator engaged Swerdlin as a third-party administrator to assist in the administration of the Plan.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants which reflect the participant's share of the Plan's income, expenses, contributions and net realized and unrealized gains and losses on investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants can choose to make participant-directed allocations of their accounts in increments totaling 100% among various investment options selected by the Plan administrator. Participants can also use self-directed brokerage accounts to invest in an almost unlimited selection of investment choices as permitted by the Plan and in accordance with ERISA.

Vesting

Participants are 100% vested in their contributions plus any earnings thereon. Participants become 100% vested in the Company discretionary matching and discretionary profit sharing contributions after completion of 3 years of service. Participants are immediately vested upon termination of the Plan, death, total disability or upon reaching normal retirement age of 62.

Notes Receivable from Participants

Effective on April 10, 2012, the Plan was amended to permit participants to borrow from their vested account balances. Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The maximum term of repayment for a loan is five years, unless the purpose of the loan is for the purchase of the participant's principal residence, in which case the term of repayment is no more than thirty years. Participants are permitted to have three loans outstanding at any given time. Participant loans are secured by the balance in the participant's account and bear interest at the Prime Rate (3.25% at December 31, 2012) plus 2%. If a participant defaults on a loan, as defined in the Plan Document, the loan will be considered a distribution and will be subject to income taxes. Loans are repaid via payroll deduction; however, in the case of a lump sum payoff, participants are allowed to pay via check.

Prior to April 10, 2012, the Plan Document did not permit participants to borrow from their vested balances.

Payment of Benefits and Withdrawals

In general, a participant may withdraw up to 100% of the vested balance of elective deferrals (excluding certain earnings on pretax contributions) and discretionary profit sharing contributions in the event of a participant's immediate financial hardship, as defined in the Plan Document. Hardship distributions may not exceed the amount of the participant's financial hardship and may not be repaid by the participant. If a participant makes a hardship withdrawal, the right to make pretax contributions will be suspended for six months.

Upon normal retirement, attaining age 59 ½, termination of employment, disability or death, a participant or beneficiary may elect to receive the value of their vested account by transfer to another qualified plan or individual retirement account (IRA) or through a lump sum distribution.

In general, if the participant's account balance, as defined in the Plan Document, is greater than \$1,000 upon termination of employment, the account may not be distributed without the participant's consent. Vested accounts balances of terminated participants that are less than \$1,000 will be distributed to the participant in a lump sum.

Distributions from the Plan will normally be subject to income taxes and in certain circumstances may also be subject to Internal Revenue Service (IRS) penalties unless transferred to another qualified plan or individual retirement account.

Forfeitures

Non-vested account balances of terminated employees are forfeited upon the complete distribution of the vested portion of their account or after five consecutive one year breaks in service. Forfeitures of terminated employees' non-vested accounts may be used to reduce Plan Sponsor contributions, as defined in the Plan Document. There was \$9,470 in forfeitures of non-vested account balances during 2012. There were no forfeitures used to reduce Plan Sponsor contributions during 2011. The balance in the forfeiture account was \$14,035 and \$4,445 as of December 31, 2012 and 2011, respectively.

Administrative Expenses

Administrative expenses of the Plan are liabilities of the Plan but may be paid by the Company. These expenses include, but are not limited to, legal, accounting and recordkeeping fees and investment expenses. For administrative expenses not paid by the Company, a proportionate share of fees and expenses paid by the Plan is charged to each participant's account. Individual transaction fees, such as fees for notes receivable from participants, are paid from the respective participant's accounts.

Note 2: Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan's invested assets ultimately consist of stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Payment of Benefits

Benefit payments are recorded when paid by the Plan.

Note 3: Investments Certified by Plan Custodian (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Custodian, except for comparing such information to information included in the Plan's financial statements and supplemental schedule of assets (held at end of year).

	2012	2011
Statements of net assets available for benefits:

Note 4: Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measured. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2012 and 2011.

Mutual funds are valued at quoted market prices as provided by the Custodian.

Participant-directed brokerage accounts are invested in marketable securities and are valued at quoted market prices as provided by the Custodian or individual brokers for accounts that are not held by the Custodian.

Net appreciation in fair value of the mutual funds and participant-directed brokerage accounts represent the change in fair value during the year, including realized and unrealized gains and losses. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The methods previously described may produce fair value calculations that may not be indicative for net realized value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2012 and 2011:

Note 5: Income Tax Status

The Plan Sponsor adopted a volume submitter 401(k) profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 6: Party-in-Interest Transactions

The Custodian and Swerdlin perform services for, sell products to and manage and maintain certain investments of the Plan for which fees are charged to the Plan. Party-in-interest transactions also include notes receivable from participants. Such transactions, while considered party-in-interest transactions under ERISA, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 7: Reconciliation to Form 5500

The financial information of the Plan, as reported on Form 5500, does not include all amounts necessary for reporting on the accrual basis of accounting. A reconciliation of the amounts appearing on Form 5500 to the accompanying financial statements follows:

Note 8: Plan Termination

In the event of plan termination, participants will become 100% vested in their account balances, and the assets of the Plan will be distributed to the participants in accordance with Plan provisions.

Note 9: Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Company has evaluated for subsequent events between the statement of net assets available for benefits date of December 31, 2012, and the report date, the date the financial statements were available for issuance, and has concluded that all subsequent events requiring recognition or disclosure have been incorporated into these financial statements.
