AMEC OIL & GAS, INC. RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the AMEC Oil & Gas, Inc. Retirement Savings Plan, formerly AMEC Paragon, Inc. Retirement Savings Plan, (the “Plan”), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

Effective June 1, 2012, the Company’s name was changed from AMEC Paragon, Inc. to AMEC Oil & Gas, Inc., and the Plan name was changed to AMEC Oil & Gas, Inc. Retirement Savings Plan.

The Plan is a defined contribution plan covering substantially all employees of AMEC Oil & Gas, Inc. (the “Company”) except union employees, non-resident aliens, and leased employees. Employees are eligible to participate on the first day of the month coinciding with or next following the later of their hire date or attainment of age 21. The Plan is administered by the Retirement Committee, which is appointed by the President of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to make salary deferral contributions to the Plan up to the maximum allowed under the appropriate sections of the Internal Revenue Code (IRC). The Plan also allows for Roth 401(k) after-tax elective deferral contributions. Participants who attain age 50 before the end of the plan year are eligible to make catch-up contributions.

The Company will make a safe harbor matching contribution equal to 100% of each eligible participant’s deferral contribution up to a maximum of 4% of eligible compensation. The Company may also make a discretionary matching or profit sharing contribution. For the year ended December 31, 2012, the Company made a discretionary profit sharing contribution of 6% of eligible compensation for all eligible plan participants. Participants must be actively employed on the last day of the plan year and complete 1,000 hours of service during the plan year to receive an allocation of the Company profit sharing contribution.

The Plan allows rollover contributions from eligible retirement plans qualified under the appropriate sections of the IRC. The Plan is participant directed. Participants may change their contribution rates monthly and investment options at any time.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and allocations of the Company’s contributions and Plan earnings. In addition, participants are charged with any applicable administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are at all times fully vested in their contributions, Company matching contributions, and the appreciation or depreciation thereon. Vesting in the Company profit sharing contributions portion of their accounts plus earnings thereon is based on years of service. Participants vest in other Company contributions 33% per year after two years of service and are 100% vested after four years of service.

Payment of Benefits

A participant shall be immediately vested upon death, retirement, or termination of employment due to total and permanent disability. Normal retirement age under the Plan is 65. Upon retirement, disability, death, or termination of service with the Company, participants may receive their distributions in a lump-sum payment or other method as defined in the Plan. Hardship distributions are permitted.

Notes Receivable from Participants

Plan participants may borrow Plan assets up to a maximum of the lesser of \$50,000 or 50% of their vested account balances in the Plan. Interest rates on loans are stated at a reasonable rate. Loans are repaid in level installments through payroll deductions for periods ranging up to five years and in certain situations may exceed five years. Loans are secured by the participant's vested account balance to the extent of the principal amount of the loan plus accrued interest.

Forfeitures

Forfeitures of nonvested employer contributions shall be used to reduce future employer contributions. The forfeitures balance at December 31, 2012 and 2011 was \$192,488 and \$46,854, respectively. Forfeitures were utilized to reduce employer contributions by \$46,854 during the year ended December 31, 2012.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained on the cash basis of accounting; however, the financial statements have been prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

AMEC OIL & GAS, INC. RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2012 and 2011

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a contract account. As required, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. At December 31, 2012 and 2011, no allowance was considered necessary by management.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to notes receivable from participants, withdrawals, and certain investment transaction fees are charged directly to the participant's account and are included in administrative expenses. Other investment related expenses are included in net appreciation in fair value of investments.

Federal Income Taxes

The Plan has adopted a non-standardized prototype plan, which obtained its latest opinion letter dated March 31, 2008 in which the Internal Revenue Service (IRS) stated that the prototype document satisfies the applicable provisions of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

AMEC OIL & GAS, INC. RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2012 and 2011

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Recent Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan has adopted this guidance in 2012 and determined that it did not have an effect on the Plan's net assets available for benefits or changes in net assets available for benefits.

NOTE 3 - INVESTMENTS (CONTINUED)

During the year ended December 31, 2012, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$7,360,296.

NOTE 4 - FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Pooled Separate Accounts ("Variable Annuity Account D"): The pooled separate accounts invest directly in designated mutual funds or, in some cases, collective investment trusts. The separate account owns and holds the underlying mutual fund or collective trust shares, which are valued daily at their net asset value ("NAV"). Plans and participants hold "units of participation" in the separate account. The accumulation unit value ("AUV") is the value of each unit in the separate account, and the separate account is valued daily at the number of accumulation units held multiplied by the AUV. The AUV is first established when a new fund starts (typically, the beginning AUV is \$10.00) and is then determined daily based on the NAV of the shares of the underlying fund, the fund's dividends, and the contract's separate account charges. There are no imposed redemption restrictions, nor does the Plan have any contractual obligation to further invest in the account.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2012 and 2011

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Contract Account: The fair value, as reported to the Plan by ING, is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. Because participants transact at contract value, fair value is determined annually for financial reporting purposes only. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms, (for example duration or payout date) while others are substantiated utilizing market data (for example, discounted cash flows).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used for valuing securities at December 31, 2012 or 2011.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table represents the Plan's Level 3 investment, the valuation techniques used to measure the fair value of the investment, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Input Values
Contract Account	\$15,846,933	Income Approach (market value adjustment)	Credited rate as of the date of the surrender	3.00%
			Rate for a 7-year Treasury Bond derived by interpolating between 5-year and 10-year Treasury Bond rates as found in the Citigroup Bond Market Roundup for the week prior to the surrender	1.15%
			Surrender value to which the market value adjustment applies	80.00%

If the credited rate of the contract account as of the date of surrender increases, then the market value adjustment increases. If the Treasury Bond rate increases, then the market value adjustment decreases. The surrender value of the contract account will never be less than 100%.

NOTE 5 - INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING National Trust ("ING"), the trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011 and the schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2012, and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

NOTE 6 - CONTRACT ACCOUNT

At December 31, 2012 and 2011, the Plan maintained one guaranteed investment account option, the ING Fixed Account. The contract underlying this investment option is considered to be fully benefit-responsive.

The average yield for the contract for the year ended December 31, 2012 was approximately 3.0%. The crediting interest rate for the contract as of December 31, 2012 and 2011 was 3.0% and 3.65% respectively. The minimum crediting interest rate for the contract for the year ended December 31, 2012 was 3.0%. The trustee guarantees the credited rate will never fall below the lifetime guaranteed minimum of 2.00%.

NOTE 6 - CONTRACT ACCOUNT (CONTINUED)

ING's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets, and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder.

The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The ING Fixed Account does not permit ING to terminate the agreement prior to the scheduled maturity date.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are in an ING Life Insurance and Annuity Company pooled separate account and contract account, which are affiliated with ING. ING is the trustee as defined by the Plan. Therefore, these investments qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
