NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Bowles Fluidics Corporation 401(k) Plan and Trust (the Plan)) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan including a tax deferred contribution arrangement as permitted under the Internal Revenue Code (IRC) effective November 1, 1990 and restated March 28, 2005. Employees of Bowles Fluidics Corporation (the Company) are eligible to participate in the Plan after six months of consecutive service. The Company has designated the first day of each quarter as the entry dates for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Participants may contribute a percentage of pretax annual compensation, as defined in the Plan, not to exceed annual IRC limits. Participants who have attained aged 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. Matching and profit-sharing contributions made by the Company are discretionary. During 2013 and 2012, the Company contributed 55% of participant contributions, up to 6% of eligible compensation. The Company did not make any profit-sharing contributions in 2013 and 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company's contributions, as well as allocations of (a) Plan earnings and (b) administrative expenses. Allocations are based on participant compensation, participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after 3 years of credited service. Participants become fully vested in the Company's contributions upon death, total disability, normal or early retirement of the participant, or the termination of the Plan. The Plan permits early retirement at age 55 with normal retirement at age 65.

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000. Loans must be repaid in five years unless the proceeds are used to acquire a primary residence, which then can be repaid at a longer term. The loans are collateralized by the balance in the participants' account and bear interest at a reasonable rate as determined by the Plan administrator. Loans are repaid through payroll deductions based upon an established amortization schedule. Interest rates range from 3.25% to 10.25%.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant with a vested balance of less than \$1,000 will receive a lump sum distribution. Participants or their beneficiaries who have a balance greater than \$1,000 may elect to receive the total vested balance in a lump sum distribution or may leave the balance in the Plan until minimum distribution is required. Participants may withdraw voluntary contributions from their accounts by reason of financial hardship under specific guidelines set forth in the Plan. In-service withdrawals are also allowed for participants who are at least 59 ½ years old.

Forfeitures

The amounts of forfeitures available were \$7,763 and \$2,475 at December 31, 2013 and 2012, respectively. These accounts will be used to satisfy future matching contribution requirements and plan expenses. The Company use \$4,609 and \$0 to fund employer matching contributions during the years ended December 31, 2013 and 2012, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis for fully benefit – responsive investment contracts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustees. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 3 – CERTIFIED INVESTMENTS

Certain information, including the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contract, related to investment and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest income from notes receivable from participants and interest and dividends for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust Company (State Street) and T. Rowe Price Trust Company (T. Rowe), collectively the trustees, of the Plan.

NOTE 4 – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

NOTE 5 –FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the assets or liabilities.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: The stable value fund (SVF) is valued at the net asset value of the shares held by the Plan. The net asset value is based on the market value of its underlying investments. The fund's net asset value is not a publicly-quoted price in an active market.

NOTE 5 – FAIR VALUE MEASUREMENT (CONTINUED)

Fair Value of Investments in Entities that use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31:

<u>Investment Type</u>	<u>Fair Value 2013</u>	<u>Fair Value 2012</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Stable value fund	\$ 3,380,281	\$ 3,187,200	N/A	Daily	Daily

The stable value fund's objective is to maximize current income consistent with the maintenance of principal and to provide for benefit-responsive participant withdrawals at contract value for certain events without penalty or adjustment. The trust will attempt to achieve these objective by investing primarily in guaranteed investment contract issued by insurance companies and other similar instruments that are intended to maintain a constant net asset value. However, there is no assurance that this objective can be achieved.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their entire accounts.

NOTE 7 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and a stable value fund managed by T. Rowe Price, the trustee and recordkeeper of the Plan as of December 31, 2013 and 2012, respectively. These investments qualify as party-in-interest investments/transactions. Fees incurred by the Plan for the investment management services are included in administrative expenses. As described in Note 2, the Plan made a direct payment to the third party administrator of \$3,891 and \$1,198 which was not covered by revenue sharing during December 31, 2013 and 2012, respectively. The Plan Sponsor pays directly any other fees related to the Plan's operations.

NOTE 8 – TAX STATUS

The IRS has determined and informed the Company by a letter dated June 5, 1992, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NOTE 8 – TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
