1. Description of Plan

The following description of SG Administration, LP 401(k) Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers all employees of SG Administration, LP and affiliated companies (collectively, the "Company") who have completed six months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Company contributes a discretionary percent of the first 6% of compensation a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Participants may elect to contribution up to 100% of eligible compensation. Employees are automatically enrolled at a 6% (3% prior to September 30, 2011) deferral rate upon their first day of eligibility, unless they request otherwise. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants are always 100% vested in their voluntary contributions.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service or upon death or disability of the participant.

2. Summary of Significant Accounting Policies (continued)

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Guaranteed Investment Account

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2013, the date the financial statements were available to be issued.

Reclassification

Certain reclassifications have been made in the prior year's financial statements to conform to the current year's presentation.

3. Information Certified and Provided by Wilmington Trust

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wilmington Trust ("Wilmimgton"), the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedules are complete and accurate.

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2012 and 2011

- Investment income (loss) and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011

- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2012 and the schedule of delinquent participant contributions for the year ended December 31, 2012

4. **Investments (continued)**

	Years Ended December 31,	
	2012	2011
Mutual funds	**$ 2,662,710**	$ (2,476,057)
Guaranteed investment account	**58,693**	48,537
	$ 2,721,403	$ (2,427,520)

5. **Fair Value Measurements**

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's ASC, *Fair Value Measurements and Disclosures,* are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the level of any input that is significant to the fair value measurement. Valuation techniques that a need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. have been no changes in the methodologies used at December 31, 2012 and 2011:

- Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held Plan are open-end mutual funds that are registered with the Securities and Exchange Comm These funds are required to publish their daily net asset value and to transact at that price mutual funds held by the Plan are deemed to be actively traded.

- Guaranteed investment account – Valued at fair value by the insurance company by discounti related cash flows based on current yields of similar instruments with comparable dur considering the creditworthiness of the issuer. Because the participants transact at contract fair value is determined annually for financial statement reporting purposes only. In deter the reasonableness of the methodology, the trustee evaluates a variety of factors, including r of existing contracts, economic conditions, industry and market developments, and overall ratings. Certain unobservable inputs are assessed through review of contract terms (for exa duration or payout date), while others are substantiated utilizing available market data example, swap curve rate).

The methods above may produce a fair value calculation that may not be indicative of net reali value or reflective of future fair values. Furthermore, although the Plan believes its valuation me are appropriate and consistent with other market participants, the use of different methodologi assumptions to determine the fair value of certain financial instruments could result in a differer value measurement at the reporting date.

6. Guaranteed Investment Account

The Plan has entered into a benefit-responsive guaranteed investment contract with Wilmington. Wilmington maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented at fair value on the face of the statements of net assets available for benefits, with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Wilmington, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the guaranteed investment contract at December 31, 2012 and 2011 totaled $4,412,491 and $3,666,734, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. Guaranteed Investment Account (continued)

The average yields consist of the following:

	Years Ended December 31,	
	2012	2011
Based on actual earnings	**2.12%**	2.18%
Based on interest rate credited to participants	**2.09%**	2.15%

7. Party-in Interest Transactions

The Plan sponsor paid certain administrative expenses related to the Plan for the years ended December 31, 2012 and 2011.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. Tax Status

Effective May 1, 1993, the Plan adopted a nonstandardized form of a prototype plan sponsored by Newport Retirement Services, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

With a few exceptions, the Plan is no longer subject to United States federal income tax examinations by authorities for years before 2009.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges which, in some cases, have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31,

Net income per Form 5500	**$ 4,512,857**	$ 439,955

13. Late Deposit of Participant Deferrals

During 2012, the Plan sponsor inadvertently failed to deposit $2,556 of participant deferrals within the required time frame, as stated by the United States Department of Labor's regulations. The Plan sponsor reimbursed the Plan for lost interest in the amount of approximately $17. The Plan sponsor filed Form 5330 and paid the applicable excise tax in 2013. The excise tax payments were made from the Plan sponsor's assets and not from assets of the Plan.
